Table of Contents

Section 1: Introduction

Overview

Indiana*AIM* is the system used to process Indiana Health Coverage Programs (IHCP) claims. Indiana*AIM* generates reports about the data processed. Reports are scheduled to run daily, weekly, monthly, quarterly, annually, or on request, depending on the report. System-generated reports have a report number and a report name. The report number consists of a three-character alpha prefix that identifies the functional area the report belongs to. It also has a four-character numeric that identifies the report within the functional area. A one-character alpha suffix identifies whether the report is daily (D), weekly (W), monthly (M), quarterly (Q), annually (A), or on request (R). Multiple reports may contain the same data, in different formats.

The following report definitions were created jointly by the Systems Unit and the subject matter experts at the time the reports were created. As reports are updated, these definitions are updated to reflect the changes.

Each report definition lists the description of information on the report, the purpose of the report, the sort sequence of information on the report, the distribution of the report, and detailed field definitions. The detailed field definition lists the fields on the report, and defines each field. Following each report definition is a sample of the report layout.

Section 2: ADJ Reports

ADJ-0001-D Daily Check Log

Functional Area	Report Number	Job Name	Report Title
Adjustments/Financial	ADJ-0001-D		Daily Check Log

Description of Information

The Daily Check Log lists all checks received and entered daily.

Purpose

This report controls and tracks all checks received by EDS, regardless of source. The Daily Check Log report lists all checks received daily, and is used by EDS to maintain positive control over cash receipts.

Sort Sequence

- *Primary -* Check control number (CCN), ascending

Distribution

To	Media	Copies	Frequency
EDS	AIM Financial Windows /Paper	1	Daily

Detailed Field Definitions

Check Number	The printed sequence bank number on the check
Payor Name	The name of the payor on the check
Check Amount	The dollar amount of the check
CCN	It is a unique identifier assigned at the time of receipt. The internal number used for online tracking
Lockbox	The total number of lockbox checks received
SURS	The total number of checks received by SURS
Drug Rebate	The total number of checks received by Drug Rebate
EDS Checks	The total number of EDS checks received
RTS Checks	The total number of RTS checks received
Total	The sum total of all checks which were received and logged by all areas

ADJ-0002-D Daily Deposit Log

Functional Area	Report Number	Job Name	Report Title
Adjustments/Financial	ADJ-0002-D		Daily Deposit Log

Description of Information

The Daily Deposit Log summarizes the total number of checks and the total dollar amount to be deposited for each batch number. The report also calculates the total daily deposit amount.

Purpose

The Daily Deposit Log is an internal report used to itemize the dollar amount of all checks deposited. It is also used by EDS to validate that the bank deposit is equal to the internal deposit log for bank reconciliation.

Sort Sequence

- *Primary* - Batch number, ascending

Distribution

To	Media	Copies	Frequency
EDS	AIM Financial Windows /Paper	1	Daily

Detailed Field Definitions

Batch Number	This number identifies the batch number of the checks deposited. A batch number is assigned to each specific type of check received. (Refer to batch range table)
Number Of Checks Deposited	Indicates how many checks for deposit are a specific batch number.
Dollar Amount Deposited	Indicates the total dollar amount for deposited for each batch range.

ADJ-0003-D Daily Cash Control Balance

Functional Area	Report Number	Job Name	Report Title
Adjustments/Financial	ADJ-0003-D		Daily Cash Control Balance

Description of Information

The Daily Cash Control Balancing report is a daily internal report which identifies differences between the total of all check receipt logs and the total number of deposited checks.

Purpose

EDS used this report to identify any discrepancies between the number of checks received and the number of checks deposited. If a variance exists, the checks that were not deposited are listed by CCN with an explanation of why they were held out.

Sort Sequence

- *Primary -* Check control number (CCN), ascending

Distribution

To	Media	Copies	Frequency
EDS	AIM Financial Windows /Paper	1	Daily

Detailed Field Definitions

All Checks Logs	Indicates the total number of checks received as stated on the departmental check logs.
Deposits	Indicates the total number of checks deposited for the day.
Variance	Calculates the difference between the number of checks logged and entered into Indiana*AIM*, and the number of checks deposited at the bank.
CCN	Unique control number given to each check received. The batch number within the CCN indicates the type of check received.
Explanation	A brief explanation why the check was not deposited.

ADJ-2000-D Adjustment Inventory

Functional Area	Report Number	Job Name	Report Title
Adjustments	ADJ-2000-D		Adjustment Inventory

Description of Information

The adjustment inventory report summarizes total adjustments entered into inventory (initiated), returned to the sender, and finalized with a beginning and ending balance calculated daily. It also reports adjustments released into the claims processing cycle during the current daily claims cycles. It breaks down this data by claim type and region, with totals for each claim type and summary totals for all claim types.

Purpose

This report is used by EDS in conjunction with the Aged Adjustment Analysis and Cycle Time Compliance reports to monitor and control adjustment inventory, ensuring that all adjustments are processed promptly. It also supplies EDS with the data to track inventory trends as necessary.

Sort Sequence

None

Distribution

To	Media	Copies	Frequency
EDS	Paper/CRLD	1	Daily
IFSSA	Paper/CRLD	2	Daily

Detailed Field Definitions

CT	The unique code assigned to a claim type. This report displays inventory data for each claim type individually with totals by claim type. This report also summarizes all claim types and their totals.
Desc	The complete name of the claim type
Beginning Inventory	The beginning adjustment inventory. This is carried from the ending inventory of the previous week's report. Initial beginning inventory for the first claims cycle is the total of all adjustment suspense that is converted from the MMIS system, regions 45 and 46 only. All other regions will be zero.

Adj Initiated	The number of adjustments logged into inventory during the current daily cycle. This is obtained by counting all ICNs entered into the adjustment inventory table, region 50, and a count of all cash receipts dispositions entered with a refund adjustment reason code of 8040-8079 or 8160-8199, region 51. For regions 54-57, mass adjustments, report a count of all adjustment claims released into the weekly cycle for processing. These are started immediately by the system.
Adj RTS	The number of adjustment requests logged as returned to the sender or mis-batched during the daily adjustment cycle. This data is obtained from the adjustments return to sender table. There will be no RTS data for regions 54-57.
Adj Finalized	The number of adjustments reported for all regions adjudicated to final *approved to pay* or *deny* status, locations 97, 98, or 66, during the daily cycle.
Ending Inventory	The ending inventory as calculated at the end of each daily cycle, calculated as follows: (Beginning Inventory + Adjustments Initiated) - (Adj RTS + Adj Finalized) = Ending Inventory
Adj. Released	This field is for informational purposes only and does not affect the calculations in this report. It states the number of adjustments by claim type and region that were released *production released* for processing into the Indiana*AIM* system during the daily cycle.

ADJ-2001-W Aged Adjustment Listing - by User ID

Functional Area	Report Number	Job Name	Report Title
Adjustments	ADJ-2001-W		Aged Adjustment Listing - by User ID

Description of Information

The Aged Adjustment Listing - by User ID lists all outstanding adjustments by user in aged and claim type order.

Purpose

This report allows EDS adjustment analysts and their supervisor to maintain positive control over aging adjustments by identifying the oldest claims for priority resolution.

Sort Sequence:

- *Primary* - UserID, ascending
- *Secondary* - Days aged, descending
- *Tertiary* - Claim type, ascending
- *Fourth* - ICN, descending

Distribution

To	Media	Copies	Frequency
EDS	Paper/CRLD	1	Weekly

Detailed Field Definitions

C/T	The claim type of the aged adjustment claim.
ICN	The internal control number (ICN) of the aged adjustment claim.
RID No	The recipient's identification number associated with the aged adjustment claim.
Bill Prov	The assigned billing provider associated with the aged adjustment claim.
Elsp Days	The number of days the adjustment claim has aged.
Loc Cd	The latest occurring location code of the aged adjustment claim.
Loc Dt	The latest occurring date on which the claim entered a location.
Days	The number of days the claim has been in the current location.
User ID	The assigned number identifing the clerk who initiated the adjustment claim.
Total No. Aged Adjustments	The total number of adjustments reported on the aged listing for a specific clerk ID.

NOTE: This report starts a new page for each new User ID encountered.

ADJ-2003-W Aged Active Claim Analysis - Adjustments

Functional Area	Report Number	Job Name	Report Title
Adjustments	ADJ-2003-W		Aged Active Claim Analysis - Adjustments

Description of Information

This report lists the previous, current, and average number of days in each category, as well as the current balance. There are six time segments ranging from zero to 91+ days. The information on this report pertains to adjustment claims only.

Purpose

Sort Sequence

- *Primary* - Claim type, descending
- *Secondary* - Location code, ascending

Distribution

To	Media	Copies	Frequency
EDS	Paper/CRLD	1	Weekly
IFSSA	Paper/CRLD	2	Weekly

Detailed Field Definitions

Claim Type

This is the one-byte field representing claim type. Valid values are as follows:

A = Crossover Part A
B = Crossover Part B (Medical)
C = Crossover (Outpatient)
D = Dental
H = Home Health
I = Inpatient
L = Long Term Care
M = CMS 1500
O = Outpatient
P = Pharmacy

Desc.

Description of the claim type indicator.

Location Code

The 15-byte alpha/numeric field containing the location of the claim and its two-byte alpha/numeric code. Valid values are as follows:

00 - Validation
01 - Provider
02 - Recipient
03 - Prior Auth
04 - Reference
20 - History
21 - Medical
30 - SURS
40 - CCF
41 - Recycle
42 - Hold
43 - IFSSA
44 - CSCHS
90 - Special Handling
PP - Production Adjustment Pending Release
PR - Production Adjustment Released

Current Bal

The total number of claims suspended in each location.

N-N Days Count

The total number of claims suspended in this location for *n-n.*

N-N Days %

The percentage of claims suspended in this location. The percentage is calculated as follows:

$$\frac{\textit{n-n}\text{ Day Count}}{\text{Location x Current Balance}}.$$

Sub Total Current Bal

The total number of claims suspended for all locations in the above claim type.

Subtotal Count N-N

The total number of claims suspended for all locations in the above claim type.

Subtotal Pct N-N Days

The percentage of claims suspended for all locations in the above claim type. The percentage is calculated as follows:

$$\frac{\text{Subtotal }\textit{n-n}\text{ Day Count}}{\text{Subtotal Current Bal}}$$

Total Location X Current Bal

The total number of claims suspended in this location for all claim types.

Total Location X N-N Day Count

The total number of claims suspended to this location for the displayed number of days for all claim types.

Sub Total Location X Pct	The percentage of claims suspended to this location for all claim types. The percentage is calculated as follows: Total Location *n-n* Day Count Total Location X Current Bal
Grand Total N-N Days Count	The total number of claims suspended in all locations for all claim types.
Grand Total N-N Days Pct	The percentage of claims suspended in all locations for all claim types. The percentage is calculated as follows: Grand Total *n-n* Day Count Grand Total Current Bal

ADJ-2004-W EOB Denial Analysis List - Adjustments

Functional Area	Report Number	Job Name	Report Title
Adjustments	ADJ-2004-W		EOB Denial Analysis List - Adjustments

Description of Information

The report lists the error code, description, and the Explanation of Benefits (EOB) posted to the claim when it denied. The total number of denials for each error code and the number of denials per claim type are reported in the claim type columns. At the end of the report, the grand total number of auto denials and manual denied claims is calculated. This report only counts denied adjustment claims.

Purpose

The EOB Denial Analysis List report is used by EDS and IFSSA to identify the number of adjustment claims that auto-denied and manually denied in the current weekly claims cycle. The error status codes (ESC) which cause claims to be auto-denied are in the Edit/Audit Disposition Table. ESCs which cause claims to be manually denied are set to suspend in the Error Disposition Table.

Sort Sequence

- *Primary* - ESC, ascending
- *Secondary* - EOB, descending

> *Note: This report has a section break between auto denied claims and manually denied claims.*

Distribution

To	Media	Copies	Frequency
IFSSA	Paper/CRLD	2	Weekly
EDS	Paper/CRLD	1	Weekly

Detailed Field Definitions

ESC	The four-byte error status code which caused at least one claim to auto-deny during the current processing cycle.
Desc.	The description of the four-byte error status code
EOB	The four-byte Explanation of Benefit code assigned to the ESC when it is set to auto-deny.
Total	The number of times that this ESC auto-denied during the current processing cycle (all claim types).
Pharm	The total number of times that this error status code auto-denied for pharmacy claims.

Med	The total number of times that this error status code auto-denied for medical claims.
Dent	The total number of times that this error status code auto-denied for dental claims.
Inpat	The total number of times that this error status code auto-denied for inpatient claims.
Outp	The total number of times that this error status code auto-denied for outpatient claims.
LTC	The total number of times that this error status code auto-denied long term claims.
H Hlth	The total number of times that this error status code auto-denied for home health claims.
Xovr	The total number of times that this error status code auto-denied for crossover claims.
Total Errors	The number of auto-denials for all the error status codes during the current processing cycle for all claim types, sorted by claim type.
ESC	The four-byte error status code associated with the manual denial. ESCs set to suspend on the error disposition table require manual examination of the claim. Claims are checked for validity and completeness. If the claim does not meet the criteria of the ESC, it may result in the manual denial of the claim.
Desc	The description of the four-byte ESC.
EOB	The four-byte Explanation of Benefit code assigned to the ESC.
Total	The number of times that this ESC manually denied during the current processing cycle for all claim types.
Pharm	The total number of times that this error status code manually denied for pharmacy claims.
Med	The total number of times that this error status code manually denied for medical claims.
Dent	The total number of times that this error status code manually denied for dental claims.
Inpat	The total number of times that this error status code manually denied for inpatient claims.
Outp	The total number of times that this error status code manually denied for outpatient claims.
LTC	The total number of times that this error status code manually denied long term care claims.
H Hlth	The total number of times that this error status code manually denied for

	home health claims
Xovr	The total number of times that this error status code manually denied for crossover claims.
Total Errors	The number of manual denials for all error status codes during the current processing cycle for all claim types, sorted by claim type.
Grand Total	The number of manual and auto-denials during the current processing cycle for all claim types, sorted by claim type

ADJ-2005-W Edit/Audit Override Analysis - Adjustments

Functional Area	Report Number	Job Name	Report Title
Adjustments	ADJ-2005-W		Edit/Audit Override Analysis - Adjustments

Description of Information:

This report is an analysis of all adjustment overrides, by user ID. It indicates which errors were overridden and the number of claims overridden for a specific adjustment analyst, sorted by claim type.

Purpose

The report is used by EDS and IFSSA to identify which error codes are being overridden. It aids in monitoring the frequency of which errors are overridden and by whom.

Sort Sequence

- *Primary* - User ID, ascending
- *Secondary* - Claim type, ascending
- *Tertiary* - ESC, ascending

Distribution

To	Media	Copies	Frequency
EDS	Paper/CRLD	0	Weekly
IFSSA	Paper/CRLD	0	Weekly

Detailed Field Definitions

User ID — The eight-byte user ID of the Adjustments clerk who overrode the error status code listed. Print only the first occurrence of each user ID.

CT — The one-byte claim type indicator. Valid values are as follows:

D = Dental
L = Long Term Care
M = CMS 1500
I = Inpatient
O = Outpatient
P = Pharmacy
X = Crossover A, B, and C

ESC — The four-byte error status code associated with the override. Only Error Status Codes that are overridden at least once are displayed.

Desc ESC	A brief description of the error status code.
Num Of Claims	The number of claims overridden for a specific error status code for the particular user ID.
Total Overrides	The total number of claims overriden for all user IDs and all error status codes.

ADJ-2006-W Adjustments - Return to Sender Log

Functional Area	Report Number	Job Name	Report Title
Adjustments/Financial	ADJ-2006-W		Cash Receipts Return to Sender Log

Description of Information

The Return to Sender Log lists all adjustment ICNs and CCNs returned weekly.

Purpose

This report is used by EDS as a monitoring and control report for all returned documentation and request for additional documentation or information.

Sort Sequence

- *Primary* - Provider number, ascending
- *Secondary* - Date returned, ascending
- *Tertiary* - Adjustment ICN or CCN, ascending

Distribution

To	Media	Copies	Frequency
EDS	Paper/CRLD	1	Weekly

Detailed Field Definitions

Date Received	Date of cash receipt as indicated by the Year and Julian Date of the cash control number.
Date Returned	Date logged for return to sender as stated on the Return to Sender audit table.
Provider Number	The provider as stated on the Return to Sender table, if applicable. This field is not required.
Sender Name	Name of sender as entered in the Return to Sender table.
Adj ICN	The unique internal control number assigned to the adjustment request. This number identifies the year, date, and claim type.
CCN	The unique cash control number assigned to the cash receipt. This number identifies the year, date, and type of check received.
Return Reason	The three-character reason code that identifies why the check was received. Valid value range: R00-R19
User ID	The unique User ID that identifies who initiated the return to sender action. See audit table.
Total Returns	Indicates the total number of cash receipts received and returned to sender.

ADJ-2007-W Analysis by Provider Number - Adjustments

Functional Area	Report Number	Job Name	Report Title
Adjustments	ADJ-2007-W		Analysis by Provider Number - Adjustments

Description of Information

The report lists the top ten provider numbers and the top five Error Status Codes associated with adjustment claims for those providers for a given reporting week.

Purpose

The Error Analysis by Provider Number report is used by EDS to examine the top ten providers who encountered the most errors in the adjustment claims processing system. This report is forwarded to Client Services so they can notify the affected providers of the errors encountered. The primary purpose of this report is provider education.

Sort Sequence

ADJ-2008-W Error Analysis by Suspended Error Code-Adjustments

Functional Area	Report Number	Job Name	Report Title
Adjustments	ADJ-2008-W		Error Analysis by Suspended Error Code-Adjustments

Description of Information

The report shows the number of adjustment claims by claim type suspended for each edit. All edits suspending are listed under the error number column with a brief description. For each edit a total number of suspensions for each adjustment region is reported with a total number calculated for each claim type. A summary of all regions and a grand total are calculated.

Purpose

The Error Analysis by Error Code report is used by EDS and IFSSA to monitor weekly edit suspensions for each adjustment region. When high edit counts are identified, research is done to determine if edits need revision or if providers are experiencing billing problems. If a provider is identified as having problems, the provider relations area may contact the provider to help alleviate or resolve the problems

ADJ-2009-W Error Analysis by Forced Error Code-Adjustments

Functional Area	Report Number	Job Name	Report Title
Adjustments	ADJ-2009-W		Error Analysis by Forced Error Code-Adjustments

Description of Information

The report lists the error code, its description, and the number of times per claim type that the error was overridden and forced through the system. This is divided by adjustment region code with a total for each error status code.

Purpose

The Error Analysis by Forced Error Code report is used by EDS and IFSSA to monitor the effectiveness of the error codes. It is also used to determine whether error codes are necessary, depending on the volume of claims that are forced to adjudicate and pay.

Sort Sequence

Primary - Error status code, ascending

Detailed Field Definitions

ESC	The four-byte error status code forced through the system during the current weekly claims cycle
Desc	The description of the four-byte ESC
Total	The total number of times that this error status code forced through the system during the past week for each adjustment region.
Pharm	The total number of times that this error status code forced through the system for pharmacy claims for each adjustment region.
Med	The total number of times that this error status code forced through the system for medical claims for each adjustment region.
Dent	The total number of times that this error status code forced through the system for dental claims for each adjustment region.
Inpt	The total number of times that this error status code forced through the system for inpatient claims for each adjustment region.

Outp	The total number of times that this error status code forced through the system for outpatient claims for each adjustment region.
LTC	The total number of times that this error status code forced through the system for long term care claims for each adjustment region.
HHLTH	The total number of times that this error status code forced through the system for home health claims for each adjustment region.
XOvr	The total number of times that this error status code forced through the system for crossover A, B, and C claims combined for each adjustment region.
Grand Total	The total number of times that all error status codes forced through the system during the current weekly claim cycle for each adjustment region.

ADJ-2010-W Weekly Claim Adjudication Cycle Time Analysis-Adjustments

Functional Area	Report Number	Job Name	Report Title
Adjustments	ADJ-2010-W		Weekly Claim Adjudication Cycle Time Analysis-Adjustments

Description of Information

The report lists adjustment claim counts by claim type and the number of days to reach final status. Final status is reached when claims hit locations: 66-denied, 97-approved to pay (claim payment hold), 98-approved for payment, or 99-paid. This report also lists the percentage of total claim volume by days elapsed and the average age of claims to final status. This report spans a 45-day period which equates to the 45-day requirement to adjudicate 100 percent of all adjustment claims in 45 days.

Purpose

The Weekly Claim Adjudication Cycle Time Analysis-Adjustments report is used by EDS and IFSSA to monitor the adjustment claims processing time to ensure that full cycle time compliance is met.

Sort Sequence

- *Primary* - Claim type, ascending

Distribution

To	Media	Copies	Frequency
EDS/IFSSA	Paper/CRLD	0	Weekly

Detailed Field Definitions

Days — Number of days column. This represents a day of elapsed time for the reporting period

Claim Type

This field represents claim type. Valid values are as follows:

- P=Pharmacy
- M=CMS-1500
- D=Dental
- I=Inpatient
- O=Outpatient
- L=Long term care
- H=Home health
- X=Crossovers A, B, and C

The total claim count and the total percentage of claims are reported for each day of elapsed time. A *G* is printed next to each claim type's percent column on the 45th day of elapsed time to indicate that this is the goal to adjudicate 100 percent of all adjustments. An * is printed next to the percentage column to indicate when 100 percent adjudication actually occurred for that claim type. Claim counts below the asterisked row are always zero.

Totals

The total number of claims processed for each claim type and all claim types during the 45-day reporting period.

Standard

The RFP requires that 100 percent of claims in suspense are processed within 45 days. Excluded from this standard are claims in locations: 21-Medical Policy, 42-Hold, 43-IFSSA, 44-CHSCS, 97-Fiscal Pend. All claim types. Note: Days in these locations are not included in the total number of days in suspense.

Actual

Percent of total volume by claim type that reached final status in 45 days.

Average

The average number of days taken for all claims in each claim type to reach final status during the reporting period.

ADJ-2072-W Mass Adjustment Process - LTC Retro Rate Claim Listing

Functional Area	Report Number	Job Name	Report Title
Adjustments	ADJ-2072-W		Mass Adjustment Process - LTC Retro Rate Claim Listing

Description of Information

The Mass Adjustment Process - LTC Retro Rate Claim Listing is produced as both an on-line and CRLD report which lists all voids, retro rates, and mass adjustments which were adjusted during the current weekly cycle. The report is sorted by provider number and lists each claim adjusted for each region, the number of claims adjusted, and the number of providers associated with the claim adjustments.

Purpose

This report is used by EDS and IFSSA to validate all claims processed for each region during the weekly cycle. Client Services and other areas will also have access to this report on-line to aid in resolving retroactive rate adjustment related questions which may arise.

Sort Sequence:

CRLD

- *Primary* - Provider number, ascending
- *Secondary* - Adjustment ICN, ascending

On-line

- *Primary* - Set sort by provider number, ascending
- *Secondary* - Within provider number, sort options include:
  Adjustment ICN
  Original ICN
  Recipient

Distribution

To	Media	Copies	Frequency
EDS	CRLD/Paper	1	Weekly
IFSSA	CRLD/Paper	2	Weekly

Detailed Field Definitions

Indiana Health Coverage Program	The provider's unique assigned number.
Adjustment ICN	The Internal Control Number (ICN) of the adjusted claim, otherwise known as the daughter claim.

Original ICN	The ICN of the original claim, otherwise known as the mother claim.
Provider/Loc	The provider's unique assigned number.
RID No.	The RID number associated with the adjusted claim.
Claim DOS - From	The “from” date of service on the adjusted claim.
Claim DOS - Thru	The “thru” date of service on the adjusted claim.
Original Pd Amount	The original paid amount of the claim.
Adjustment Pd Amount	The new amount of the claim.
Net Adjusted Amount	The difference between the original paid amount and the adjustment paid amount.
Reason Code	Code which explains the reason for the adjustment.
Total # Claims Adjusted	The total number of claims associated with all Long Term Care retroactive rate adjustments for all providers for the current weekly cycle.
Total # Providers	The total number of providers associated with all Long Term Care Retroactive Rate adjustments for all providers for the current weekly cycle.
Total Net Adjusted Amount	The total of all net adjusted amounts for the current weekly cycle.

Section 3: AVR Reports

AVR-0001-D Daily Call Statistics Hourly Summary

Functional Area	Report Number	Job Name	Report Title
Automated Voice Response l	AVR-0001-D		Daily Call Statistics Hourly Summary

Description of Information

The Daily Call Statistics Hourly Summary (AVR-0001-D) report is sorted by hour and lists the total number of Eligibility, Benefit Limit, Provider Remittance Advice, Prior Authorization, and Claim Status transactions for the time period. The report includes total counts for caller hang-ups, provider-reached maximum number of transactions, host down, or provider-reached maximum number of errors for the time period.

Purpose

EVS uses the Daily Call Statistics Hourly Summary Report (AVR-0001-D) to identify peak hours of operation, average duration and transactions per call, types of calls, and call end reasons.

Sort Sequence

- *Primary* - Time period

Distribution

To	Media	Copies	Frequency
Requestor	Paper	1	Daily

Detailed Field Definitions

Time Period	Indicates the hour of the day that the data represents.
Num Txns	Indicates the total number of transactions performed during the calls made to the VRS during the time period.
Average Per Call:	
Call Duration	The average length of time for phone calls during the time period. The average call duration time is calculated by dividing the total duration of all calls for the time period by the total number of calls for the time period. Call Duration= Total duration of all calls / num calls
Host Rsp Time	The average time the VRS takes to respond to a request or inquiry. This

time is calculated by dividing the total time the host takes to respond to all inquires (transactions) for the time period by the total number of calls for the time period. Host Rsp Time = $\frac{\text{Total length of host response time}}{\text{num calls}}$

Num Txns

The average number of transactions made for the time period. The average number of transactions is calculated by dividing the total number of transactions made for the time period by the total number of calls for the time period. by the total number of calls for the time period.

Num Txns = $\frac{\text{Total number of transactions}}{\text{num calls}}$

Num Errs

The average number of errors encountered by the VRS for the time period.

Host Timeouts

The host computer is allowed three time-outs (ten seconds each) to respond to a transaction. If the host does not respond after the third time-out, or if an error occurs during the processing of the transaction, the system terminates the call.

User Timeouts

The user is allowed two user time-outs (10 seconds each) to enter the requested data. On the first time-out, the system prompts the user for the required data. On the second time-out, the system terminates the call.

Call End Reason

Call Hangup

The total number of times providers terminated a call to the VRS by hanging up their phone.

Max Txn

The total number of times a call to the VRS was terminated because the caller exceeded the maximum number of transactions allowed per call. The VRS can be configured to allow the user a preset maximum number of inquires per call session. This limit is initially set to four transactions.

Hst Err

The total number of times a call to the VRS was terminated because there was a host error.

Max Err

The total number of calls terminated due to the maximum number of errors input by the user.

Misc

Total number of calls terminated due to reasons other than caller hangup, maximum transactions, host error, or maximum errors.

Transaction Counts:

Recip Elig

Indicates the total number of positive responses given by the VRS to all eligibility requests for the time period.

Benefit Limit

Indicates the total number of benefit limit information requests made on the VRS for the time period.

Remit Advice

Indicates the total number of remittance advice information requests made on the VRS for the time period.

Prior Auth

Indicates the total number of prior authorization information requests made on the VRS for the time period.

AVR-0002-D Daily Summary by Provider Number

Functional Area	Report Number	Job Name	Report Title
Automated Voice Response	AVR-0002-D		Daily Summary by Provider Number

Description of Information

The Daily Summary by Provider Number (AVR-0002-D) report includes total calls and transactions as well as totals for Eligibility, Benefit Limit, Provider Remittance Advice, Prior Authorization, and Claim Status transactions by provider number. The report also splits out the call end reasons for all calls received from a particular provider. This information is calculated by the Voice Response System (VRS) based on caller requests and host responses.

Purpose

EDS uses the Automated Voice Response Daily Summary by Provider Number to track voice response eligibility verification calls and transactions by provider number. A provider with a high volume of calls can be targeted and converted to an OMNI device or NECS software for better service.

Sort Sequence

- *Primary -* Provider number

Detailed Field Definitions

Provider Num — The system-assigned unique number which identifies a provider.

Total Calls — Indicates the total number of calls made to the VRS by that provider during the reporting period.

Total Txns — Indicates the total number of transactions requested on the VRS by that provider during the reporting period.

Transaction Counts:

Recip Elig — Indicates the total number of positive responses given by the VRS to all eligibility requests for the reporting period.

Benefit Limit — Indicates the total number of benefit limit information requests made on the VRS for the reporting period.

Remit Advice — Indicates the total number of remittance advice information requests made

	on the VRS for the reporting period.
Prior Auth	Indicates the total number of prior authorization information requests made on the VRS for the reporting period.
Claim Status	Indicates the total number of claim status information requests made on the VRS for the reporting period.
Call End Reason:	
Call Hang-up	The total number of times during the reporting period that a call to the VRS terminated due to the caller hanging up.
Max Txn	The total number of times during the reporting period that a call to the VRS terminated due to the caller entering the maximum number of transactions.
Hst Err	The total number of times during the reporting period that a call to the VRS terminated due to the caller receiving a host error on their inquiry transaction.
Max Err	The total number of times during the reporting period that a call to the VRS terminated due to the caller entering the maximum number of input errors.
Misc	The total number of times during the reporting period that a call to the VRS terminated for a reason other than Caller Hang-up, Max Txns, Host Error, or Max Error.

AVR-0003-W Weekly Summary by Provider Type

Functional Area	Report Number	Job Name	Report Title
Automated Voice Response	AVR-0003-W		Weekly Summary by Provider Type

Description of Information

The Weekly Summary by Provider Type (AVR-0003-W) report includes total calls and transactions as well as totals for Eligibility, Benefit Limit, Provider Remittance Advice, Prior Authorization, and Claim Status transactions by provider type. The report also splits out the call end reasons for all calls received from a particular provider type. This information is calculated by the Voice Response System (VRS) based on caller requests and host responses.

Purpose

EDS uses the Automated Voice Response Weekly Summary by Provider Type to track voice response eligibility verification calls and transactions by provider type. This report helps identify target audiences for education and possible conversion to another EVS alternative. This weekly report is a consolidation of the daily reports (AVR-0003-D).

Sort Sequence

- *Primary -* Provider type

Distribution

To	Media	Copies	Frequency
Requestor	Paper	1	Weekly

Detailed Field Definitions

Prov Type
This indicates the type of service the provider is currently on file as able to provide. Valid values are found in the Tables Manual. This is the primary sort key for the report

Description
The description for the numeric provider type code.

Total Calls
Indicates the total number of calls made to the VRS by that provider during the reporting period.

Total Txns
Indicates the total number of transactions requested on the VRS by that provider during the reporting period.

Transaction Counts

Recip Elig
Indicates the total number of positive responses given by the VRS to all eligibility requests for the reporting period.

Benefit Limit
Indicates the total number of benefit limit information requests made on the VRS for the reporting period.

Remit Advice	Indicates the total number of remittance advice information requests made on the VRS for the reporting period.
Prior Auth	Indicates the total number of prior authorization information requests made on the VRS for the reporting period.
Claim Status	Indicates the total number of claim status information requests made on the VRS for the reporting period.
Call End Reason:	
Call Hang-up	The total number of times during the reporting period that a call to the VRS terminated due to the caller hanging up.
Max Txn	The total number of times during the reporting period that a call to the VRS terminated due to the caller entering the maximum number of transactions.
Hst Err	The total number of times during the reporting period that a call to the VRS terminated due to the caller receiving a host error on their inquiry transaction.
Max Err	The total number of times during the reporting period that a call to the VRS terminated due to the caller entering the maximum number of input errors.
Misc	The total number of times during the reporting period that a call to the VRS terminated for a reason other than Caller Hang-up, Max Txns, Host Error, or Max Error.

Section 4: BIA Reports

BIA-1001-M Buy-In Part A Billing (Receiving)

Functional Area	Report Number	Job Name	Report Title
Buy-In	BIA-1001-M		Buy-In Part A Billing (Receiving)

Description of Information

The Buy-In Part A Billing Report is a paper copy of the system-generated monthly tape from CMS. This report informs Indiana of the status of Buy-In Part A Medicaid recipients by using transaction codes to communicate an update, or an acknowledgment of State accretion, deletion or change.

Purpose

The purpose of the Buy-In Part A Billing Report is to display CMS's current full listing of billing records and acknowledgments of State accretion, deletion, and change records.

Sort Sequence

- Primary - HIB number (Social Security claim numbers), in ascending order with left justification

Distribution

To	Media	Copies	Frequency
EDS	CRLD/Paper	1	Monthly
IFSSA	CRLD/Paper	1	Monthly

Detailed Field Definitions

HIB	Recipient's Medicare number on the Buy-In Part A billing tape received from CMS monthly.
Last	Recipient's last name on the Buy-In Part A billing tape.
First	Recipient's first name on the Buy-In Part A billing tape.
Mi	Recipient's middle initial on the Buy-In Part A billing tape.
Sex	Identifies recipient's numeric sex code on the Buy-In Part A billing tape.
Birth/New HIB	This field contains either the recipient's date of birth (mmddyy) or the new HIB on the Buy-In Part A billing tape. Also, this position may contain an alpha/numeric character for the last number in the date of birth if CMS shows a different DOB. This alphabetic character is equal to the new number, for example 1=A, 2=B and so on.
Agency Code	Identifies the three-character alphanumeric on the Buy-In Part A billing tape that CMS has assigned each state. Refer to the *Buy-In Manual* for valid values.

Sub	Identifies a one-character alpha/numeric code on the Buy-In Part A billing tape that conveys additional information in conjunction with designated transaction codes. Refer to the *Buy-In Manual* for valid values.
Agency/Date	The Agency/Date field may contain the Sub Code effective date, mmyy, which is found right next to the sub code on the Billing A Tape. This same field may also have a three character alpha/numeric agency code for another state on the Buy-In Part A billing tape
Billing Dte	A four-character numeric code which identifies the month and year, mmyy, the State is billed for a recipient's premiums, as displayed on the Buy-In Part A billing tape.
Txn	The first two characters of the four-character code describing CMS's most recent response to State accretion, deletion, or changed records as shown on the Buy-In Part A billing tape. The last two characters are the modifier code, which describes the State or EDS action for that recipient (accretion, deletion, or charge). Refer to the Buy-In Manual for the transaction codes. The second two characters on the transaction codes may be zeros or blank. Refer to the *Buy-In Manual*. as shown on the Buy-In Part A billing tape. The last two characters are the modifier code, which describes the State or EDS action for that recipient (accretion, deletion, or charge). Refer to the Buy-In Manual for the transaction codes. The second two characters on the transaction codes may be zeros or blank. Refer to the *Buy-In Manual*.
Eff Date	The effective date of the transaction during which the recipient was accreted, deleted, or changed Buy-In Part A status as shown on the Buy-In Part A billing tape. This field may be blank
RID	Recipient's 12-character numeric identification number on the Buy-In Part A billing tape. This field may be all zeros or an invalid number sent by CMS.
Premium Amount	A six character numeric code describing the premium amount billed by CMS to the State for a recipient's Buy-In Part A premiums.
Normal Billing	Includes all 41bb transaction codes from the billing tape. The 41bb (41__) is an ongoing Buy In Part A recipient. CMS has already bought this recipient in and continues to bill IFSSA a monthly premium.
Total Accretions	The enrollment of a recipient in the Buy In Part A program. The total number of accretions on the Buy-In Part A billing tape. The accretion codes are 11XX and 43XX. Refer to the *Buy-In manual* for the transaction codes.
Total Deletions	The removal of a recipient from the Buy In Part A program. Total number of deletions on the Buy-In Part A billing tape. The deletion codes are 14bb, 15bb, 16bb, 17XX, 42bb (42__), and 42XX. Refer to the *Buy-In manual* for the transaction codes.
Total Miscellaneous	Total number of all other transaction codes that are not accretions or deletions on the Buy-In Part A billing tape. Refer to the *Buy-In manual* for the transaction codes.
Total Number Of Records Received From HCFA	Summary of all Normal Billing accretions, deletions, and miscellaneous transactions sent by CMS on the Buy-In Part A billing tape and received by IFSSA

Debits	The changes to the State for recipient part A Premiums. The transaction codes are used by CMS to inform the State that recipients have been bought in transaction code (41bb) or are in the process of being bought in transaction code (11XX), having their premium paid, or are having a debit adjustment with transaction code (43XX) for these recipients. Refer to the Buy-In manual for the transaction codes.
Items	The total number of records for each debit transaction code appearing on the billing tape.
Money	The total dollar amount for each debit transaction code appearing on the billing tape.
Total	Total number of records for all credits transaction code appearing on the billing tape.
Credits	Credits to the State's Part A Buy In account for previous premiums paid in error. The transaction codes used by CMS to inform the State of overpayments for a recipient's Part A premium are as follows: 14bb, 15bb, 16bb, 17XX, 42bb, and 42XX. Refer to the *Buy-In manual* for the transaction codes.
Items	The total number of records for each credit transaction code appearing on the billing tape.
Money	The total number of records for each credit transaction code appearing on the billing tape.
Total	Total number of records for all credits transaction code appearing on the Billing tape.
Miscellaneous Codes	These are transaction codes used by CMS to inform the State of errors on the previous month Premium S15 tape, and various changes in CMS's or SSA's records, such as the status of a case. The miscellaneous codes are: 20XX, 21XX, 23XX, 24XX, 25XX, 27XX, 29XX, 30XX, 31XX, 49XX. Refer to the *Buy-In manual* for the transaction codes.
Items	The total number of records for miscellaneous transaction codes appearing on the Billing tape.
Total	Total number of records for all credit transaction codes appearing on the Billing tape.
HCFA Premium Dollar Billed	This is an accounting of the total dollar amount billed by CMS.
Debits	This is the total dollar amount CMS is billing IFSSA for Part A premium, and should equal the total debit mention earlier.
Credits	This is the total dollar amount CMS is crediting IFSSA for recipients Part A premium, and should equal total credit mentioned earlier.
Total Billed	This is the total dollar amount CMS is billing IFSSA for Buy In Part A premiums, which is equal to the debits minus the credits.

BIA-1002-M Buy-In Part A Premium S15 (Sending)

Functional Area	Report Number	Job Name	Report Title
Buy-In	BIA-1002-M		Buy-In Part A Premium S15 (Sending)

Description of Information

The Buy-In Part A premium S15 report is a paper copy of the accretion, deletion, or changes made to Buy-In Part A recipients by the State or EDS in a given month. These updates are sent to CMS on a monthly tape. CMS responds to each entry by sending the Buy-In Part A billing tape.

Purpose

The purpose of the Buy-In Part A premium S15 report is to notify CMS of any recipient accretion, deletion, or changes after the monthly Buy-In Part A billing tape is run.

Sort Sequence

- *Primary -* HIB number (Social Security), ascending, left justification.

Distribution

To	Media	Copies	Frequency
EDS	CRLD/Paper	1	Monthly
IFSSA	CRLD/Paper	1	Monthly

Detailed Field Definitions

HIB	Recipient's Medicare number on the Buy-In Part A Premium S15 Tape sent to CMS.
Last	Recipient's Medicare number on the Buy-In Part A Premium S15 Tape sent to CMS.
First	Recipient's first name on the Buy In Part A Premium S15 Tape.
MI	Recipient's middle initial on the Buy-In Part A Premium S15 Tape
Sex	Identifies recipient's numeric sex code on the Buy-In Part A Premium S15 Tape
Birth	Recipient's date of birth (mmddyy) on the Buy-In Part A Premium S15 Tape.
Agency Code	A three-character alphanumeric value on the Buy-In Part A Premium S15 Tape that CMS has assigned to each state. Refer to the *Buy-In manual* for agency codes.

Txn	The two-character numeric code sent to CMS indicating an EDS or IFSSA update, accretion, deletion, change, requiring a response from CMS. This is also called the *modifier* portion of the transaction code. Refer to the *Buy-In manual* for the transaction codes.
Eff Date	The effective date, in mmyy format, needed for the transaction sent on the Buy-In Part A Premium S15 tape.
Rid	Recipient's 12-character identification number on the Buy-In Part A Premium S15 tape.
Total Accretions	Total number of accretions made by EDS or IFSSA and sent to CMS on the Buy-In Part A Premium S15 tape. The accretion codes are 61 and 75.
Total Deletions	Total number of deletions made by EDS or IFSSA and sent to CMS on the Buy-In Part A Premium S15 tape. The deletion codes are 51, 53, and 76.
Total Changes	Total number of changes made by EDS or IFSSA and sent to CMS on the Buy-In Part A Premium S15 tape. The change record code is 99.
Summary Of Records Sent To HCFA	Summary of all accretions, deletions, and changes made by EDS or IFSSA and sent to HCFA on the Buy-In Part A Premium S15 tape.

BIA-1003-M Buy-In Part A Exception Error By HIB

Functional Area	Report Number	Job Name	Report Title
Buy-In	BIA-1003-M		Buy-In Part A Exception Error By HIB

Description of Information

The Buy-In Part A Exception Error By HIB Report contains records from the Billing tape that need to be reviewed for different reasons.

The following transaction codes always appear on the Buy-In Part A Exception Error by HIB report: 1128, 1728, 20XX, 21XX, 24XX, 25XX, 27XX, 29XX, 30XX, and 31XX.

The Buy-In Part A transaction codes definition indicates the additional codes that trigger certain records to appear on the Buy-In Part A Exception Error By HIB Report. See the *Buy-In Part A Transaction Code* document found in *Appendix A*.

Purpose

The purpose of the Buy-In Part A Exception Error By HIB Report is to identify the above listed codes from CMS. EDS reviews, researches, and resolves any problems associated with these codes.

Sort Sequence

- *Primary -* HIB number (Social Security), ascending, left justification.

Distribution

To	Media	Copies	Frequency
EDS	CRLD	1	Monthly
IFSSA	CRLD/Paper	1	Monthly

Detailed Field Definitions

HIB	Recipient's Medicare number on the Buy-In Part A billing tape received from CMS monthly.
Last	Recipient's last name on the Buy-In Part A billing tape
First	Recipient's first name on the Buy-In Part A billing tape.
MI	Recipient's middle initial on the Buy-In Part A billing tape.
Sex	Identifies recipient's numeric sex code on the Buy-In Part A billing tape.
Birth/New HIB	This field contains either the recipient's date of birth, mmddyy, or the new HIB on the Buy In Part A billing tape. Also, this position may contain an alpha/numeric character for the last number in the date of birth if CMS shows a different DOB. This alphabetic character is equal to the new number, for example: 1=A, 2=B, and so on.

Agency Code	Identifies the three-character alpha/numeric code on the Buy-In Part A billing tape that CMS has assigned each state. Refer to the *Buy-In manual* for valid values.)
Sub	Identifies a one-character alpha/numeric code on the Buy-In Part A billing tape that conveys additional information in conjunction with designated transaction codes. Refer to the *Buy-In manual* for valid values.
Agency/Date	The Agency/Date field may contain the Sub Code effective date, in mmyy format, which is found next to the sub code on the Billing A tape. This same field may also have a three-character alpha/numeric agency code for another state on the Buy-In Part A billing tape.
Billing Dte	A four-character numeric code which identifies the month and year (mmyy) the State is billed for a recipient's premiums, as displayed on the Buy-In Part A billing tape.
Txn	The first two characters of the four character code describing CMS's most recent response to State accretion, deletion, or change records as shown on the Buy In Part A billing tape. The last two characters state the modifier code, which describes the State or EDS action for that recipient (accretion, deletion, or change). Refer to the *Buy-In manual* for the transaction codes. The second two characters on the transaction codes may be zeros or blank. Refer to the *Buy-In manual* for valid values.
Eff Date	The effective date of the transaction on which the recipient was accreted, deleted, or changed in Buy-In Part A as shown on the Buy-In Part A billing tape. This field may be blank
RID	Recipient's 12-character numeric identification number on the Buy-In Part A billing tape. This field may be all zeros or an invalid number sent by CMS.
Premium Amount	Recipient's 12-character numeric identification number on the Buy-In Part A billing tape. This field may be all zeros or an invalid number sent by CMS. billed by CMS to the State for a recipient's Buy-In Part A premiums.
Error Code	A two character numeric code further describing transaction code errors that CMS has sent in response to State accretions, deletions, and changes.

BIA-1004-M Buy-In Part A Exception Error By Transaction Code

Functional Area	Report Number	Job Name	Report Title
Buy-In	BIA-1004-M		Buy-In Part A Exception Error By Transaction Code

Description of Information

The Buy-In Part A Exception Error By Transaction Code Report contains records from the Billing tape that need to be reviewed for different reasons.

The following transaction codes always appear on the Buy-In Part A Exception Error By Transaction Code Report: 1128, 1728, 20XX, 21XX, 24XX, 25XX, 27XX, 29XX, 30XX, and 31XX.

The Buy-In Part A transaction codes definition indicates the additional codes that trigger certain records to appear on the Buy-In Part A Exception Error By Transaction Code Report. See the *Buy-In Part A Transaction Code* document found in *Appendix A.*

Purpose

The purpose of the Buy-In Part A Exception Error By Transaction Code Report is to identify the above listed codes from CMS. EDS reviews, researches and resolves any problems associated with these codes.

Sort Sequence

- *Primary -* transaction codes (the first two digits) and modifier (the last two digits), in numeric order

> *Note: A page break occurs between the different (first two digits) transaction codes.*

- *Secondary -* HIB number within each transaction and modifier code, in ascending order with left justification

Distribution

To	Media	Copies	Frequency
EDS	CRLD	1	Monthly
IFSSA	CRLD	1	Monthly

Detailed Field Definitions

Txn

The first two characters of the four-character code describing CMS's most recent response to State accretion, deletion, or changed records as shown on the Buy-In Part A Billing tape. The last two characters are the modifier code, which describes the action for that recipient (accretion, deletion, or change). Refer to the Buy-In manual for the transaction codes. The second two characters on the transaction codes may be zeros or blank

HIB	Recipient's Medicare number on the Buy-In Part A Billing tape received from
Last	Recipient's last name on the Buy-In Part A Billing tape.
First	Recipient's first name on the Buy-In Part A Billing tape.
MI	Recipient's middle initial on the Buy-In Part A Billing tape.
Sex	Identifies recipient's numeric sex code on the Buy-In Part A Billing tape.
Birth/New HIB	This field contains the recipient's date of birth (mmddyy) or the new HIB on the Buy-In Part A billing tape. This position may also contain an alpha/numeric character for the last number in the date of birth if CMS shows a different DOB. This alphabetic character will be equal to the new number, for example 1=A, 2=B and so on.
Agency Code	Identifies the three-character alphanumeric code on the Buy-In Part A billing tape that CMS has assigned each state. Refer to the Buy-In manual for valid values.
Sub	The three-character code that identifies a one-character alpha/numeric code on the Buy-In Part A billing tape that conveys additional information in conjunction with designated transaction codes.
Agency/Date	The Agency/Date field may contain the Sub Code effective date (mmyy) which is found next to the sub code on the Billing A Tape. This same field may character alpha/numeric agency code for another state on the Buy also have a three In Part A billing tape
Billing Dte	A four-character numeric code which identifies the month and year (mmyy) the State is billed for a recipient's premiums as displayed on the Buy-In Part A billing tape.
Eff Date	The effective date of the transaction on which the recipient was accreted, deleted, or changed in Buy-In Part A as shown on the Buy-In Part A billing tape. This field may be blank.
RID	Recipient's 12-character numeric identification number on the Buy-In Part A Billing tape. This field may be all zeros or an invalid number sent by CMS.
Premium Amount	A six-character numeric code describing the premium amount billed by CMS to the State for a recipient's Buy-In Part A premiums.
Error Code	A two-character numeric code further describing transaction code errors that CMS has sent in response to State accretions, deletions, and changes.

BIA-1005-M Buy-In Part A Recipient's - Without QMB Also or QMB Only

Functional Area	Report Number	Job Name	Report Title
Buy-In	BIA-1005-M		Buy-In Part A Recipient's - Without QMB Also or QMB Only

Description of Information

The Buy-in Part A Recipient's - Without QMB Also or QMB Only Report should have all recipients that are accreted to Buy-In Part A (41__ code on the Billing report) and are not enrolled as QMB recipient on the Aid Category eligibility window or the Dual Aid Category window. This report also reflects the information from the recipient's base and Medicare table after the Buy-In Part A Billing tape has been checked on the Buy-In A Coverage window.

Purpose

The purpose of the Buy-In Part A Recipient's - Without QMB Also or QMB Only Report is to identify the recipients who are in Buy-In Part A, and are not enrolled as a QMB recipient. A recipient who is in Buy-In Part A should have QMB.

Sort Sequence

- *Primary* - County number, ascending, page break after each
- *Secondary* - Caseworker number, ascending within the county
- *Tertiary* - Recipients' last name, alphabetical order

Refer to the current recipient base table for this information.

IFSSA	CRLD	1	Monthly

Detailed Field Definitions

County	This report is sorted by ascending county numbers.
Caseworker	Identifies the case worker number assigned to this recipient. This is taken from the recipient base table.
RID	Recipient's 12-character numeric identification number in the recipient base table.
Last	Recipient's last name in the current recipient base table
First	Recipient's first name in the current recipient base table.

MI	Recipient's middle initial in the current recipient base table.
SSN	Recipient's Social Security number in the current recipient base table.
HIB	Current Medicare identification number for that recipient in the recipient Medicare table.
Total	The number of QMB recipients in the Buy-In Part A billing report.

BIA-1006-M Buy-In Part A Pending Transactions Awaiting 3 Months Reply

Functional Area	Report Number	Job Name	Report Title
Buy-In	BIA-1006-M		Buy-In Part A Pending Transactions Awaiting 3 Months Reply

Description of Information

The Buy-In Part A Pending Transaction Awaiting 3 Months Reply Report shows the Buy-In Part A Premium S15 entries sent to CMS that have not had a response within three months. The transaction codes included in this report are as follows: 61 (normal accretion), 51 (normal deletion), 53 (death deletion), and 75/76 (simultaneous accrete/delete). Included with this transaction code is the date that the entry was sent to CMS. The transaction code 4999 from CMS does not qualify as a response, because 4999 transactions codes are CMS acceptance or changes for current Buy-In recipients, and do not affect accretions nor deletions of Buy-In.

Purpose

The purpose of the Buy-In Part A Pending Transaction Awaiting 3 Months Reply is to indicate to IFSSA and EDS which recipients CMS has not responded to within the last 3 months.

Sort Sequence

- *Primary* - left justification Social Security claim number (HIB), ascending order with

BIA-1007-M Buy-In Part A Control Report

Functional Area	Report Number	Job Name	Report Title
Buy-In	BIA-1007-M		Buy-In Part A Control Report

Description of Information

The Buy-In Part A Control Report identifies the Medicare Part A premium amount billed to the State by CMS for the current billing month. The "Billing Month" is the month following the month the Billing tape is received. This report reflects the amount billed and breaks down the amounts by the categories of assistance which qualify for Part A Buy-In (QMB and QDWI). Qualified Medicare Beneficiary (QMB) is further divided into **QMB Also** and **QMB Only**. Recipients who have QDWI qualify to have their Medicare Part A premiums paid by IFSSA. The **Unknown** category includes recipients who do not have a RID number on the Billing tape, or numbers which cannot be matched to a recipient. The category headers are: **QMB Also**, **QMB Only**, **QDWI**, and **Unknown**. The **QMB Also** category is further divided by aid category. This group includes the recipients in aid categories **MAL** or **MALP** and are **Aged**, **Blind**, **Disabled**, or **AFDC**.

The **Premium Totals** include the **Premium Balance** that CMS is billing for each category and a **Combined Total**. The **Combined Total** equals the **CMS Premium Dollars Billed**, which matches the paper copy of the actual Billing tape output CMS sends to the State.

This report further identifies the total number and total amount of premiums billed for the month. Current month and retroactive months totals are reported. Also shown are the totals for the Federal Fiscal Year, State Fiscal Year, and Calendar Year. The last item on this report is the number of records received from CMS and sent to CMS, listed by the different transaction codes.

Purpose

The purpose of the Buy-In Part A Control Report is to reflect the amount CMS is billing IFSSA by category for Medicare Part A premiums in the given billing month, and assist in the calculation of the amount to be paid to CMS for Medicare Part A Buy-In.

Sort Sequence

None

Distribution

To	Media	Copies	Frequency
EDS	CRLD/Paper	1	Monthly
FSSA	CRLD/Paper	2	Monthly

Detailed Field Definitions

Premiums Billed By Category — This category lists the premium dollar amount billed for recipients under each Medicare Part A Buy In program, and the number of recipients in each

aid category. These are divided into **QMB Also** and **QMB Only/QDWI**. There are a total of seven category headers. Each category shows **Normal Billing**, **Verified Accretions**, **Verified Deletions**, and **Balance** for the given month's billing tape.

The QMB Also

This category reflects Qualified Medicare Beneficiaries. Recipients can be **QMB Also** or **QMB Only**. **QMB Only** recipients are entitled to payments of the Medicare premium(s) and any Medicare co payments or deductibles. **QMB Also** recipients are entitled to the **QMB Only** benefits in addition to Medicaid benefits under one of the following aid categories: **Aged**, **Blind**, **Disabled**, or **AFDC**. The aid categories for all QMB recipients are **MAL**, or **MALP**. **QMB Also** recipients have two aid categories, **MAL**, or **MALP** in addition to their Medicaid eligibility categories **Aged**, **Blind**, **Disabled**, and **AFDC**.

To Identify QMB

To identify recipients for this report the system searches the billing record for an eligibility code of **P** found in position 50. Those without dual eligibility are included in this report under the column **QMB Only**; all others are included in the column for **QMB Also**.

Category Header

These are the aid categories under the Medicare Part A Buy-In QMB program. The category headers are **QMB/AGED**, **QMB/BLIND**, **QMB/DISABLED**, **QMB/AFDC**, and **QMB ALSO TOTAL**.

QMB/Aged

These recipients qualify for Qualified Medicare Beneficiary (QMB) plus Medicaid under the Aged program. The following aid categories comprise AGED for this report: MA A, MA 5, MAAP, and MA5P.

QMB/Blind

These recipients qualify for Qualified Medicare Beneficiary (QMB) plus Medicaid under the **Blind** program. The following aid categories comprise **Blind** for this report: **MA B**, **MA 6**, **MABP**, and **MA6P**

QMB/Disabled

These recipients qualify for Qualified Medicare Beneficiary (QMB) plus Medicaid under the Disabled program. The following aid categories comprise Disabled for this report: **MA D**, **MA R**, **MA 7**, **MADP**, **MARP**, and **MA7P**.

QMB/AFDC

These recipients qualify for Qualified Medicare Beneficiary (QMB) plus Medicaid under the AFDC program. The following aid categories comprise AFDC for this report: **MA C**, **MA F**, **MA H**, **MA O**, **MA Q**, **MA S**, **MA T**, **MA U**, **MA 4**, **MA 8**, **MACP**, **MAFP**, **MAHP**, **MAOP**, **MASP**, **MATP**, **MAUP**, **MA4P**, and **MA8P**.

QMB Also Total

These are the combined totals of the columns as follows: **QMB/AGED**, **QMB/BLIND**, **QMB/DISABLED**, and **QMB/AFDC** Each of the above categories are divided into **NORMAL BILLING**, **VERIFIED ACCRETIONS**, **VERIFIED DELETIONS**, and **BALANCE** depending upon the reported transaction codes.

Normal Billing

This includes all 41bb transaction codes from the Billing Part A tape for each QMB category. The 41bb (41__) is an ongoing Buy In Part A recipient. CMS has already bought in this recipient and continues to bill IFSSA for a monthly premium. Refer to the Buy In manual for the transaction codes.

Verified Accretions	This includes all 11XX and 43XX, and transaction codes. The code 11XX means CMS accepted the accretion attempt for this recipient for the effective date requested. The 43XX means CMS sent a debit adjustment of premium liability. Refer to the Buy-In manual for the transaction codes.
Verified Deletions	This includes all 11XX and 43XX, and transaction codes. The code 11XX means CMS accepted the accretion attempt for this recipient for the effective date requested. The 43XX means CMS sent a debit adjustment of premium liability. Refer to the Buy-In for a recipient for various reasons. These codes indicate IFSSA or CMS is sending a credit adjustment of premium liability. Refer to the Buy In manual for the transaction codes.
Balance	A balance is given for the total of the **NORMAL BILLING** plus the **VERIFIED ACCRETIONS** minus the **VERIFIED DELETIONS** for each of the following categories: **QMB/AGED**, **QMB/BLIND**, **QMB/DISABLED**, **QMB/AFDC**, and **QMB ALSO TOTAL**.
The QMB only/QDWI	This category reflects recipients who are not eligible for Medicaid but are eligible for Medicare Part A Buy-In premiums paid by IFSSA.
Category Header	These are the aid categories under the Medicare Part A Buy In program. The category headers are **QMB ONLY** and **QDWI**.
QMB Only	These are Qualified Medicare Beneficiaries who are not eligible for Medicaid but are entitled to have their Medicare A Premium(s) and Medicare co-payments or deductibles paid by IFSSA. These recipients are assigned to aid categories **MA L** and **MALP**
QDWI	This includes all recipients who are Qualified Disabled Working Individuals in aid categories **MA G** and **MAGP**. Each of the above categories are divided into **NORMAL BILLING**, **VERIFIED ACCRETIONS**, **VERIFIED DELETIONS**, and **BALANCE** depending on the reported transaction codes.
Normal Billing	This includes all 41bb transaction codes from the Billing Part A Tape for each category. The 41bb (41__) is an ongoing Buy In Part A recipient. CMS has already bought in this recipient and continues to bill IFSSA for monthly premiums. Refer to the Buy In manual for the transaction codes.
Verified Accretions	This includes all 11XX and 43XX transaction codes. The code 11XX indicates CMS has accepted the accretion attempt for this recipient for the effective date requested. The 43XX indicates CMS sent a debit liability. Refer to the Buy In manual for the transaction codes.
Verified Deletions	This includes the following transaction codes: 14bb, 15bb, 16bb, 17XX, 42XX, and 42bb (42__). These codes indicate CMS is discontinuing Buy In for a recipient for various reasons. These codes are a credit to IFSSA or CMS is sending a credit adjustment of premium liability. Refer to the Buy-In manual for the transaction codes.
Balance	A balance is given for the total of the **Normal Billing** plus the **Verified Accretions** minus the **Verified Deletions** for each of the following categories: **QMB ONLY** and **QDWI**. The **PREMIUM TOTALS** category reflects the listing of the Premiums Billed by Category and divided into the following Buy-In Part A programs: **QMB Also**, **QMB**

	Only, **QDWI**, **Unknown**, and **Combined Total**.
Category Header	These are the individual categories for which premiums are paid. They include **QMB Also**, **QMB Only**, **QDWI**, **UNKNOWN**, and **COMBINED TOTAL**
QMB Also	Total premiums for a **Qualified Medicare Beneficiary** who is also eligible for other Medicaid programs. This total is from the **QMB Also Total** column under the **PREMIUMS BILLED BY CATEGORY**.
QMB Only	Total premiums for "Qualified Medicare Beneficiary" who are not eligible for other Medicaid programs. This total is from the "QMB ONLY" column under the "PREMIUMS BILLED BY CATEGORY".
QDWI	Total premiums for Qualified Disabled Working Individuals who are not entitled to benefits.
Unknown	Total premiums for recipients on the billing tape who do not have a RID number or whose number does not have a match in the Eligibility window.
Combined Total	A total of all the above categories; **QMB ALSO**, **QMB** TOTAL**ONLY**, **QDWI**, and **UNKNOWN**, from the billing tape. Each of the above categories are divided into **NORMAL BILLING, VERIFIED ACCRETIONS**, **VERIFIED DELETIONS**, and **BALANCE**, depending upon the reported transaction codes.
Normal Billing	These are the totals from above **NORMAL BILLING** for each of the following programs: **QMB Also**, QMB Only, **QDWI**, **Unknown**, and **Combined Total**.
Verified Accretions	These are the totals from above **VERIFIED ACCRETIONS** for each of the following programs: **QMB Also**, **QMB Only**, **QDWI**, **Unknown**, and **Combined Total**.
Verified Deletions	These are the totals from above **VERIFIED DELETIONS** for each of the following programs: **QMB Also**, **QMB Only**, **QDWI**, **Unknown**, and **Combined Total**.
Balance	This is the balance of the totals of **NORMAL BILLING** plus the **VERIFIED ACCRETIONS**, minus the **VERIFIED DELETIONS** for each program.
Category Header	This is the amount IFSSA may or may not be reimbursed for each recipient that is on Buy In Part A including **FFP**, **NON FFP**, **TOTAL**, **FEDERAL FY**, **STATE FY**, **CALENDAR YEAR**
FFP	The Federal Financial Participation (FFP) is paid by CMS for recipients who are eligible for QMB or Money Grant and IFSSA is paying Medicare premiums.
Non-FFP(N/A)	Non-Federal Financial participation. This is not applicable for this report by State request.
Total	This is the total of **FFP** and **Non FFP** columns
FED FY	The Federal Fiscal Year (FFY) begins October 1, and ends September 30. The Federal Government uses this for annual calculations.

State FY

The State Fiscal Year (SFY) begins July 1, and ends June 30. The State Government uses this for annual calculations.

Calendar Year

This begins January 1, and ends December 31.

The following items are included in the calculation of the number of months and amount of premiums billed on the current months billing tape and the accumulation of the different annual calculations:

- number of current month premiums being billed
- number of retro months premiums being billed
- number of month's credit was received
- number of month's debit was received
- total number of months premiums being billed
- dollar amount of current month premiums being billed
- dollar amount of retro active month premiums being billed
- dollar amount of month's credit was received
- dollar amount of month's debit was received
- total dollar amount of months premiums being billed

Number of Current Month Premiums Being Billed

This is the number of transactions on the Billing tape that have a code 41bb (41__), All of these transaction codes only have the current month effective date. The 11XX has one month's premium (as the current month) and may also include retro months premiums billed. If the effective date of the 11XX is less than the current month, one is the current month and the remaining months are added to the retro months. Therefore, by checking the effective date of the transaction code, the system determines the number of retro months to add. With the exception of codes 1172 and 1175, added months are not for current month premiums unless the 1772 or 1776 effective date shows the current month as the effective date. See retro month below for details. There is an annual cumulative number calculated for Federal Fiscal Year, State Fiscal Year, and Calendar Year.

Number of Retro Months Premiums Being Billed

This is the number of retroactive months for which CMS is billing IFSSA on the current month's Billing tape. To determine this number, the system identifies recipients with transaction codes of 11XX, and 17XX. Then, the system looks at the effective date of each 11XX and 17XX transaction code. If the effective date is equal to the current date, it is added to the current month premium billed. If the effective date is less than the current month, one month is the current month and the rest of the month is counted as retro months premiums billed. The same calculation applies to the two transaction code pairs 1172/1772 and 1175/1776. If the 1772 or 1776 effective date is equal to the current month, one month is the current month and the rest are retro months. *Example*: If the billing tape has an 1161 transaction code with an effective date of 1/94, and the current month is 7/94, the current date is 6/94. One month is put with the current month and the other six months are retro months. If an 1175 has an effective date of 1/94 and the 1776 has a date of 5/94, and the current month is 7/94, all five months are retro months. There is an annual cumulative number calculated for Federal Fiscal Year, State Fiscal Year, and Calendar Year.

Number of Months Credited Was Received

This is the number of months for which a credit was received by the State. This is all the 42bb and 42XX transaction codes. The transaction code with or without an effective date has the following system action. The system takes the current year monthly premium amount (for 1/94 through 12/94 the premium is $245.00 per month, per recipient) and divides by the total amount of premium billed. The number of times the monthly premium can go in to the total premium is the number for that transaction code. If the number does not come out even, round down. There is an annual total calculated for Federal Fiscal Year, State Fiscal Year, and Calendar Year.

Number of Months Debited Was Received

This is the number of months for which a debit was received by the State. This is all the codes. The transaction code with or without an effective date has the following system action. The system takes the current year monthly premium amount (for 1/94 through 12/94, the premium is $245.00 per month, per recipient) and divides by the total amount of premium billed. The number of times the monthly premium can go in to the total premium is the number for that transaction code. If the number does not come out even, it is rounded down. There is an annual total calculated for Federal Fiscal Year, State Fiscal Year, and Calendar Year.

Total Number of Months Premium Being Billed

This is the Number of Current Month Premiums Being Billed plus the Number of Retro Month Premiums Being Billed, plus the Number of Months Credit Was Received, minus the Number of Months Debit Was Received, which equals the Total Number of Months Premiums Billed.

Dollar Amount of Current Month Premiums Being Billed

This is the dollar amount of transactions on the Billing Tape that have a code 41bb (41__); all of these only have the current month effective date. The11XX has one month premiums (as the current month) and may also have retro months premiums billed. If the effective date (*Example*: current billing month of 7/94, current date of 6/94) of the 11XX is less than the current month one is the current month and the remaining months are added to the retro months. Therefore, by checking the effective date of the transaction code, the system determines the amount of retro months to add. With the exception of codes 1172 and11XX has one month premiums (as the current month) and11XX has one month premiums (as the current month) and may also have retro months premiums billed. If the effective date (*Example*: current billing month of 7/94, current date of 6/94) of the 11XX is less than the current month one is the current month and the remaining months are added to the retro months. Therefore, by checking the effective date of the transaction code, the system determines the amount of retro months to add. With the exception of codes 1172 and 1175, the amounts are not for current months premiums unless the 1772 or 1776 effective date shows the current date as the effective date. See retro month below for details. There is not a dollar amount for Federal Fiscal Year, State Fiscal Year, or Calendar Year.

Dollar Amount of Retro Month Premiums Being Billed

This is the dollar amount for retroactive months for which CMS is billing IFSSA on the current month's Billing Tape. To determine this number, the system identifies recipients with transaction codes of 11XX, and 17XX. Then, the system looks at the effective date of each 11XX and 17XX transaction code. If the effective date is equal to the current month, it is added to the current month premium billed. If the effective date is less than the current billing month, one month is the current month and the rest of the months count as retro months premiums billed. The same calculation

	applies to the two transaction code pairs 1172/1772 and 1175/1776. If the 1772 or 1776 effective date is equal to the current month, one month premium is for the current month and the rest of the premium amount is for retro months. (*Example*: If the billing tape has an 1161 transaction code with an effective date of 1/94, and the current billing month is 7/94, one month premium amount is put with the current month and the other six months premiums are retro months. If a 1175 code has an effective of 1/94 and the 1776 has a date of 5/94, and the current date is 7/94, all five months are retro months.) There is not a dollar amount for Federal Fiscal Year, State Fiscal Year, or Calendar Year.
Dollar Amount of Month's Credited Was Received	This is the dollar amount for which a credit was received by the State. This is all the 42bb and 42XX transaction codes. The transaction code with or without an effective date has the whole dollar amount added to this column. There is an annual calculated dollar amount for Federal Fiscal Year, State Fiscal Year, and Calendar Year.
Dollar Amount of Month's Debited Was Received	This is the dollar amount for which a debit was received by the State. This is all the 43XX transaction codes. The transaction code with or without an effective date has the whole dollar amount added to this column. There is an annual calculated dollar amount for Federal Fiscal Year, State Fiscal Year, and Calendar Year
Total Dollar Amt of Month Premiums Being Billed	This is the total from Dollar Amount of Current Month Premiums Being Billed columns plus the Dollar Amount of Retro Month Premium's Being Billed, plus the Dollar Amount Of Month's Credited Was Received, minus the Dollar Amount of Months Debit Was Received equals the Total Dollar Amount of Months Premiums Billed.
Records Received From HCFA	Is an itemization on the Buy In Part A billing tape records by accretions transaction codes (11XX, 41bb, and 43XX), deletions transaction codes (14bb, 15bb, 16bb, 17XX, 42XX, and 42bb), informational transaction codes (20XX, 21XX, 23bb, 23XX, 24XX, 25XX, 27XX, 29XX, 30XX, 31XX, and 49XX) and the total of all transaction codes.
Accretions	This is the number of 11XX, 41bb, and 43XX transaction codes received on the Medicare Part A Buy In Billing tape. Refer to the Buy In Manual for the transaction codes.
Deletions	This is the number of 14bb, 15bb, 16bb, 17XX, 42XX, and 42bb transaction codes received on the Medicare Part A Buy In Billing tape. Refer to the Buy In manual for the transaction codes.
Informational	This is the number of transaction codes used by CMS to inform the State of various informational changes or monitoring codes. The informational codes are as follows: 20XX, 21XX, 23bb, 23XX, 24XX, 25XX, 27XX, 29XX, 30XX, 31XX, and 49XX. Refer to the Buy-In manual for transaction codes.
Total	This is the total of all the Accretions, Deletions, and Informational lines from the above Medicare In Billing tape.
Records Sent	To CMS is an itemization of records on the Premium S15 tape going to CMS from EDS/FSSA.

Accretions	This is the number of 61 and 75 transaction codes on the Premium S15 Tape going to CMS from EDS/FSSA.
Deletions	This is the number of 51, 53, and 76 transaction codes on the Premium S15 Tape going to CMS from EDS/FSSA.
Informational	This is the number of 99 transaction codes on the Premium S15 Tape going to CMS from EDS/FSSA.
Total	This is the total of all records on the Premium S15 Tape going to CMS from EDS/FSSA.

BIA-1008-M Buy-In Part A Qualified Working Individuals

Functional Area	Report Number	Job Name	Report Title
Buy-In	BIA-1008-M		Buy-In Part A Qualified Working Individuals

Description of Information

The Buy-In Part A Qualified Disabled Working Individuals (QDWI) report is a listing from the Buy-In Part A Billing tape of those individuals accreted, deleted, or changed on the QDWI program in Buy-In Part A. These individuals only qualify for premiums paid by the State of Indiana.

Purpose

The purpose of the Buy-In Part A Qualified Working Individuals report is to identify those recipients who are in the QDWI program in Buy-In Part A. The report only displays recipients added, deleted or changed in that month. If there are no adds, deletes, or changes, the report will display **No Data This Run**.

Sort Sequence

- *Primary* - Social Security claim number (HIB), ascending with left justification.

Distribution

To	Media	Copies	Frequency
EDS	CRLD	0	Monthly
IFSSA	CRLD	0	Monthly

Detailed Field Definitions

HIB	Recipient's Medicare number on the Buy-In Part A Billing tape.
Last	Recipient's last name on the Buy-In Part A Billing tape.
First	Recipient's first name on the Buy-In Part A Billing tape.
MI	Recipient's middle initial on the Buy-In Part A Billing tape.
Sex	Identifies recipient's numeric sex code on the Buy-In Part A Billing tape.
Agency Cde	Identifies the three-character alphanumeric code on the Buy-In Part A Billing tape that CMS has assigned each state. Refer to the Buy-In manual for agency codes.
Billing Date	A four-character numeric code which identifies the month the State is billed for a recipient's Buy-In Part A premiums as displayed on the Buy-In Part A Billing tape.

TXN	The first two characters of the four-character code describing CMS's most recent response to State accretion, deletion, or changed records as shown on the Buy-In Part A Billing tape. The last two characters are the modifier code, which describes the State and/or EDS action for that recipient (accretion, deletion, or charge). Refer to the Buy-In manual for the transaction codes.
Eff Date	The effective date of the transaction when the recipient was accreted, deleted, or changed in Buy-In Part A (mmyy) as shown on the Buy-In Part A Billing tape.
RID	Recipient's 12-character numeric identification number on the Buy-In Part A Billing tape. This number always has QDWI as the last four characters of the RID.
Premium Amt	A six-character numeric code describing the Buy-In Part A premium amount billed by CMS to the State for a recipient's Buy-In Part A premiums.
Total Count	The number of QDWI recipients on the Buy In Part A Billing report.

Section 5: BIB Reports

BIB-2001-M Buy-In Part B Billing (Receiving)

Functional Area	Report Number	Job Name	Report Title
Buy-In	BIB-2001-M		Buy-In Part B Billing (Receiving)

Description of Information

The Buy-In Part B Billing report is a paper copy of the system-generated monthly tape from CMS. This report informs the OMPP of the status of the Buy-In Part B Medicaid members, using transaction codes to communicate an update or acknowledgment to a member Buy-In Part B status (accretion, deletion, or change).

Purpose

The purpose of the Buy-In Part B Billing report is to display CMS's current full listing of Buy-In Part B Billing records and acknowledgments of State accretion, deletion, and changed records.

Sort Sequence

- *Primary* - HIB number (Social Security claim numbers), in ascending order with left justification. The RRB numbers retain their Pseudo Social Security number and are not converted to the RRB claim numbers.

Distribution

To	Media	Copies	Frequency
EDS	CRLD/Paper	1	Monthly
FSSA	CRLD/Paper	1	Monthly

Detailed Field Definitions

HIB	Member's Medicare number on the Buy-In Part B Billing Tape.
Last	Member's Medicare number on the Buy-In Part B Billing Tape.
First	Member's first name on the Buy-In Part B Billing Tape
MI	Member's first name on the Buy-In Part B Billing Tape
Sex	Identifies member's numeric sex code on the Buy-In Part B Billing Tape.
Birth/New HIB	This field contains either the member's date of birth (mmddyy) or the new HIB on the Buy-In Part B Billing Tape. Also, this position may contain an alphabetic character if CMS shows a different DOB. This alphabetic character equals the new number, for example1=A, 2=B, and so on

Liv Arg	A one-character alphabetic code of **D** that indicates that the beneficiary is a resident of a Title XIX institution. This field is applicable to deletion records. This is also the last character of a new HIB number.
Sts Cde	A one-character alphanumeric code that indicates the member's SSI status. Refer to the Buy-In Manual for Status Code description
Agency Cde	Identifies the three-character numeric code on the Buy-In Part B Billing Tape that CMS assigned each state. Refer to the Buy-In Manual for valid values.
Elig Cde	Identifies the one-character numeric code used to describe the category of assistance the member is receiving. Refer to the Buy In Manual for valid values
Sub	Identifies a one character alphanumeric code on the Buy In Part B Billing Tape that conveys additional information in conjunction with designated transaction codes. Refer to the Buy In Manual for valid values
Agency/Date	The Agency/Date field may contain the Sub Code effective date, (mmyy) which is found next to the sub code on the Billing B Tape. This same field may also have a three character numeric agency code for another state on the Billing B Tape.
Billing Dte	A four character numeric code that identifies the month and year (mmyy) the OMPP is billed for a member's premiums as displayed on the Buy In Part B Billing Tape
Txn	The first two characters of the four-character code describes CMS's most recent response to State accretion, deletion, or changed records as shown on the Buy-In Part B Billing Tape. The second two characters show what the State and EDS sent to CMS for accretion, deletion, or changed records. The second two characters on the transaction codes may be zeros or blank. Refer to the Buy-In Manual for valid values.
Eff Date	The effective date of the transaction on which the member was accreted, deleted, or changed in Buy In Part B as shown on the Buy In Part B Billing Tape. This field may be blank.
RID	Member's 12 character numeric identification number on the Buy In Part B Billing Tape. This field may be all zeros or an invalid number sent by CMS
Premium Amount	A six character numeric premium description for the amount billed by CMS to the State for a recipient's Buy In Part B premiums
Normal Billing	This includes all 41bb transaction codes from the Billing Tape. The 41bb (41__) is an ongoing Buy In Part B member. CMS has already bought this member in and continues to bill IFSSA for each month's premium.
Total Accretions	The enrollment of a member in the Buy In Part B Program. Total number of accretions on the Buy-In Part B Billing Tape. The accretion codes are 11XX, and 43XX. Refer to the Buy-In Manual for the transaction codes

Total Deletions	The removal of a member from the Buy In Part B Program. Total number of deletions on the Buy In Part B Billing Tape. The deletion codes are 14XX, 15XX, 16XX, 17XX, 42bb, and 42XX Refer to the Buy In Manual for the transaction codes.
Total Miscellaneous	Total number of all other transaction codes that are not accretions or deletions on the Buy-In Part B Billing Tape. Refer to the Buy-In Manual for the transaction codes.
Total Number Of Records Received From HCFA	Summary of all Normal Billings (accretions, deletions, and miscellaneous) sent by HCFA on the Buy-In Part B Billing Tape and received by IFSSA.
Debits	Charges to the State for member's Part B Premiums. The transaction codes used by CMS to inform the State that members have been bought in is transaction code (41bb), are in the process of being bought in transaction code (11XX), or are having a debit adjustment transaction code (43XX) for these members. Refer to the Buy-In Manual for the transaction codes.
Items	The total number of records for each debit transaction code appearing on the billing tape.
Money	The total number of records for each debit transaction code appearing on the billing tape.
Total	Total number of records for all credit transaction codes appearing on the billing tape
Credits	Credits to the State's Part B Buy In account for previous premiums paid in error. The transaction codes used by CMS to inform the State that they have overpaid a member’s Part B premiums are: 14XX, 15XX, 16XX, 17XX, 42bb, and 42XX. Refer to the Buy In Manual for the transaction codes.
Items	The total number of records for each credit transaction code appearing on the billing tape.
Money	The total dollar amount for each credit transaction code appearing on the billing tape.
Total	The total dollar amount for each credit transaction code appearing on the billing tape.
Miscellaneous	These are transaction codes used by CMS to inform the State of errors on the previous months Premium 150/S15 tape and various changes in CMS's records, on the status of a case. The miscellaneous codes are the following: 20XX, 21XX, 22XX, 23XX, 24XX, 25XX, 27XX, 28XX, 29XX, 30XX, 31XX, 32XX, 33XX, 49XX, 86XX, and 87XX. Refer to the Buy-In Manual for the transaction codes.
Items	The total number of records for each miscellaneous transaction code appearing on the billing tape.
Total	Total number of records for all credit transaction codes appearing on the billing tape.

HCFA Premium Dollars Billed	An accounting of the total dollar amount billed by HCFA.
Debits	Total dollar amount CMS bills IFSSA for Part B Premiums. This amount equals the **Total Debit** mentioned above.
Credits	The total dollar amount CMS credits IFSSA for Part B Premium. This amount equals the **Total Credit** mentioned above.
Total Billed	The total dollar amount CMS bills IFSSA for Buy-In Part B premiums, which equals the debits minus the credits.

BIB-2002-M Buy-In Part B Premium 150 (Sending)

Functional Area	Report Number	Job Name	Report Title
Buy-In	BIB-2002-M		Buy-In Part B Premium 150 (Sending)

Description of Information

The Buy-In Part B Premium 150 report is a paper copy of the accretion, deletion, or changes made to Buy-In Part B recipients by the State or EDS in a given month. These updates are sent to CMS by a monthly tape so CMS may respond to each entry.

Purpose

The purpose of the Buy-In Part B Premium 150 report is to notify CMS of any recipient updates (accretion, deletion, or changes) after the monthly Buy-In Part B Billing tape is run.

Sort Sequence

- *Primary -* HIB number (Social Security claim numbers), ascending with left justification.

> *Note: RRB numbers retain their Pseudo Social Security number and do not convert to the RRB claim numbers.*

Detailed Field Definitions

HIB	Member's Medicare number on the Buy-In Part B Premium 150 Tape sent to
Last	Member's last name on the Buy-In Part B Premium 150 Tape.
First	Member's first name on the Buy-In Part B Premium 150 Tape.
MI	Member's middle initial on the Buy-In Part B Premium 150 Tape.
Sex	Identifies member's numeric sex code on the Buy-In Part B Premium 150 Tape
Birth	Member's date of birth (mmddyy) on the Buy-In Part B Premium 150 Tape.
ZIP	Member's date of birth (mmddyy) on the Buy-In Part B Premium 150 Tape.

Agency Code	Identifies the three-character numeric code on the Buy-In Part B Premium 150 Tape. Refer to the Buy-In Manual for valid values.
Elig Code	Identifies the one-character numeric code used to describe the category of assistance the member is receiving. Refer to the Buy-In Manual for valid values.
Txn	The two-character numeric code sent to CMS indicating an EDS or IFSSA update (accretion, deletion, or changed) requiring a response by CMS. Refer to the Buy-In Manual for valid values.
Eff Date	The effective date (mmyy) needed for the transaction sent on the Buy-In Part B Premium 150 Tape
RID	Member's 12-character numeric identification number on the Buy-In Part B Premium 150 Tape.
Total Accretions	Total number of accretions made by EDS or IFSSA and sent to CMS on the Buy-In Part B Premium 150 Sending Tape. The accretion transaction codes are as follows: 61, 62, 63, 75, and 84.
Total Deletions	Total number of deletions made by EDS or IFSSA and sent to CMS on the Buy-In Part B Premium 150 sending Tape. The deletion transaction codes are as follows: 50, 51, 53, and 76
Total Changes	Total number of changes made by EDS or IFSSA and sent to CMS on the Buy-In Part B Premium 150 Sending Tape. The change transaction code is 99.
Summary of Records Sent To HCFA	Summary of all accretions, deletions, and changes done by EDS or IFSSA and sent to HCFA on the Buy-In Part B Premium 150 Sending Tape.

BIB-2003-M Buy-In Part B Exception Error By HIB

Functional Area	Report Number	Job Name	Report Title
Buy-In	BIB-2003-M		Buy-In Part B Exception Error By HIB

Description of Information

The Buy-In Part B Exception Error By HIB Report contains records from the Billing Tape that need to be reviewed for different reasons. The following transaction codes always appear on the Buy-In Part B Exception Error By HIB report: 1125, 1128, 1165,1167, 1725, 1728, 18XX, 19XX, 20XX, 21XX, 22XX, 24XX, 25XX, 27XX, 28XX, 29XX, 30XX, 31XX, 32XX, 33XX, and 3662. The Buy-In Part B Transaction Codes definition indicates the additional codes that trigger certain records to appear on the Buy-In Part B Exception Error By HIB Report. See the *Buy-In Part A Transaction Code* document for more details.

Purpose

The purpose of the Buy-In Part B Exception Error By HIB Report is to identify the above listed codes from CMS. EDS and IFSSA review, research and resolve any problems associated with these codes.

Sort Sequence

- *Primary -* HIB number – All Railroad Retirement Board (RRB) numbers, numbers with a prefix, are grouped after the Social Security claim number (numbers with a suffix). Railroad numbers are listed with the prefix sorted alphabetically and the numeric portion of the number in ascending order with left justification. RRB numbers retain their original number.

Distribution

To	Media	Copies	Frequency
EDS	CRLD/Paper	1	Monthly
IFSSA	CRLD/Paper	2	Monthly

Detailed Field Definitions

HIB	Member's Medicare number on the Buy-In Part B Billing Tape.
Last	Member's last name on the Buy-In Part B Billing Tape
First	Member's first name on the Buy-In Part B Billing Tape
MI	Member's middle initial on the Buy-In Part B Billing Tape.
Sex	Identifies a member's numeric sex code on the Buy-In Part B Billing Tape.
Birth/New HIB	This field contains either the member's date of birth (mmddyy) or the new HIB on the Buy-In Part B Billing Tape. Also, this position may contain an alphabetic character if CMS shows a different DOB.

Liv Arg	A one-character alphabetic code of D which indicates that the beneficiary is a resident of a title XIX institution. This field is applicable to deletion records. This is also the last character of a new HIB number.
Sts Cde	A one-character alphanumeric code that indicates the member's SSI status. Refer to the Buy-In manual for Status Code description.
Agency Cde	Identifies the three-character numeric code on the Buy-In Part B Billing Tape that CMS has assigned each state. Refer to the Buy-In manual for valid values.
Elig Cde	Identifies the one-character numeric code used to describe the category of assistance the member is receiving. Refer to the Buy-In manual for valid values
Sub	Identifies a one character alphanumeric code on the Buy In Part B Billing Tape that conveys additional information in conjunction with designated transaction codes. Refer to the Buy In manual for valid values.
Agency/Date	The Agency/Date field may contain the Sub Code effective date (mmyy) which is found next to the sub code on the Billing B Tape. This same field may also have a three character numeric agency code, for another state on the Billing B Tape.
Billing Date	A four character numeric code which identifies the month and year (mmyy) the State is billed for a member's premiums as displayed on the Buy In Part B Billing Tape
Txn	The first two characters of the four character code describes CMS's most recent response to the OMPP accretion, deletion, or changed records as shown on the Buy-In Part B Billing Tape. The second two characters show what the OMPP and EDS sent to CMS for accretion, deletion, or changed records. The second two characters on the transaction codes may be zeros or blank. Refer to the Buy In manual for valid values.
Eff Date	The effective date of the transaction on which the recipient was accreted, deleted, or changed in Buy-In Part B as shown on the Buy-In Part B Billing Tape. This field may be blank.
RID	Member's 12-character numeric identification number on the Buy-In Part B Billing Tape. This field may be all zeros or an invalid number sent by CMS.
Premium Amt.	A six-character numeric code describing the premium amount billed by CMS to the OMPP for a member's Buy-In Part B premiums.
Error Code	A two-character numeric code further describing transaction code errors that CMS has sent in response to the OMPP accretions, deletions, and changes.

BIB-2004-M Buy-In Part B Exception Error By Transaction Code

Functional Area	Report Number	Job Name	Report Title
Buy-In	BIB-2004-M		Buy-In Part B Exception Error By Transaction Code

Description of Information

The Buy-In Part B Exception Error By Transaction Code Report contains records from the Billing Tape that need to be reviewed for different reasons. The following transaction codes always appear on the Buy-In Part B Exception Error By Transaction Code Report: 1125, 1128, 1165, 1167, 1725, 1728, 18XX, 19XX, 20XX, 21XX, 22XX, 24XX, 25XX, 27XX, 28XX, 29XX, 30XX, 31XX, 32XX, 33XX, and 3662. The Buy-In Part B transaction codes definition indicates the additional codes that trigger certain records to appear on the Buy-In Part B Exception Error By Transaction Code Report. Refer to the Buy-In Part A Transaction Code document for more details.

Purpose

The purpose of the Buy-In Part B Exception Error By Transaction Codes Report is to identify the above listed codes from CMS. EDS and IFSSA review, research and resolve any problems associated with these codes.

Sort Sequence

- *Primary -* Transaction codes (the first two digits) and modifier (the last two digits) in numeric order.

The system inserts a break between the different transaction codes (first two digits). The one exception is transaction code 1167. All the 1167 transaction codes are listed on a separate page. After the report is sorted in transaction code order, the system sorts by HIB number in each transaction and modifier code. Sort the Social Security claim numbers (HIB) are sorted in ascending order with left justification. All Railroad Retirement Board (RRB) numbers (numbers with a prefix) are grouped after the Social Security claim number (numbers with a suffix). Railroad numbers are listed with the prefix sorted alphabetically. The numeric portion of the number is in ascending order with left justification. RRB numbers retain their original numbers.

Distribution

Detailed Field Definitions

TXN

The first two characters of the four character code describes CMS's most recent response to the OMPP accretion, deletion, or changed records as shown on the Buy-In Part B Billing Tape. The second two characters show

	what the OMPP and EDS sent to CMS for accretion, deletion, or changed records. The second two characters on the transaction codes may be zeros or blank. Refer to the Buy In manual for valid values.
HIB	Member's Medicare number on the Buy-In Part B Billing Tape.
Last	Member's last name on the Buy-In Part B Billing Tape
First	Member's first name on the Buy-In Part B Billing Tape
MI	Member's middle initial on the Buy-In Part B Billing Tape.
Sex	Identifies member's numeric sex code on the Buy-In Part B Billing Tape.
Birth/New HIB	This field contains either the member's date of birth (mmddyy) or the new HIB on the Buy-In Part B Billing Tape. This position may contain an alphanumeric character if CMS shows a different DOB.
Liv Arg	A one-position alphabetic code of **D** that indicates that the beneficiary is a resident of a Title XIX institution. This field is applicable to deletion records. This is also the last character of a new HIB number.
Status Code	A one-position alphanumeric code that indicates the member's SSI status. Refer to the Buy-In manual for Status Code description.
Agency Code	Identifies the three character numeric code on the Buy In Part B Billing Tape that CMS has assigned each state. Refer to the Buy In manual for valid values.
Elig Code	Identifies the one character numeric code used to describe the category of assistance the member is receiving. Refer to the Buy In manual for valid values.
Sub	Identifies a one character alphanumeric code on the Buy In Part B Billing Tape that conveys additional information in conjunction with designated transaction codes. Refer to the Buy In manual for valid values
Agency/Date	The Agency/Date field may contain the sub-code effective date (mmyy) which is found next to the sub-code on the Billing B Tape. This same field may also have a three-character numeric agency code for another state on the Billing B Tape.
Billing Dte	A four character numeric code which identifies the month and year (mmyy) the OMPP is billed for a member's premiums as displayed on the Buy In Part B Billing Tape.
Eff Date	The effective date of the transaction on which the member was accreted, deleted, or changed in Buy-In Part B as shown on the Buy-In Part B Billing Tape. This field may be blank.
RID	Recipient's 12-character numeric identification number on the Buy-In Part B Billing Tape. This field may be all zeros or an invalid number sent by CMS.
Premium Amt.	A six-character numeric code describing the premium amount billed by CMS to the State for a member's Buy-In Part B premiums.

Error Code	A two character numeric code further describing transaction code errors that CMS has sent in response to the OMPP accretions, deletions, and changes.

BIB-2005-M Buy-In Part B Specified Low Income Medicare Beneficiaries (SLMB) Billing Transactions

Functional Area	Report Number	Job Name	Report Title
Buy-In	BIB-2005-M		Buy-In Part B Specified Low Income Medicare Beneficiaries (SLMB) Billing Transactions

Description of Information

The Buy-In Part B SLMB (Specified Low Income Medicare Beneficiaries) Billing Transactions Report is a listing from the Buy-In Part B Billing Tape of those individuals accreted, deleted, or changed on the SLMB program Buy-In Part B. These individuals are only eligible to have their premiums paid by the OMPP.

Purpose

The purpose of the Buy-In Part B SLMB Report is to identify the members in the SLMB program in Buy-In Part B.

Sort Sequence

- *Primary -* HIB number – All Railroad Retirement Board (RRB) numbers (numbers with a prefix) are grouped before the Social Security claim numbers (numbers with a suffix).

Railroad numbers are listed with the prefix sorted alphabetically and the numeric portion of the number sorted in ascending order with left justification. RRB numbers retain their original numbers and do not convert to a Pseudo Social Security Number. Refer to the Buy-In manual for valid values. The Social Security claim number (HIB) sort in ascending order with left justification.

BIB-2006-M Buy-In Part B Pending Transactions Awaiting 3 Months Reply

Functional Area	Report Number	Job Name	Report Title
Buy-In	BIB-2006-M		Buy-In Part B Pending Transactions Awaiting 3 Months Reply

Description of Information

The Buy-In Part B Pending Transaction Awaiting 3 Months Reply shows the Buy-In Part B Premium 150 entries sent to CMS and did not have a response. The transaction codes included on this report are as follows: 61 (normal accretion), 62 (second accretion sent), 63 (accretion code used for testing), 50 (system generated deletion in response to an 1165), 51 (normal delete), 53 (death delete), and 75/76 (simultaneous accrete/delete). Included with this transaction code is the date that the entry was sent to CMS. The transaction code 4999 from CMS does not qualify as a response because 4999 transactions codes are CMS acceptance or changes for current Buy-In members, and do not affect accretions nor deletions of Buy-In.

Purpose

The purpose of the Buy-In Part B Pending Transactions Awaiting 3 Months Reply is to indicate to IFSSA and EDS which members CMS has not responded to within the last three months.

Sort Sequence

- *Primary* - HIB number – All Railroad Retirement Board (RRB) numbers (numbers with a prefix, are grouped before the Social Security claim number (numbers with a suffix). Railroad numbers are listed with the prefix, sorted alphabetically, and with the numeric portion of the number in ascending order with left justification. RRB numbers retain their original number. Refer to the Buy-In manual for valid values.
- *Secondary* - Social Security claim number in ascending order with left justification.

Distribution

MI	Member's middle initial on the Buy-In Part B Premium tape

Sent Txn	The two character numeric code sent to CMS indicating an EDS or IFSSA update (accretion, deletion, change) needing a response from CMS. This is also called the Modifier portion of the transaction code. The transaction codes included on this report are as follows: 61 (normal accretion), 62 (second accretion sent), 63 (identifies Alert State test members), 50 (system generated deletion response to an 1165), 51 (normal delete), 53 (death delete), and 75/76 (simultaneous accrete delete).
Sent Dte	The date the transaction was sent to CMS on the Buy-In Part B Premium 150 tape.
Eff Date	The effective date the member needs the action with the transaction code taken.
Rcvd Txn	The four character numeric code received from CMS indicating to EDS or IFSSA the information sent is awaiting a response at a later date. The transaction codes included on the report are as follows: 3061 (CMS adjusting buy in effective date to a later date), 3062 (CMS adjusting buy in effective date to a later date), 3063 (CMS adjusting buy in effective date to a later date), 3151 (CMS delaying deletion), 3153 (CMS delaying deletion), 3161 (CMS delaying accretion), 3162 (CMS delaying deletion), 3163 (CMS delaying accretion), 3184 (CMS delaying accretion), 3261 (CMS rejecting accretion), 3263 (CMS rejecting accretion), 3275 (CMS rejecting accretion), and 3276 (CMS rejecting accretion).
Rcvd date	The date (mmyy) the transaction was received from CMS on the Buy-In Part A premium S15 Tape.

BIB-2007-M Buy-In Part B Control Report

Functional Area	Report Number	Job Name	Report Title
Buy-In	BIB-2007-M		Buy-In Part B Control Report

Description of Information

The Buy-In Part B Control report identifies the Medicare Part B premium amount billed to the State by CMS for the current billing month. The billing month is the month following the month the Billing Tape is received. This report reflects the amount billed and divides the amounts by the category of assistance which qualify for Part B Buy-In. **QMB** and **SLMB** are both divided into **Also** and **Only**. **Money Grant** is divided into **Money Grant** and **Non-Money Grant**. There is an **Unknown** category for recipients without a RID number. The aid category for **QMB Only** is **MA L** or **MALP**. The aid category for **SLMB Only** is **MA J**. The **QMB Also** and **SLMB Also** include one of the following aid categories: **Aged, Blind, Disabled, AFDC**. The **Money Grant** and **Non-Money Grant** categories include one of the following aid categories: **Aged**, **Blind, Disabled, AFDC**, **Medicaid for Pregnant Women**, **Medicaid for Children,** and **Medicaid for Newborns**.

Premium Totals include the **Premium Balance** that CMS is billing for each category and a **Combined Total**. The **Combined Total** may equal the **CMS Premium Dollars Billed,** which matches the paper copy of the actual billing tape output CMS sends to the OMPP. However, because CMS may send accretions that do not agree with EDS records, any discrepancies with the dollar amounts are researched.

This report further identifies the total number and total amount of premiums billed for the month. Current month and retroactive months totals are reported. Totals for the Federal Fiscal Year, State Fiscal Year, and Calendar Year are shown. The report also indicates the premium items paid that are eligible or not eligible for Federal Financial Participation (FFP). Premiums paid for QMB, SLMB, QI, and Money Grant members are eligible for FFP; premiums paid for all others (called Non-Money Grant) are not eligible for FFP. The order of FFP categories is: QMB, SLMB, Money Grant and QI. The last item on this report is the number of records received from CMS and sent to CMS, sorted by the different transaction codes.

Purpose

The purpose of the Buy-In Part B Control report is to reflect the amount CMS is billing IFSSA by category for Medicare Part B premiums in the given billing month and assists in the calculation of the amount to be paid to CMS for Medicare Part B Buy-In.

Sort Sequence

None

Distribution

To	Media	Copies	Frequency
EDS	CRLD/Paper	1	Monthly
FSSA	CRLD/Paper	2	Monthly

Detailed Field Definitions

Premiums Billed By Category	Is divided into FFP and NON FFP eligibility and identified by **QMB Also**, **SLMB Also**, **QMB/SLMB Only**, **Money Grant**, and **Non Money Grant**. These are further divided by the following member aid categories: **Aged, Blind**, **Disabled**, **AFDC**, **Medicaid for Pregnant Woman**, **Medicaid for Children,** and **Medicaid for Newborns**. These categories are interrelated in that each aid category is a sub-category of FFP eligibility or Non-FFP eligibility.
QMB Also	Category reflects Qualified Medicare Beneficiaries. Members may be **QMB Also** or **QMB Only**. The **QMB Only** member is entitled to payments of Medicare premiums and any Medicare co payments or deductibles. **QMB Also** members are entitled to the **QMB Only** benefits as well as IHCP benefits under one of the following aid categories: **Aged, Blind, Disabled**, or **AFDC**. The aid categories for all QMB members are **MA L**, or **MALP**. **QMB Also** members have two aid categories: **MA L**, or **MALP** and IHCP eligibility categories **Aged**, **Blind**, **Disabled**, or **AFDC**. To identify **QMB** members for this report, the system searches the Billing record for an eligibility code of **P** in position 50. Those without dual eligibility are included in this report under the column **QMB Only.** All others are included in the columns for **QMB Also**.
Category Header	Aid categories under the Medicare Part B Buy-In QMB program. The category headers are **QMB/Aged**, **QMB/Blind**, **QMB/Disabled**, **QMB/AFDC**, and **QMB Also Total**.
QMB/Blind	Members qualifying for QMB (Qualified Medicare Beneficiaries) plus IHCP under the **Blind** program. The following aid categories comprise **Blind** for this report: **MA B**, **MA 6**, **MABP**, and **MA6P**
QMB/Disabled	Members qualifying for QMB (Qualified Medicare Beneficiaries) plus IHCP under the Disabled program. The following aid categories comprise **Disabled** for this report: **MA D**, **MA R**, **MA 7**, **MADP**, **MARP**, and **MA7P**.
QMB/AFDC	Members qualifying for QMB (Qualified Medicare Beneficiaries) plus IHCP under the AFDC program. The following aid categories comprise AFDC for this report: **MA C**, **MA F**, **MA H**, **MA O**, **MA Q**, **MA S**, **MA T**, **MA U**, **MA 4**, **MA 8**, **MACP**, **MAFP**, **MAHP**, **MAOP**, **MASP**, **MATP**, **MAUP**, **MA4P**, and **MA8P**
QMB Also Total	The combined totals of the columns as follows: **QMB/Aged**, **QMB/Blind**, **QMB/Disabled**, and **QMB/AFDC**. Each of the above categories are divided into Normal Billing, Verified Accretions, Verified Deletions, and Balance depending upon the reported transaction codes.
Normal Billing	Includes all 41bb transaction codes from the Billing Part B tape for each **QMB** category. The 41bb (41__) is an ongoing Buy In Part B member. CMS has already bought in this member and continues to bill IFSSA for each month's premium. Refer to the Buy In manual for the transaction codes.

Verified Accretions	Includes all 11XX and 43XX transaction codes. The code 11XX means CMS has accepted the accretion attempt for this member for the effective date requested. A code 1167 means CMS is informing IFSSA this member is accreted for that effective date. The 43XX means CMS sent a debit adjustment of premium liability. Refer to the Buy In manual for the transaction codes.
Verified Deletions	Includes all 15bb (15__), 16bb (16__), 17XX, 42bb (42__), and 42XX transaction codes. These codes mean CMS is stopping Buy In for a member for various reasons. These codes are a credit to IFSSA, or CMS is sending a credit adjustment of premium liability. Refer to the Buy In manual for the transaction codes.
Balance	A balance is given for the total of the **Normal Billing** plus the **Verified Accretions** minus the **Verified Deletions** for each of the **QMB Also** categories as follows: **QMB/Aged**, **QMB/Blind**, **QMB/Disabled**, **QMB/AFDC**, and **QMB Also Total**.
SLMB Also	Reflects Specified Low Income Medicare Beneficiaries who are eligible for other IHCP assistance under one of the following aid categories: **Aged Blind Disabled** or **AFDC**. The aid categories for all SLMB members are **MA J** or **MAJP**. To identify **SLMB** members for this report, the system searches the Billing record for an eligibility code of **L** in position 50. Those without dual eligibility are included in this report under the column **SLMB Only**; all others are included in the columns for **SLMB Also**.
Category Header	Aid categories under the Medicare Part B Buy In SLMB program. The following are the category headers: **SLMB/Aged**, **SLMB/Blind**, **SLMB/Disabled**, **SLMB/AFDC**, and **SLMB Also Total**.
SLMB/Aged	Members qualifying for SLMB (Specified Low Income Medicare Beneficiaries) plus IHCP under the **Aged** program. The following aid categories comprise **Aged** for this report: **MA A**, **MA 5**, **MAAP**, and **MA5P**.
SLMB/Blind	Members qualifying for SLMB (Specified Low Income Medicare Beneficiaries) plus IHCP under the **Blind** program. The following aid categories comprise **Blind** for this report: **MA B**, **MA 6**, **MABP**, and **MA6P**.
SLMB/Disabled	Members qualifying for SLMB (Specified Low Income Medicare Beneficiaries) plus IHCP under the **Disabled** program. The following aid categories comprise **Disabled** for this report: **MA D**, **MA R**, **MA 7**, **MADP**, **MAGP**, **MARP**, and **MATP**.
SLMB/AFDC	Members qualifying for SLMB (Specified Low Income Medicare Beneficiaries) plus IHCP under the **AFDC** program. The following aid categories comprise **AFDC** for this report: **MA C**, **MA F**, **MA H**, **MA O**, **MA Q**, **MA S**, **MA T**, **MA U**, **MA 4**, **MA 8**, **MACP**, **MAFP**, **MAOP**, **MASP**, **MATP**, **MAUP**, **MA4P**, and **MA8P**.
SLMB Also Total	These are the combined total of the columns as follows: **MB/Aged**, **QMB/Blind**, **QMB/Disabled**, and **QMB/AFDC** Each of the above categories are divided into Normal Billing, Verified Accretions, Verified Deletions, and Balance – depending on the reported transaction codes.
Normal Billing	Includes all 41bb transaction codes from the Billing Buy In Part B tape for each SLMB category. The 41bb (41__) is an ongoing Buy In Part B member. CMS has already bought in this member and continues to bill IFSSA for each month's premiums. Refer to the Buy In manual for the transaction codes.

Verified Accretions	Includes all 11XX and 43XX transaction codes. The code 11XX means CMS has accepted the accretion attempt for this member for the effective date requested. A code 1167 means CMS is informing IFSSA this member is accreted for that effective date. The 43XX means CMS sent a debit adjustment of premium liability. Refer to the Buy-In manual for the transaction codes.
Verified Deletions	Includes all 15bb (15__), 16bb (16__), 17XX, 42XX, and 42bb (42__) transaction codes. These codes mean CMS is stopping Buy In for a member for various reasons. These codes are a credit to IFSSA or CMS is sending a credit adjustment of premium liability. Refer to the Buy In manual for the transaction codes.
Balance	Given for the total of the **Normal Billing** plus the **Verified Accretions** minus the **Verified Deletions** for each of the **SLMB** categories. Categories are as follows: **SLMB/Aged**, **SLMB/Blind**, **SLMB/Disable**, **SLMB/AFDC**, and **SLMB Also Total**.
QMB/SLMB/QI Only	Category reflects members who are not eligible for Medicaid, but are eligible for Medicare Part B Buy In premiums paid by IFSSA.
Category Header	Aid categories under the Medicare Part B Buy In program. The following are the category headers: **QMB Only** and **SLMB Only**.
QMB Only	Qualified Medicare Beneficiaries who are not eligible for IHCP but are entitled to have Medicaid B Premiums and Medicare co-payments or deductibles paid by IFSSA. These members have the following aid categories: **MA L** and **MALP**.
SLMB Only	Specified Low Income Medicare Beneficiaries are only entitled to Medicare Part B premiums paid by IFSSA.
QI Only	Qualified Individuals are entitled to Medicare Part B premiums paid by IFSSA. These individuals are identified by Aid Category **MA I**.

Each of the above categories are divided into Normal Billing, Verified Accretions, Verified Deletions, and Balance depending on the reported transaction codes.

Normal Billing	Includes all 41bb transaction codes from the Billing Part B tape for each category. The 41bb (41__) is an ongoing Buy In Part B member. CMS has already bought in this member, and continues to bill IFSSA for each month's premium. Refer to the Buy In manual for the transaction codes.
Verified Accretions	Includes all 11XX and 43XX transaction codes. The code 11XX means CMS has accepted the accretion attempt for this member for the effective date requested. An 1167 means CMS is informing IFSSA this member is accreted for that effective date. The 43XX means CMS sent a debit adjustment of premium liability. Refer to the Buy In manual for the transaction codes.
Verified Deletions	This includes all 15bb (15__), 16bb (16__), 17XX, 42XX, and 42bb (42__) transaction codes. These codes mean CMS is stopping a member's Buy In for various reasons. These codes are a credit to IFSSA, or CMS is sending a credit adjustment of premium liability. Refer to the Buy In manual for the transaction codes.
Balance	A balance is given for the total of the **Normal Billing** plus the **Verified Accretions**, minus the **Verified Deletions** for each of the **QMB Only**, **SLMB Only** and **QI Only** categories.

Money Grant	Category reflects members who are in IHCP and receive all or part of their income from one or more of the following: SSI (Social Security)AFDC (Aid to Families with Dependent Children) RBA (Room and Board Administration) or State Supplement Assistance. The aid categories for Money Grant are as follows: **Aged Blind Disabled AFDC Medicaid for Pregnant Women Medicaid for Children Medicaid for Newborns** and **Money Grant Total** To identify **Money Grant** members for this report, a Money Grant indicator of **Yes** or **No** on the Recipient Base window identifies members with or without Money Grant status. This information is received from ICES. Those without dual eligibility are included in this report under the columns **Non-Money Grant**; all others are included in the columns for **Money Grant**.
Category Header	Aid categories under the Medicare part B Buy In Money Grant program. The category headers are: **Aged**, **Blind**, **Disabled**, **AFDC**, **Medicaid For Pregnant Women**, **Medicaid For Children**, **Medicaid For Newborns**, and **Money Grant Total**.
Aged	Members qualifying for Money Grant plus IHCP under the **Aged** program. The following aid categories comprise **Aged** for this report: **MA A**, **MA 5**, **MAAP**, and **MA5P**.
Blind	Members qualifying for Money Grant plus IHCP under the Blind program. The following aid categories comprise **Blind** for this report: **MA B**, **MA 6**, **MABP**, and **MA6P**.
Disabled	Members qualifying for Money Grant plus Medicaid under the Disabled program. The following aid categories comprise **Disabled** for this report: **MA D**, **MA R**, **MA 7**, **MADP**, **MAGP**, **MARP**, and **MATP**.
AFDC	Members qualifying for Money Grant plus Medicaid under the AFDC program. The following aid categories comprise **AFDC** for this report: **MA C**, **MA F**, **MA H**, **MA O**, **MA Q**, **MA S**, **MA T**, **MA U**, **MA 4**, **MA 8**, **MACP**, **MAFP**, **MAOP**, **MASP**, **MATP**, **MAUP**, **MA4P**, and **MA8P**.
Medicaid For Preg Women	Members qualifying for Money Grant plus Medicaid under the Medicaid for Pregnant Women program. The following aid categories comprise Medicaid For Pregnant Women for this report: **MA E**, **MA M**, **MA N**, **MA P**, **MAMP**, **MANP**, and **MAPP**.
Medicaid For Children	Members qualifying for Money Grant plus Medicaid under the Medicaid for Children program. The following aid categories comprise Medicaid For Children for this report: **MA Y**, **MA Z**, **MA 1**, **MA 2**, **MA 3**, **MAYP**, **MAZP**, **MA1P**, **MA2P**, and **MA3P**.
Medicaid For Newborn	Members qualifying for Money Grant plus Medicaid under Medicaid for Newborn program. The following aid categories comprise Medicaid For Newborns for this report: **MA X** and **MAXP.**
Money Grant Total	The combined total of the columns as follows: Aged, Blind, Disabled, AFDC, Medicaid For Pregnant Women, Medicaid For Children, and Medicaid For Newborns.

Each of the above categories is divided into Normal Billing, Verified Accretions, Verified Deletions, and Balance depending on the reported transaction codes.

Normal Billing	Includes all 41bb transaction codes from the Billing Part B tape for each Money Grant category. The 41bb (41__) is an ongoing Buy In Part B member. CMS has already bought in this member and continues to bill IFSSA for each month's premium. Refer to the Buy In manual for the transaction codes.
Verified Accretions	This includes all 11XX and 43XX transaction codes. The code 11XX means CMS has accepted the accretion attempt for this recipient for the effective date requested. An 1167 means CMS is reporting to IFSSA that this recipient has accreted for that effective date. The 43XX means CMS sent a debit adjustment of premium liability. Refer to the Buy-In manual for the transaction codes.
Verified Deletions	This includes all 15bb (15__), 16bb (16__), 17XX, 42XX, and 42bb (42__) transaction codes. This code means CMS is stopping a recipient's Buy In coverage. This code are a credit to IFSSA or CMS is sending a credit adjustment of premium liability. Refer to the Buy In manual for the transaction codes.
Balance	A balance is given for the total of the **Normal Billing** plus the **Verified accretions**, minus the **Verified Deletions** for each of the Money Grant categories.
Non Money Grant	Category reflects a member who is in an IHCP but not receiving any part of the following: SSI, AFDC, RBA, or State Supplemental Assistance. The member may receive other income so long as none of the income is derived from the above sources. To identify **Non-Money Grant** members, the system searches the billing record for an eligibility code of **M** in position 50. These members are not eligible for the following programs: SSI (Social Security), AFDC (Aid for Families with Dependent Children), RBA (Room and Board Administration), or State Supplement Assistance. Members without dual eligibility are included in the columns for **Non-Money Grant**; all others are included in the columns for **Money Grant**.
Category Header	Aid categories under the Medicare Part B Buy In Non Money Grant program. The following are the category headers: **Aged**, **Blind**, **Disabled**, **AFDC**, **Medicaid For Pregnant Women**, **Medicaid For Children**, **Medicaid For Newborns**, **Non Money Grant Total**
Aged	Members qualifying for Non Money Grant plus IHCP under the Aged program. The following aid categories comprise **Aged** for this report: **MA A**, **MA 5**, **MAAP**, and **MA5P**.
Blind	Members qualifying for Non Money Grant plus IHCP under the Blind program. The following aid categories comprise **Blind** for this report: **MA B**, **MA 6**, **MABP**, and **MA6P**.
Disabled	Members qualifying for Non Money Grant plus IHCP under the Disabled program. The following aid categories comprise **Disabled** for this report: **MA D**, **MA R**, **MA 7**, **MADP**, **MAGP**, **MARP**, and **MATP**.
AFDC	Members qualifying for Non Money Grant plus IHCPunder the AFDC program. The following aid categories comprise **AFDC** for this report: **MA C**, **MA F**, **MA H**, **MA O**, **MA Q**, **MA S**, **MA T**, **MA U**, **MA 4**, **MA 8**, **MACP**, **MAFP**, **MAOP**, **MASP**, **MATP**, **MAUP**, **MA4P**, and **MA8P**.
Medicaid For Preg Women	Members qualifying for Non Money Grant plus IHCP under the Medicaid for Pregnant Women program. The follow aid categories comprise **Medicaid For Pregnant Women** for this report: **MA E**, **MA M**, **MA N**, **MA P**, **MAMP**, **MANP**, and **MAPP**.

Medicaid For Children	Members qualifying for Non Money Grant plus IHCP under the Medicaid for Children program. The following aid categories comprise **Medicaid For Children** for this report: **MA Y**, **MA Z**, **MA 1**, **MA 2**, **MA 3**, **MAYP**, **MAZP**, **MA1P**, **MA2P**, and **MA3P**.
Medicaid For Newborn	Recipients qualifying for Non Money Grant plus IHCP under the Medicaid for Newborn program. The following aid categories comprise **Medicaid For Newborn** for this report: **MA X** and **MAXP**.
Non Money Grant Total	The combined total of the columns as follows: Aged, Blind, Disabled, AFDC, Medicaid For Pregnant Women, Medicaid For Children, and Medicaid For Newborns.

Each of the above categories are divided into Normal Billing, Verified Accretions, Verified Deletions, and Balance depending on the reported transaction codes.

Normal Billing	Includes all 41bb transaction codes from the Billing Part B Tape for each Non Money Grant category. The 41bb (41__) is an ongoing Buy In Part B member. CMS has already bought in this member and continues to bill IFSSA for each month's premium. Refer to the Buy In manual for the transaction codes
Verified Accretions	This includes all 11XX and 43XX transaction codes. The code 11XX means CMS has accepted the accretion attempt for this member for the effective date requested. An 1167 means CMS is reporting to IFSSA that this member has been accreted for that effective date. The 43XX means CMS sent a debit adjustment of premium liability. Refer to the Buy In manual for the transaction codes.
Verified Deletions	Includes all 15bb (15__), 16bb (16__), 17XX, 42XX, and 42bb (42__) transaction codes. These codes mean CMS is stopping a member's Buy In coverage. These codes are a credit to IFSSA or CMS is sending a credit adjustment of premium liability. Refer to the Buy In manual for the transaction codes.
Balance	Given for the total of the **Normal Billing** plus the Verified Accretions, minus the Verified Deletions for each of the Non Money Grant categories.
Premium Totals	Category reflecting the listing of the Premiums Billed By Category, divided into the following Buy In Part B programs: **Money Grant**, **Non Money Grant**, **QMB Also**, **QMB Only**, **SLMB Also**, **SLMB Only**, **Unknown**, and **Combined Total**.
Category Header	The individual categories for which premiums are paid. They include **Money Grant**, **Non Money Grant**, **QMB Also**, **QMB Only**, **SLMB Also**, **SLMB Only**, **Unknown**, and **Combined Total**.
Money Grant	Total premiums for members in IHCP who are receiving money from one of the following: SSI, AFDC, RBA, or State Supplemental Assistance. This total is from the **Money Grant Total** column under the **Premiums Billed by Category**.
Non Money Grant	Total premiums for members are on Medicaid who are not receiving any money from SSI, AFDC, RBA or State Supplemental Assistance. This total is from the **Non Money Grant Total** column under the **Premiums Billed by Category.**
QMB Also	Total premiums for Qualified Medicare Beneficiaries who are also eligible for other programs in IHCP. This total is from the **QMB Also Total** column under the **Premiums Billed by Category.**

QMB Only	Total premiums for Qualified Medicare Beneficiaries who are not eligible for other programs in IHCP. This total is from the **QMB Only** column under the **Premiums Billed by**
SLMB Also	Total premiums for Specified Low Income Medicare Beneficiaries who also qualify for other programs in IHCP. This total is from the **SLMB Also Total** column under the Premiums Billed by Category.
SLMB Only	Total premiums for Specified Low Income Medicare Beneficiaries who do not qualify for any other programs in IHCP. This total is from the **SLMB Only** column under the **Premiums Billed by Category**.
QI Only	Premiums for Qualified Individuals who do not qualify for any other programs in IHCP. This total is from the **QI Only** column under the **Premiums Billed by Category**.
Unknown	Total premiums for all members on the Billing tape that do not have a RID number, or who do not a match with an entry in the Eligibility window, or whose Billing record is on the exception error report.
Combined Total	A total of all the above categories; **Money Grant. Non Money Grant**, **QMB Also**, **QMB Only**, **SLMB Also**, **SLMB Only**, and **Unknown**, from the Billing Tape

Each of the above categories are divided into Normal Billing, Verified Accretions, Verified Deletions, and Balance depending on the reported transaction codes.

Normal Billing	Totals from Normal Billing for each of the following programs: Money Grant, Non Money Grant, QMB Also, QMB Only, SLMB Also, SLMB Only, Unknown, and Combined Total.
Verified Accretions	Totals from Verified Accretions for each of the following programs: Money Grant, Non Money Grant, QMB Also, QMB Only, SLMB Also, SLMB Only, Unknown, and Combined Total.
Verified Deletions	Totals from Verified Deletions for each of the following programs: Money Grant, Non Money Grant, QMB Also, QMB Only, SLMB Also, SLMB Only, QI Only, Unknown, and Combined Total
Balance	Balance of the totals of Normal Billing plus the Verified Accretions minus the Verified Deletions for each of the following: Money Grant, Non-Money Grant, QMB Also, QMB Only, SLMB Also, SLMB Only, QI Only, Unknown, and Combined Total.
Category Header	Amount IFSSA may or may not be reimbursed for each member who is on Buy n Part B for the current month, including FFP, Non FFP, and Total. The next headers are cumulative totals to date for **Federal FY**, **State FY,** and **Calendar Year**
FFP	The Federal Financial Participation (FFP) is paid by CMS for members eligible for QMB, SLMB or Money Grant, and for whom IFSSA is paying Medicare premiums
Non FFP	The Federal government does not pay IFSSA for members who are Non-Money Grant. The **Unknown** category is also included in this calculation

Total	Total of the **FFP** and **Non FFP** columns.
Fed FY	Federal Fiscal Year begins October 1 and ends September 30. The Federal government uses this period for annual calculations. Fed FY is a year to date total for the credits and debits lines. Because there is not a number or amount for the current or retro months, the total is not from adding the column but rather from the FFP, plus the Non FFP Total, plus the year to date.
State FY	State Fiscal Year begins July 1 and ends June 30. The state government uses this period for annual calculations. This is a year–to date total for the credits and debits lines. Because there is not a number or amount for the current or retro months, the total is not from adding the column but rather from the FFP, plus the Non FFP Total, plus the year to date.
Calendar Year	Begins January 1, and ends December 31. This is a year to date for the credits and debits lines. However, because there is not a number or amount for the current or retro months the total is not from adding the column but rather from the FFP, plus the Non FFP Total, plus the year–to date.

The following items are included in the calculation of the number of months and amount of premiums billed on the current months billing tape and the accumulation of the different annual calculations:

- Number of current month's premiums being billed
- Number of retro months' premiums being billed
- Number of months credit was received
- Number of months debit was received
- Total number of months' premiums being billed
- Dollar amount of current month's premiums being billed
- Dollar amount of retro active month's premiums being billed
- Dollar amount of months credit was received
- Dollar amount of months debit was received
- Total dollar amount of months' premiums being billed

Number Of Current Month's Premiums Being Billed	This is the number of transactions on the Billing Tape that have a code 41bb (41__). All of these transaction codes have only the current month's effective date. The 11XX have one month premiums (as the current month) and may also have retro months premiums billed. If the effective date of the 11XX is less than the current month, one is the current month and the remaining months are added to the retro months. Therefore, by checking the effective date of the transaction code the system determines the number of retro months to add, with the exception of codes 1172 and 1175. These codes are not for the current month's premiums unless the 1772 or 1776 effective date shows the current month as the effective date. Refer to the Number of Retro Months' Premium being Billed for details. There is not a number for Federal, State, or Calendar Fiscal Year.
Number Of Retro Months Premiums Being Billed	The number of retroactive months for which CMS is billing IFSSA on the current month's Billing Tape. To determine this number, the system identifies members with transaction codes of 11XX, and 17XX. Then the system looks at the effective date of each 11XX and 17XX transaction code. If the effective date is equal to the

current billing month, it is added to the current month premium billed. If the effective date is less than the current billing month, one month is the current month and the rest of the months count as retro months' premiums billed. The same procedures applies to the two transaction code pairs 1172/1772 and 1175/1776, if the 1772 or 1776 effective dates are equal to the current billing month (*example:* the current month 7/94, current date 6/94), one month is for the current month and the rest are retro months. ***Example***: If the Billing tape has an 1161 transaction code with an effective date of 1/94, and the current month is 7/94, one month is put with the current month and the other 6 months are retro months. If an 1175 code has an effective date of 1/94, the 1776 code has an effective date of 5/94, and the current month is 7/94, all five months will be retro months. There is not a number for Federal Fiscal Year, State Fiscal Year, or Calendar Fiscal Year.

Number Of Months Credit Was Received

The number of months for which a credit was received by the OMPP. This is all of the42bb and 42XX transaction codes. The transaction code with or without an effective date has the following system action: the current year monthly premium amount (1/94 – 12/94 the premium is $41.10 per month per member) is divided by the total amount of premium billed. The number of times the monthly premium goes into the total premium is the number for that transaction code. If the number does not come out even it is rounded down. There is an annual calculated number for the Federal Fiscal Year, the State Fiscal Year, and Calendar Fiscal Year.

Number Of Months Debit Was Received

The number of months for which a debit was received by the OMPP. This is all the 43XX transaction codes. The transaction code with or without an effective date has the following system action: the current year monthly premium amount (1/94 - 12/94 the premium is $41.10 per month per recipient) is divided by the total amount of premium billed. The number of times the monthly premium goes into the total premium is the number for that transaction code. If the number does not come out even, it is rounded down. There is an annual calculated number for Federal Fiscal Year, State Fiscal Year, and Calendar Fiscal Year.

Total Number Of Months Premium Being Billed

The Number of Current Month Premiums Being Billed plus the Number of Retro Months' Premiums Being Billed, plus the Number of Months Credit Was Received, minus the Number of Months Debit Was received, equals the Total Number of Months' Premiums Billed.

Dollar Amount Of Current Month's Premiums Being Billed

The dollar amount of transactions on the Billing Tape that have a code 41bb (41__). All of these only have the current month's effective date. The 11XX has one month's premiums (as the current month), and may also have retro months premiums billed. If the effective date (current billing month) of the 11XX is less than the current month, one is the current month and the remaining months are added to the retro months. Therefore, by checking the effective date of the transaction code the system determines the amount of retro months to add. With the exception of codes 1172 and 1175, additions are not for current months premiums unless the 1772 or 1776 effective date shows the current month as the effective date. (See Dollar Amount of Retro Month Premiums being Billed for details.) There is not a dollar amount for Federal Fiscal Year, State Fiscal Year, or Calendar Fiscal Year.

Dollar Amount Of Retro Month Premiums Being Billed

The dollar amount for retroactive months for which CMS is billing IFSSA on the current month's Billing Tape. To determine this number, the system identifies members with transaction codes of 11XX, and 17XX. The system looks at the effective date of each 11XX and 17XX transaction code. If the effective date is equal to the current billing month, it is added to the current month premium being billed. If the effective date is less than the current month, one month is the current

	month and the rest of the month counts as retro months premiums billed. The same procedure applies to the two transaction code pairs 1172/1772 and 1175/1776. If the 1772 or 1776 effective date equals the current billing month, one month premium is for the current month and the rest of the premium amount is retro months. **Example**: if the Billing tape has an 1161 transaction code with an effective date of 1/94, and the current month is 7/94, one month premium amount is put with the current month and the other six months premiums retro months.. If an 1175 code has an effective date of 1/94 and the 1776 code has an effective date of 5/94, and the current date is 7/94, all five months will be retro months. There is not a dollar amount for Federal Fiscal Year, State Fiscal Year, or Calendar Fiscal Year.
Dollar Amount Of Month's Credited Was Received	The dollar amount for which a credit was received by the OMPP. This includes all the 42bb and 42XX transaction codes. The whole dollar amount, with or without an effective date, is added to this column. There is an annual calculated dollar amount for Federal, and State Fiscal Year, and Calendar Fiscal Year.
Dollar Amount Of Month's Debited Was Received	The dollar amount for which a debit was received by the OMPP. This is all the 43XX transaction codes. The whole dollar amount, with or without an effective date, is added to this column. There is an annual calculated dollar amount for Federal Fiscal Year, and State Fiscal Year, and Calendar Fiscal Year.
Total Dollar Amt. Of Month Premiums Being Billed	The total from Dollar Amount of Current Month Premiums Being Billed columns, plus the Dollar Amount of Retro Month Premiums Being Billed, plus the Dollar Amount of Months Credited Was Received, minus the Dollar Amount of Months Debited Was Received equals the Total Dollar Amount of Months Premiums Billed.
Records Received From HCFA	Is an itemization on the Buy In Part B Billing Tape records by **Accretions**, transaction codes (11XX, 41bb, and 43XX), **Deletions** transaction codes (15bb (15__), 16bb (16__), 17XX, 42XX, and 42bb), and **Informational** transaction codes (20XX, 21XX, 22XX, 23bb, 23XX, 24XX, 25XX, 27XX, 28XX, 29XX, 30XX, 31XX, 32XX, 33XX, 49XX, 86bb, and 87bb), and the TOTAL of all transaction codes.
Accretions	The number of 41bb, 11XX, and 43XX transaction codes received on the Medicare Part B Buy In Billing Tape. Refer to the Buy In manual for the transaction codes.
Deletions	The number of 15bb (15__), 16bb (16__), 17XX, 42XX, and 42bb transaction codes received on the Medicare Part B Buy In Billing Tape. Refer to the Buy In manual for the transaction
Informational	The number of transaction codes used by CMS to inform the State of various informational changes or monitoring codes. The informational codes are as follows: 20XX, 21XX, 22XX, 23bb, 24XX, 25XX, 27XX, 28XX, 29XX, 30XX, 31XX, 32XX, 33XX, 49XX, 86bb, and 87XX. Refer to the Buy In manual for transaction codes).
Total Records Sent To HCFA	The total of all the Accretions, Deletions, and Informational lines from the above Medicare Part B Buy- In Billing Tape. An itemization of records on the Premium 150 Tape going to HCFA from EDS/FSSA.
Accretions	The number of 61, 62, 63, 75, and 84 transaction codes on the Premium 150 Tape going to CMS from EDS/FSSA.
Deletions	The number of 50, 51, 53, and 76 transaction codes on the Premium 150 Tape going to CMS from EDS/FSSA.

Informational	The number of 99 transaction codes on the Premium 150 Tape going to CMS from EDS/FSSA.
Total	The total of all records on the Premium 150 Tape going to CMS from EDS/FSSA.

Section 6: BUY Reports

BUY-3001-M Possible Medicare Eligibles

Functional Area	Report Number	Job Name	Report Title
Buy-In	BUY-3001-M		Possible Medicare Eligibles

Description of Information

The Possible Medicare Eligibles report reads the recipient paid crossover claim files. If a recipient has a crossover claim that paid, the Medicare table in eligibility is checked to see if the recipient has Medicare A or Medicare B. The recipients who do not have Medicare A or B show up on the Possible Medicare Eligibles report.

Purpose

The purpose of the Possible Medicare Eligibles report is to identify those individuals who had crossover claims paid by Medicare, but do not show Medicare A or B in the recipient data base.

Sort Sequence

- *Primary -* SSN, ascending order with left justification.

Distribution

To	Media	Copies	Frequency
EDS	CRLD/Paper	1	Monthly
IFSSA	CRLD/Paper	1	Monthly

Detailed Field Definitions

SSN	Recipient's Social Security Number in the recipient paid Medicare table in the recipient paid claims file
Last	Recipient's last name on the recipient Medicare table in the recipient paid claims file
First	Recipient's first name in the recipient paid Medicare table in the recipient paid claims file
MI	Recipient's middle initial in the recipient paid Medicare table in the recipient paid claims file
HIB	Recipient's Medicare number in the recipient paid Medicare table in the recipient paid claims file
Birth	Recipient's date of birth (CCYYMMDD format) in the recipient paid Medicare table in the recipient paid claims file
RID	Recipient's 12-character numeric identification number in the recipient paid Medicare table in the recipient paid claims file

BUY-3002-W ICES Medicare and HIB Update Errors

Functional Area	Report Number	Job Name	Report Title
Buy-In	BUY-3002-W		ICES Medicare and HIB Update Errors

Description of Information

The Attempted HIB Updates To Already Accreted Buy-In Recipient report indicates all ongoing Buy-In Part A or B recipients for whom ICES sent an HIB update to Indiana*AIM* since the last Buy-In cycle. There are three exceptions:

If the recipient's marital status changed from aged married to aged Widow (the HIB number would go from B to D).

If a disabled widow **W** (age 50-59) changes to aged widow **D** (age 60).

If a spouse of a RR employee or annuitant **MA** (husband or wife) became a widower or widow, the HIB number would change from **MA** to **WA** (annuitant) or **WD** (RR employee)

Purpose

The purpose of this report is to identify the recipients for whom ICES is trying to change HIB numbers in Indiana*AIM*. There may be other valid HIB number changes, but most are verified before sending to CMS.

Sort Sequence

- *Primary* - County number, ascending
- *Secondary* - HIB number, ascending

Distribution

To	Media	Copies	Frequency
EDS	CRLD/Paper	1	Weekly
IFSSA	CRLD/Paper	1	Weekly

Detailed Field Definitions

HIB	Current Medicare identification number for that recipient from the recipient Medicare table
New HIB	The HIB number that ICES sent after recipient already accreted to Buy-In
Caseworker	A six-character numeric code that identifies the number of the caseworker assigned to this recipient
RID	Recipient's 12-character numeric identification number from the Recipient base table
Last	Recipient's last name from the current recipient base table
First	Recipient's first name from the current recipient base table
MI	Recipient's middle initial from the current recipient base table

BUY-3003-D Buy-In Linked Recipients

Functional Area	Report Number	Job Name	Report Title
Buy-In	BUY-3003-D	BUY-3003	Buy-In Linked Recipients

Description of Information

This report lists all recipients included in a linking or unlinking transaction as part of the daily interface with ICES and Buy-In data appears under one or both RID numbers in Indiana*AIM*. The report includes the data on the inactive RID number as well as the data on the active RID number.

To identify recipients with Buy-In, the system checks the Buy-In Part A and Part B billing data, looks for the buy-in process date, and selects the records that show a process date equal to the current month or the previous month. (These tables are "TRE_BUYA_BILL" and "TRE_BUYB_BILL")

Purpose

The purpose of this report is to identify recipients who ICES linked or unlinked and the have two RID numbers with Medicare Buy-In data attached. This report is researched and manual data entry is performed to ensure that the necessary changes and accretions or deletions are coordinated with CMS via the monthly Premium jobs.

Sort Sequence

- *Primary* - Linking transactions: new RID number.
- *Secondary* - Unlinking transactions: newly activated RID

Distribution

To	Media	Copies	Frequency
EDS	CRLD/Paper	1	Daily
FSSA	CRLD/Paper	1	Daily

Detailed Field Definitions

RID	Recipient's 12-character numeric identification number from the Recipient base table (current and prior)
HIB	Medicare identification number for the newly activated recipient from the recipient Medicare table
Last	Recipient's last name from the recipient base table
First	Recipient's first name from the recipient base table
MI	Recipient's middle initial from the recipient base table
Caseworker	A six-character alphanumeric field that identifies the caseworker assigned to this recipient from the recipient base table

Section 7: CLM Reports

CLM-0100-M Claim Count by Claim Type

Functional Area	Report Number	Job Name	Report Title
Claims	CLM-0100-M	CLMJM100M	Claim Count by Claim Type

Description of Information

The report shows the number of claims received by EDS for the month reported. This report is sorted by claim type and media type.

Purpose

The claim count report is used by EDS and IFSSA to evaluate the number of claims received by media type for each claim type.

Sort Sequence

- *Primary* - Claim type
- *Secondary* - Media type

Distribution

To	Media	Copies	Frequency
EDS	CRLD/Paper	2	Monthly
IFSSA	CRLD/Paper	1	Monthly

Detailed Field Definitions

Claim Type

The type of claim form received by EDS. Valid values:

- Inpatient
- Outpatient
- Long term care
- Pharmacy
- CMS-1500
- Dental
- Home health
- Inst xover
- Outp xover
- CMS xover
- Compound drug

No. Of Computer Generated Claims

The number of claims received by EDS that were computer printed. This is determined by the EC indicator on the Viking screen. This only shows the total claims with indicator of **1** (typed or computer generated)

No. Of Handwritten Claims	The number of claims received by EDS that were not computer printed, determined by the EC indicator on the Viking screen. This shows the total claims with indicator of **0** (handwritten)
Total Paper Claims	The number of computer-generated claims plus the number of handwritten claims
% Computer Generated	The number of computer-generated claims divided by total paper claims multiplied by 100
No. ECS Claims	The number of claims received by EDS that were submitted via computer disk, tape, cartridge, or telecommunication. This shows the total claims with region code 20
% ECS OF Total ECC	The number of ECS claims divided by the total number of ECC claims multiplied by 100
No. POS Claims	The number of claims received by EDS submitted via Point of service (POS). This shows the total claims with region code 25
% POS OF Total ECC	The number of POS claims divided by the total number of ECC claims multiplied by 100
Total ECC	The number of ECS claims plus the number of POS claims
Total Claims	Total paper claims plus total ECC

Detailed Field Definitions

Individual Provider No.	The provider number of the rendering provider
No. Of Computer Generated Claims	The number of claims received by EDS that were computer printed. This is determined by the EC indicator on the Viking screen. This only shows the total claims with indicator of **1** (typed or computer generated)
No. Of Handwritten Claims	The number of claims received by EDS that were not computer printed. This is determined by the EC indicator on the Viking screen. This only shows the total claims with indicator of **0** (handwritten)
Total Paper Claims	The number of computer-generated claims plus the number of manual claims
% Computer Generated	The number of computer-generated claims divided by the total number of paper claims multiplied by 100
No. ECS Claims	The number of claims received by EDS submitted via computer disk, tape, cartridge, or telecommunication. This shows the total claims with region code 20 or 21.
% ECS Of Total	The number of ECS claims, divided by the total number of ECC claims, multiplied by 100.

No. POS Claims	The number of claims received by EDS submitted via Point of service (POS). This shows the total claims with region code 25.
% POS	The number of POS claims, divided by the total number of ECC claims, multiplied by 100
Total ECC	The number of ECS claims plus the number of POS claims
Total Claims	Total paper claims plus total ECC

CLM-0112-M Wrong LTC Revenue Code at Half Rate

Functional Area	Report Number	Job Name	Report Title
Claims	CLM-0112-M	CLMJM112	Wrong LTC Revenue Code at Half Rate

Description of Information

The Wrong LTC Revenue Code at Half Rate Report displays claim information when a provider bills for a 50%-rate leave day using a full-rate revenue code.

Purpose

Long Term Care claims are currently paid using Case Mix, which provides the potential for a claim's allowed (paid) amount to be greater than the billed amount. The Wrong LTC Revenue Code at Half Rate Report may be used by the Long Term Care unit to identify and adjust a claim that was coded with the wrong revenue code for a 50%-rate leave day.

Sort Sequence

- *Primary* - Provider ID
- *Secondary* - ICN

Distribution

To	Media	Copies	Frequency
EDS	E-mail	0	Monthly
OMPP	E-mail	0	Monthly

Detailed Field Definitions

Provider ID	Billing provider's Indiana*AIM* identification number
Provider Name	If the billing provider is a person's name, it is listed as "Last, First M". Otherwise, the name is displayed as it is stored in the database.
ICN	Identifies the claim control number
Recipient:ID	Recipient's Indiana*AIM* identification number
Recipient:Name	Recipient's first and last name
From	First date of service of the claim
To	Last date of service of the claim
Rev	Revenue code of the claim detail
Billed	Amount billed by the provider
Allowed	Amount allowed (paid) by the system.

CLM-0115-M Claim Count by Geographical Area

Functional Area	Report Number	Job Name	Report Title
Claims	CLM-0115-M	CLMJM115	Claim Count by Geographical Area

Description of Information

The report shows the number of claims received by EDS for the month reported. This report is sorted by geographical area and media type.

Purpose

The Claim Count report is used by EDS and IFSSA to evaluate the number of claims received by media type for each geographical area.

Sort Sequence

- *Primary* - Geographical area
- *Secondary* - Media type

Distribution

To	Media	Copies	Frequency
EDS	CRLD/Paper	2	Monthly
IFSSA	CRLD/Paper	1	Monthly

Detailed Field Definitions

Geographical Area	The geographical area where the service was rendered. Geographical area is based on the two-byte alphanumeric county code carried in the provider file. The county name appears next to its two-byte county code.
No. Of Computer Generated Claims	The number of claims received by EDS that were computer printed. This is determined by the EC indicator on the Viking screen. This only shows the total claims with indicator of **1** (typed or computer generated).
No. Of Handwritten Claims	The number of claims received by EDS that were not computer printed. This is determined by the EC indicator on the Viking screen. This only shows the total claims with indicator of **0** (handwritten).
Total Paper Claims	The number of computer-generated claims plus the number of manual claims
% Computer Generated	The number of computer-generated claims, divided by the total number of paper claims, multiplied by 100

No. ECS Claims	The number of claims received by EDS submitted via computer disk, tape, cartridge, or telecommunication. This shows the total claims with region code 20 or 21.
% ECS Of Total	The number of ECS claims, divided by the total number of ECC claims, multiplied by 100
No. POS Claims	The number of claims received by EDS submitted via point of service (POS). This shows the total claims with region code 25.
% POS	The number of POS claims, divided by the total number of ECC claims, multiplied by 100
Total ECC	The number of ECS claims plus the number of POS claims
Total Claims	Total paper claims plus total ECC

Note: Adjustment claims are reported in the type of media columns by the mother claim, not the adjustment claim.

CLM-0130-D CLM-0130-W Error Analysis by Error Code

Functional Area	Report Number	Job Name	Report Title
Claims	CLM-0130-D CLM-0130-W		Error Analysis by Error Code

Description of Information

The report shows how many times the listed ESC set during the reported period. This report does not count claims, it counts occurrences of the ESC codes. All edits that are suspending are listed under the error number column with a brief description. For each edit a total number of suspensions for all ESC codes and a total number by each claim type are listed.

Purpose

The Error Analysis by Error Code report is used by EDS and IFSSA to monitor daily edit suspensions for paper, ECS and POS (Point Of Service) claims. When high edit counts are identified, research is done to determine if edits need revision or if providers are experiencing billing problems. If a provider is identified as having problems, the provider relations area may contact the provider to help alleviate or resolve the problems

Sort Sequence

- *Primary -* Error status code

Distribution

To	Media	Copies	Frequency
EDS	Paper/CRLD	2	Daily

Detailed Field Definitions

ESC	The four-byte error status code that caused at least one claim to suspend during the reporting period
Desc	The description of the four-byte ESC. This field is 21 bytes in length.
CCF	The total number of CCFs sent out during the reporting period sorted by ESC
Total	The total number of times that this error status code set during the reporting period. It is sorted into the total of all paper claims, electronic claims, and POS.
Pharm	The total number of times that this error status code set for pharmacy claims. It is sorted into the total of all paper claims, electronic claims, and POS. The claim types reported in this column are **P** and **Q**.

Med	The total number of times that this error status code was set for medical claims. It is sorted into the total of all paper claims, electronic claims, and POS. The claim type that reports in this column is **M**.
Dent	The total number of times that this error status code set for dental claims. It is sorted into the total of all paper claims, electronic claims, and POS. The claim type that reports in this column is **D**.
Inpt	The total number of times this error status code set for inpatient claims. It is sorted into the total of all paper claims, electronic claims, and POS. The claim type that reports in this column is **I**.
Outp	The total number of times this error status code set for outpatient claims. It is sorted into the total of all paper claims, electronic claims, and POS. The claim type that reports in this column is **O**.
Lt Care	The total number of times this error status code set long term care claims. It is sorted into the total of all paper claims, electronic claims, and POS. The claim type that reports in this column is **L**.
H Hlth	The total number of times this error status code set for home health claims. It is sorted into the total of all paper claims, electronic claims, and POS. The claim type that reports in this column is **H**.
Xovr	The total number of times this error status code set for crossover claims. It is sorted into the total of all paper claims, electronic claims, and POS. The claim types that report in this column are **A**, **C**, and **B**.
Grand Total CCF	The total number of times CCFs generated on a daily basis for all ESCs reported during the reported period.
Grand Total	The total number of times all error status codes set during the reporting period. It is sorted into the total of all submissions of paper claims, electronic claims, and POS. This includes all claims types and prints one time at the end of the report

Description of Information

This report shows how many times the listed ESC set during the reported period. This report does not count claims, it counts occurrences of the ESC codes. All edits that are suspending are listed under the error number column with a brief description. For each edit a total number of suspensions for all ESC codes and a total number by each claim type are listed.

Purpose

The Error Analysis by Error Code report is used by EDS and IFSSA to monitor all edit suspensions for paper, ECS and POS (Point Of Service) claims that are in suspense. When high edit counts are identified, research is done to determine if edits need revision or if providers are experiencing billing problems. If a provider is identified as having problems, the provider relations area may contact the provider to help alleviate or resolve the problems

Detailed Field Definitions

ESC	The four-byte error status code that caused at least one claim to suspend during the reporting period
Desc	The description of the four-byte ESC. This field is 21 bytes in length.
CCF	The total number of CCFs sent out during the reporting period sorted by ESC.
Total	The total number of times this error status code set during the reporting period. It is sorted into the total of all paper claims, electronic claims, and POS.
Pharm	The total number of times this error status code set for pharmacy claims. It is sorted into the total of all paper claims, electronic claims, and POS. The claim types that report in this column are **P** and **Q**.
Med	The total number of times this error status code set for medical claims. It is sorted into the total of all paper claims, electronic claims, and POS. The claim type that reports in this column is **M**.

Dent	The total number of times this error status code set for dental claims. It is sorted into the total of all paper claims, electronic claims, and POS. The claim type that reports in this column is **D**.
Inpat	The total number of times this error status code set for inpatient claims. It is sorted into the total of all paper claims, electronic claims, and POS. The claim type that reports in this column is **I**.
Outp	The total number of times this error status code set for outpatient claims. It is sorted into the total of all paper claims, electronic claims, and POS. The claim type that reports in this column is **O**.
Lt Care	The total number of times this error status code set long term care claims. It is sorted into the total of all paper claims, electronic claims, and POS. The claim type that reports in this column is **L**.
H Hlth	The total number of times this error status code set for home health claims. It is sorted into the total of all paper claims, electronic claims, and POS. The claim type that reports in this column is **H**.
Xovr	The total number of times this error status code set for crossover claims. It is sorted into the total of all paper claims, electronic claims, and POS. The claim types that report in this column are **A**, **C**, and **B**.
Grand Total CCF	The total number of times CCFs generated on a daily basis for all ESCs reported during the reported period.
Grand Total	The total number of times all error status codes were set during the reporting period. It is sorted into the total of all submissions of paper claims, electronic claims, and POS. This includes all claims types and prints one time at the end of the report

CLM-0135-W Error Analysis by Provider Number

Functional Area	Report Number	Job Name	Report Title
Claims	CLM-0135-W		Error Analysis by Provider Number

Description of Information

The report lists the top ten provider numbers and their top five error status codes. It also lists the top ten provider numbers for 590 Program denied claims and their top five error status codes.

Purpose

The Error Analysis by Provider Number report is used by EDS to examine the top ten Providers who encountered the most errors in the claims processing system. It monitors the top five error status codes by provider number. This report is forwarded to provider relations so that they can notify the affected providers of the errors encountered. This request is to modify this report to include and list separately providers billing for 590 Program services.

CLM-0140-W Error Analysis by Forced Error Code

Functional Area	Report Number	Job Name	Report Title
Claims	CLM-0140-W		Error Analysis by Forced Error Code

Description of Information

For each claim, the report lists the error code, description, and number of errors per claim type forced through the system. All edits forced are listed under the error number column with a brief description. The report gives totals for the number of forced transactions for each claim type, for each edit, and for all claims.

Purpose

EDS and the IFFSA use the Error Analysis by Forced Error Code report to monitor the effectiveness of the error codes. It also determines whether error codes are needed, depending on the volume of claims forced to adjudicate and pay.

CLM-0145-D Error Analysis by Denied Error Code

Functional Area	Report Number	Job Name	Report Title
Claims	CLM-0145-D	CLMJD145	Error Analysis by Denied Error Code

Description of Information

EDS and IFSSA use the Error Analysis by Denied Error Code report to monitor daily edit denials by paper, ECS, and POS (Point Of Service) claims. When high claim denials are identified, research is done to determine if edits need revision or if providers are experiencing billing problems. If a provider is having problems, the resolutions department contacts the provider relations area to notify providers of their billing errors.

Purpose

The report shows the number of ESC codes per claim type that denied. All edits that are denying are listed under the error number column with a brief description. For each edit a total number of denials for all claims and a total number by each claim type are listed.

Sort Sequence

- *Primary -* Error status code

Distribution

To	Media	Copies	Frequency
EDS	CRLD/Paper	1	Daily

Detailed Field Definitions

ESC	The four-byte error status code that caused at least one claim to deny that day
Desc	The description of the four-byte denied ESC
Total	The total number of times this error status code denied that day. Sorted by the total number of paper, electronic, and POS claims denied. All media is the sum of the paper, electronic, and POS denials for the ESC.
Pharm	The total number of times this error status code denied for pharmacy claims that day. Sorted by the total number of paper, electronic, and POS claims denied. All media is the sum of the paper, electronic, and POS denials for the ESC. Claim types in this count are **P** and **Q**.
Med	The total number of times this error status code denied for medical claims that day. Sorted by the total number of paper, electronic, and POS claims denied. All media is the sum of the paper, electronic, and POS denials for the ESC. Claim type in this count is **M**.

Dent	The total number of times this error status code denied for dental claims that day. Sorted by the total number of paper, electronic, and POS claims denied. All media is the sum of the paper, electronic, and POS denials for the ESC. Claim type in this count is **D**.
Inpat	The total number of times this error status code denied for inpatient claims that day. Sorted by the total number of paper, electronic, and POS claims denied. All media is the sum of the paper, electronic, and POS denials for the ESC. Claim type in this count is **I**.
Outp	The total number of times this error status code denied for outpatient claims that day. Sorted by the total number of paper, electronic, and POS claims denied. All media is the sum of the paper, electronic, and POS denials for the ESC. Claim type included in this count is **O**.
Lt Care	The total number of times this error status code denied for long-term care claims that day. Sorted by the total number of paper, electronic, and POS claims denied. All media is the sum of the paper, electronic, and POS denials for the ESC. Claim type in this count is **L**.
H Hlth	The total number of times this error status code denied for home health claims that day. Sorted by the total number of paper, electronic, and POS claims denied. All media is the sum of the paper, electronic, and POS denials for the ESC. Claim type in this count is **H**.
XOvr	The total number of times this error status code denied for crossover claims that day. Sorted by the total number of paper, electronic, and POS claims denied. All media is the sum of the paper, electronic, and POS denials for the ESC. Claim types in this count are A, B, C.
Grand Total	The total number of times all error status codes reported denied for all claim types that day. Sorted by the total number of paper, electronic, and POS claims denied. All media is the sum of the paper, electronic, and POS denials.
Grand Total Pharm	The total number of times all error status codes reported denied for pharmacy claims that day. Sorted by the total number of paper, electronic, and POS claims denied. All media is the sum of the paper, electronic, and POS denials.

END OF REPORT

CLM-0150-W EOB Denial Analysis List

Functional Area	Report Number	Job Name	Report Title
Claims	CLM-0150-W		EOB Denial Analysis List

Description of Information

The report lists, for each claim, the error code, description, and the EOB posted to the claim when it denied. The total number of denials for each error code is displayed and the number of denials per claim type is reported in the claim type columns. At the end of the report is the grand total number of auto-denials and manual denied claims.

Purpose

EDS and IFSSA use the EOB Denial Analysis List report to identify the number of claims that were auto-denied and manually denied in the last weekly cycle. The error status codes (ESC) that cause claims to be auto-denied can be found on the Edit/Audit Disposition Table. ESCs that cause claims to be manually denied are set to suspend on the error disposition table.

Sort Sequence

- *Primary* - ESC
- *Secondary* - EOB

Distribution

To	Media	Copies	Frequency
EDS	CRLD/Paper	1	Weekly

Detailed Field Definitions

ESC	The four-byte error status code that caused at least one claim to auto-deny during the week
EOB	The four-byte explanation of benefit code assigned to the ESC when it is set to auto-deny
Desc	The description of the four-byte ESC
Total	The number of times this ESC auto-denied in this past financial cycle (all claim types)
Pharm	The total number of times this error status code auto-denied for pharmacy claims
Med	The total number of times this error status code auto-denied for medical claims

Dent	The total number of times this error status code auto-denied for dental claims.
Inpat	The total number of times this error status code auto-denied for inpatient claims
Outp	The total number of times this error status code auto-denied for outpatient claims
Lt Care	The total number of times this error status code auto-denied long term claims
H Hlth	The total number of times this error status code auto-denied for home health claims
XOvr	The total number of times this error status code auto-denied for crossover claims
Total Errors	The number of auto-denials for all error status codes in the past financial cycle for all claim types, sorted by claim type
ESC	The four-byte error status code that caused at least one claim to manually deny during the past week. ESCs set to suspend on the error disposition table require manual examination of the claim. Claims are checked for validity and completeness; if the claim does not meet the criteria of the ESC it may result in the denial of the claim.
EOB	The four-byte explanation of benefit code assigned to the ESC
Desc	The description of the four-byte ESC
Total	The number of times this ESC manually denied in the past financial cycle (all claim types)
Pharm	The total number of times this error status code manually denied for pharmacy claims
Med	The total number of times this error status code manually denied for medical claims
Dent	The total number of times this error status code manually denied for dental claims
Inpat	The total number of times this error status code manually denied for inpatient claims
Outp	The total number of times this error status code manually denied for outpatient claims
Lt Care	The total number of times this error status code manually denied long-term care claims.
H Hlth	The total number of times this error status code manually denied for home health claims

XOvr	The total number of times this error status code manually denied for crossover claims
Total Errors	The number of manual denials for all error status codes in the past financial cycle for all claim types, sorted by claim type
Grand Total	The number of manual and auto-denials that occurred for the past financial cycle for all claim types, sorted by claim type.

CLM-0155-M Edit/Audit Override Analysis

Functional Area	Report Number	Job Name	Report Title
Claims	CLM-0155-M		Edit/Audit Override Analysis

Description of Information

The report contains the clerk ID who overrode the error, the claim type on which the error occurred, the error code and the number of claims that had that error code overridden, the frequency of the overrides.

Purpose

The CLM-0155-M Edit/Audit Override Analysis report is used by EDS and IFSSA to identify which error codes are overridden.

Sort Sequence

- *Primary* - Clerk ID
- *Secondary* - Claim type
- *Tertiary* - ESC

Distribution

To	Media	Copies	Frequency
EDS	CRLD/Paper	1	Monthly

Detailed Field Definitions

Clerk ID — The three-byte clerk ID of the resolutions clerk who overrode the error status code listed. Print only the first occurrence of each clerk ID.

CT — The one-byte claim type in which the clerk had at least one claim override in the past month. Valid values:

D—Dental
E—Encounter
L—Long term care
M—CMS-1500
I—Inpatient
O—Outpatient
P—Pharmacy
X—Crossover A, B, and C

ESC — The four-byte error status code that the clerk overrode. Only error status codes that are overridden at least once are displayed.

Num Of Claims — The number of claims that the clerk overrode with that error status code

Total Num Of Claims — The total number of claims overridden by each clerk for the period reported

Total Overrides — The total number of claims overridden by all clerks for the period reported

CLM-0160-W Specially Handled And Processed Claims

Functional Area	Report Number	Job Name	Report Title
Claims	CLM-0160-W		Specially Handled And Processed Claims

Description of Information

The CLM-0160-W Specially Handled And Processed Claims report identifies claims processed for payment through Indiana*AIM* with special considerations requested by IFSSA or EDS. The claims reported are identified with a Region Code of 90 (Special Handling). The report lists each claim ICN that was specially processed, the provider number, RID No., from and through dates of service, billed amount, and paid amount.

Purpose

The IFSSA and EDS use the Specially Handled And Processed Claims report to identify claims processed for payment through Indiana*AIM* with special considerations.

Sort Sequence

- *Primary -* Provider

Distribution

To	Media	Copies	Frequency
EDS	CRLD/Paper	3	Weekly
FSSA	CRLD/Paper	1	Weekly

Detailed Field Definitions

ICN	A number assigned to a claim processed in the system used for internal control
Prov	A system-assigned number used to uniquely identify a provider
RID No	A system-assigned number used to uniquely identify a recipient
FDOS	The from date of service on the claim
TDOS	The through date of service on the claim
Bld Amt.	The billed amount on the claim
Pd Amt.	The paid amount of the claim if it was adjudicated during the past week's financial cycle

End of Report

CLM-0165-W, CLM-0165-P, CLM-0165-E, CLM-0165-S Weekly Claim Adjudication Cycle Time Report

Functional Area	Report Number	Job Name	Report Title
Claims	CLM-0165-W CLM-0165-P CLM-0165-E CLM-0165-S		Weekly Claim Adjudication Cycle Time Report

Description of Information

The report lists claim counts by claim type, the number of days to reach final status. Final status is reached when claims hit locations: 66—denied, 98—approved for payment, or 99—paid for each media type (paper, electronic claim submission (ECS), and point of service (POS)). This report also lists the percentage of total claim volume by days elapsed and the average age of claims in final status. Data reported spans 30 days.

Purpose

EDS and IFSSA use the Weekly Claim Adjudication Cycle Time report to monitor the claims processing time.

Sort Sequence

- *Primary* - Region code
- *Secondary* - Claim type
- *Tertiary* - Location code

Distribution

To	Media	Copies	Frequency
EDS	CRLD/Paper	2	Weekly
IFSSA	CRLD/Paper	1	Weekly

Detailed Field Definitions

Media Type — This report is generated for paper (region code 10 and 11), ECS (region codes 20, 21, 23, and 90), POS (region codes 25 and 26), and for paper, ECS, and POS claims combined.

Days — Days taken for claims to reach final status, from one day to the greatest number of days required.

Claim Type

This field represents claim type. Valid values:

- Pharmacy
- CMS-1500
- Dental
- Inpatient
- Outpatient
- Long-term care
- Home health
- Crossovers A, B, and C

Claims counts and their respective percentage of the total claims processed for the day are listed below each claim type. **G** prints next to each claim type's percent column on the day 30 row to indicate the goal of 100 percent adjudication in 30 days. ***** prints next to each claim type's percent column on the row where 100 percent adjudication was met. Claim counts below this row equal zero

Totals

The total number of claims processed for each claim type and all claim types during the 30-day reporting period.

Standard

The RFP requires that 100 percent of claims in suspense be processed within 30 days. Excluded from this standard are claims in locations: 22—Medical Policy, 40—CCF, 42—HOLD, 43—IFSSA, 44—CHSCS. Days in these locations are not included in the total number of days in suspense.

Actual

Percent of total volume by claim type that reached final status in 30 days.

Average

The average number of days taken for all claims in each claim type to reach final status during the reporting period.

Monthly Summary

All data reflects the previous calendar month's claim adjudication performance for all claim types.

CLM-0175-W Weekly Claim Payment

Functional Area	Report Number	Job Name	Report Title
Claims	CLM-0175-W		Weekly Claim Payment

Description of Information

This report shows the total dollar amount, per claim type, paid to the provider community for the previous week and is reported on the checkwrite date. Month to date, fiscal year to date, and calendar year to date summaries are also reported by claim type.

Purpose

The Weekly Claim Payment report is used by EDS and IFSSA to monitor weekly provider payments.

Sort Sequence

- *Primary -* Claim type

Distribution

To	Media	Copies	Frequency
EDS	CRLD/Paper	3	Weekly
FSSA	CRLD/Paper	1	Weekly

Detailed Field Definitions

Date

The checkwrite date for each week reported

Claim Type

Valid values:

Pharmacy
CMS-1500
Dental
Inpatient
Nursing home
Outpatient
Home health
Crossover

Each column shows the dollar amount paid to the provider community for each claim type for the week, month, and fiscal and calendar year. All claim types column shows week, month-to-date, and fiscal and calendar year totals for all claim types.

MTD

Month-to-date summarizes the claim payments for each month. MTD prints on every checkwrite date.

Fiscal Year-To-Date

First checkwrite date in July through the last checkwrite date in June. FYTD prints on every checkwrite date.

Calendar Year-To-Date

First checkwrite date in January through the last checkwrite date in December. CYTD prints on every checkwrite date.

CLM-0185-D Daily Claim Activity

Functional Area	Report Number	Job Name	Report Title
Claims	CLM-0185-D		Daily Claim Activity

Description of Information

The Daily Claim Activity report provides information on claims, suspense, and adjustments in regard to beginning inventory, new inventory, number processed , and ending inventory.

Purpose

EDS uses this report to balance claim and financial cycles. It provides the Claims Manager with the information needed to manage existing and new inventory.

Sort Sequence

None

Distribution

To	Media	Copies	Frequency
EDS	CRLD/Paper	1	Daily
IFSSA	CRLD	1	Daily

Detailed Field Definitions

Claims	Refers to original claims, not adjustments. Original Claims are identified by all regions ≠ 45-59.
Beginning	The number of sequences activated but not keyed. Status = O (open). Equals previous day's Ending
New	The number of sequences activated plus inactive claims keyed plus ECS claims and crossover tapes received
Processed	The number of claims processed (paid, denied, suspended, deleted*) during the current cycle. *Deleted claims are ICN sequences deleted from the control file. For example surplus ICN sequences resulting from over-activated batches must be deleted
Ending	Beginning + New - Processed = Ending. All sequences with Status = O after EOD runs. Equals Beginning for the next day
Suspended Claims By Location	Suspended Claims By Location are claims whose regions ≠ 45-59 and reside in locations 00-44.

Beginning	The number of claims that reside in the suspense file after the previous day's EOD. Equals the previous day's Ending.
New	Claims dispositioned to suspend during the current cycle (New claims and data corrections that dispositioned to suspend)
Processed	Claims previously in a suspense location processed (paid, denied, and suspended) during the current cycle
Ending	Beginning + New - Processed = Ending. This will become the next day's Beginning Suspense.
New Adjustments By Region	New Adjustments By Region are claims with regions = 45-59.
Beginning	All adjustments initiated at one time but not finalized from the previous day. Equals previous day's Ending
New	The number of adjustments initiated during the current cycle. Refer to ADJ-2000-D Adjustments Initiated.
Processed	The number of adjustments processed (paid, denied, suspended, Returned to Sender (RTS)) during the current cycle
Ending	Beginning Inventory + Total Receipts - Total Processed = Ending Inventory. Equals Beginning for the next day.
Suspended Adjustments By Region	Suspended adjustments are claims with regions = 45-59 and reside in locations 00-44.
Beginning	The number of adjustments that reside in the suspense file after the previous day's EOD. Equals the previous day's Ending
New	Adjustments dispositioned to suspend during the current cycle (such as adjustments released into suspense and data corrected adjustments dispositioned to suspend)
Processed	Adjustments previously in a suspense location processed (paid, denied, and suspended) during the current cycle
Ending	Beginning + New - Processed = Ending. This becomes the next day's Beginning Suspense.
Paper	ICNs with region codes 10, 11, 40, 41 (where batch <> 40/41 batches below) and 90.
POS/ECS	ICNs with region codes 20, 22, 25, 40, 41 (reg. 40/41 with batches 1-49, 56-199, 800-829, 850-999), and 80.

Section 8: CPA Reports

CPA-0001-M CPAS Sample Listing

Functional Area	Report Number	Job Name	Report Title
CPAS	CPA-0001-M		CPAS Sample Listing

Description of Information

The CPAS Sample Listing provides basic information about the claims selected by the sample routine.

Purpose

IFSSA and EDS use the CPAS Sample Listing to review the claims selected in the sample prior to generating the detail data sheets for each claim. This report allows the user to verify that the sample is of adequate size and scope to successfully perform the review.

Sort Sequence

- *Primary -* Order selected, with page break between claim stratums.

Distribution

To	Media	Copies	Frequency
IFSSA	Paper	1	Monthly
EDS	Paper	1	Monthly

Detailed Field Definitions

Sequence Number	The order of the claim within the sample. For example, the first claim selected in the sample has a sequence number of 001.
Selection Number	The order of the claim within the sample universe. For example, if the first claim in the sample was the 9,651st record on the claims history database, the selection number would be 9,651.
ICN	The internal control number assigned to the sample claim
Provider Number/Location	The billing provider number and location code from the sample claim
RID	The recipient identification number from the sample claim
From Date of Service	The start date of service from the sample claim, in MM/DD/CCYY format
To Date of Service	The end date of service from the sample claim, in MM/DD/CCYY format

Allowed Amount	The total allowed amount for the service(s) on the sample claim prior to deducting patient liability, spenddown, TPL, or any co-payments
Paid Amount	The total amount reimbursed to the provider for the service(s) billed on the sample claim
Paid Date	The date the sample claim reached final adjudication in MM/DD/CCYY format
Summary Information	For each stratum, the following summary information is reported
Claims in Sample Universe	The total number of claims in the sampling universe for the stratum
Selected Claims	The number of claims selected from the universe of history claims for the stratum
Allowed Amount For Sample Universe	The total amount allowed for the services in the stratum prior to deducting patient liability, spenddown, TPL, or any co-payments
Allowed Amount For Selected Claims	The total amount allowed for the services on the selected claims prior to deducting patient liability, spenddown, TPL, or any co-payments
Paid Amount For Sample Universe	The total benefit dollars paid by the program for claims in the stratum
Paid Amount For Selected Claims	The total benefit dollars paid out by the program for claims selected for the sample
Grand Total Information	Report the following grand total information combining the summary information from each stratum
Claims In Sample Universe	The total number of claims in the sampling universe
Selected Claims	The number of claims selected from the universe of history claims for the sample
Allowed Amount For Sample Universe	The total amount allowed for the services in the sample universe prior to deducting patient liability, spenddown, TPL, or any co-payments
Allowed Amount For Selected Claims	The total amount allowed for the services on the selected claims prior to deducting patient liability, spenddown, TPL, or any co-payments
Paid Amount For Sample Universe	The total benefit dollars paid out by the program for claims in the sampling universe
Paid Amount For Selected Claims	The total benefit dollars paid out by the program for claims selected for the sample
Report Footer	The report footer displays **End of Report**, after the grand total information listed, and **No Data This Report** if no claims are selected based on the sampling criteria requested

Functional Area	Report Number	Job Name	Report Title
CPAS	CPA-0013-M CPA-0010-M CPA-0011-M CPA-0012-M	CPAJM010	Claim Data Sheets

Description of Information

The Claim Data Sheets contains all fields in the history database for the sample claim along with an audit trail of the claim suspense locations as it progressed through the Indiana*AIM* system. The format of the data sheets is specifically designed for each claim type; therefore the format varies from claim type to claim type.

Purpose

IFSSA and EDS use the Claim Data Sheets to perform the federally required CPAS reviews in the Indiana*AIM* system.

Sort Sequence

- *Primary* - Claim stratum
- *Secondary* - Claim type
- *Tertiary* - Billing provider number
- *Quaternary* - Recipient identification number (RID)
- *Quintenary* - Internal control number (ICN)

Distribution

To	Media	Copies	Frequency
IFSSA	Paper	1	Monthly
EDS	Paper	1	Monthly

Detailed Field Definitions – CPA-0013-M Claim Data Sheets - UB-92

ICN	The internal control number assigned to the claim by the Indiana*AIM* system
Claim Type	The program under which the claim was filed. Valid values: Inpatient Crossover A Outpatient Crossover C Home Health Long Term Care
ICN Date	The date the claim was received by the Indiana*AIM* system in MM/DD/CCYY format
Adjudication Date	The date the claim finalized in the Indiana*AIM* system in MM/DD/CCYY format
Status	The final status (paid, denied, or refunded) of the claim in the Indiana*AIM* system
Claim Header Information:	
Admission Date	The admission date
Admission Hour	The admission time
Admission Type	The type of admission
From Date Of Service	The date the service starts
To Date Of Service	The date the services ended
Days Covered	The number of days covered
Type Of Bill	The type of bill
Patient Status	The indicator showing whether the prescription was dispensed as a regular or compound drug
Patient Account No.	The reason code explaining why a name brand drug was dispensed rather than a generic drug
Signature	**Yes** indicates the provider signature was verified at the time of data entry for claims filed on paper
Admission Diagnosis	Admission diagnosis code
Description	Admission diagnosis description
Emergency Diagnosis	The emergency diagnosis code
Description	The emergency diagnosis description

Primary Diagnosis	The primary diagnosis code
Description	The primary diagnosis description
Secondary Diagnosis	The secondary diagnosis code
Description	The secondary diagnosis description
Secondary Diagnosis	The secondary diagnosis code
Description	The secondary diagnosis description
Condition Codes	Any condition codes or **None**
Value Codes	Up to 12 possible value codes submitted on the claim along with the associated dollar amounts
Occurrence Codes	Up to ten possible occurrence codes submitted on the claim along with the associated dates
Surgery Code 1	The surgery code
Date	The date of service for the surgery code
Description	The surgery code description
Surgery Code 2	A surgery code
Date	The date of service for the surgery code
Description	The Surgery Code Description
Date Billed	The date the provider billed the Indiana*AIM* system for the claim in MM/DD/CCYY format
Billed Amount	The total billed amount on the claim
Disp Share Amount	The amount of disproportionate share claimed by the facility
Reimbursement Amount	The amount of reimbursement due back to the provider
Patient Deduct Amount	The amount paid by the patient on the claim
Payer A Code	Payer A amount
Payer B Code	Payer B amount
Payer C Code	Payer C amount
Total Reimb Amount	Total Amount Reimbursed
Claim Detail Information:	
Detail Number	The claim detail sequence number
Detail Status	The detail status

Rev Code	The revenue code
Revenue Description	The revenue description
Proc Code	The procedure code
Procedure Description	The procedure description
Date Of Service	The date of service
Units	The number of units
Allowed Units	The allowed units
Billed Amount	The billed amount
Allowed Amount	The allowed amount
DRG Information:	
DRG Code	The DRG code
DRG ALOS	The DRG ALOS (average length of stay)
DRG Base Amt.	The DRG Base Amt.
Capital Cost	The capital cost
Medical Education Cost	The medical education cost
Outlier Cost	The outlier cost
Level of Care	The level of care
Overhead Rate	The overhead rate
Location Information:	
Location Code	The suspense location of the claim
Location Date	The effective date of the suspense location
Time	The effective time of the suspense location
Location Code 2	The suspense location of the claim
Location Date	The effective date of the suspense location
Time	The effective time of the suspense location
Location Code 3	The suspense location of the claim
Location Date	The effective date of the suspense location
Time	The effective time of the suspense location
EOB Information:	

EOB	The four-digit EOB code
Detail Number	The applicable detail number for the EOB code on the claim
EOB Description	The first 30 characters of the EOB message
Error Status Code Information:	
Detail Number	The detail number the ESC applies to on the claim
ESC	The action taken on the error status code (deny or force for example), and the four-digit error status code
ESC Description	The ESC Description field displays the first 30 characters of the error status code description
Detail Number 2	The applicable detail number of the ESC on the claim
ESC	The action taken on the error status code (deny or force), and the four-digit error status code
ESC Description	The first 30 characters of the error status code description
Provider Information:	
Provider Number	The identification number and service location of the billing provider on the claim
Provider Name	The name on file for the billing provider
Type	The code and description for the program under which the provider billed the service
Description	The provider description
Specialty	The provider service specialty code and description under which the claim was processed
Description	The specialty description
Specialty Effective Date	Date specialty became effective
Specialty End Date	Date specialty ends
Eligibility Effective Date	Date program eligibility became effective
Eligibility End Date	Date program eligibility ends
Medical Education Rate	The medical education rate
Cost To Charge Ratio	The cost to charge ratio
Accommodation Rate	The accommodation rate
Level Of Care Rate	The level of care rate
PMP Certification Code	The PMP Certification Code

Effective Date	Date PMP Certification eligibility became effective
End Date	Date PMP Certification eligibility ends
Attn. Provider License	The license number of the attending physician for the service, along with the name and provider type on file for enrolled physicians
Provider Name	The provider name
Type	The provider type
Description	The provider description
Other Provider License 1 Number	The license number of an additional physician associated with the service along with the name and provider type on file for enrolled physicians
Provider Name	The first other provider name
Type	The first other provider type
Description	The first other provider description
Other Provider License 2 Number	The other provider license 2 field will display the license number of a second additional physician associated with the service along with the name and provider type on file for enrolled physicians
Provider Name	The second other provider name
Type	The second other provider type
Description	The second other provider description
Recipient Information:	
Recipient Number	The identification number of the recipient
Name	The name on file for the recipient
Date of Birth	The date of birth on file for the recipient
Age	The recipient's age based on the earliest *from* date of service on the claim record
Health Program	The medical assistance program under which the claim was paid
Patient Liability Amt	The amount of patient liability
TPL Coverage	The TPL coverage
Aid Category	The State aid category under which the claim was processed
Recipient PMP Information:	
PMP ID	The identification number and service location of the recipient’s Primary Medical Physician
Provider Name	The name on file for the recipient’s primary medical physician

Eligibility Effective Date	Date recipient's primary medical physician eligibility became effective
Eligibility End Date	Date recipient's primary medical physician eligibility ends
Group ID	The identification number and service location of the recipient's primary medical physician's group
Group Name	The name on file for the recipient's primary medical physician's group
Eligibility Effective Date	Date recipient's primary medical physician's group eligibility became effective
Eligibility End Date	Date recipient's primary medical physician's group eligibility ends
MCO ID	The identification number and service location of the recipient's MCO
MCO Name	The name on file for the recipient's MCO
Eligibility Effective Date	Date recipient's MCO eligibility became effective
Eligibility End Date	Date recipient's MCO eligibility ends

Detailed Field Definitions – CPA-0010-M Claim Data Sheets - Pharmacy

ICN	The internal control number assigned to the claim by the Indiana*AIM* system
Claim Type	The program under which the claim was filed Valid value: Pharmacy
ICN Date	The date the claim was received by the Indiana*AIM* system in MM/DD/CCYY format
Adjudication Date	The date the claim was finalized in the Indiana*AIM* system in MM/DD/CCYY format
Status	The final status, for example paid, denied, or refunded, of the claim in the Indiana*AIM* system
Claim Header Information:	
Prescription Number	The prescription number assigned to the claim by the pharmacy
Prescribing License	The medical license number of the medical professional who authorized the prescription
Days Supply	The number of days the prescription meets the requirements of the prescription
Refill Quantity	The number of refills the billing provider has filled on the prescription
Emergency	**Yes** if the prescription is related to an emergency condition, otherwise this field displays **No**
Nursing Home	**Yes** if the prescription was dispensed to a recipient of long term care services, otherwise this field displays **No**
Pregnant	Indicator shows whether the prescription is related to a pregnancy condition
Type	Indicator shows whether the prescription was dispensed as a regular or compound drug
Brand Name Necessary	The reason code explaining why a name brand drug was dispensed rather than a generic drug
Signature	**Yes** indicates the provider signature was verified at the time of data entry for claims filed on paper
Date Prescribed	The date the prescription was written, in MM/DD/CCYY format
Date Dispensed	The date the pharmacy filled the prescription, in MM/DD/CCYY format
Date Billed	The date the provider billed the Indiana*AIM* system for the claim, in MM/DD/CCYY format
Billed Amount	The total billed amount on the claim
TPL Amount	The amount paid by other insurance on the claim

Patient Deductible Amount	The amount of deductible paid by the recipient on the prescription
Co-Pay Amount	The amount of the co-payment made by the recipient on the prescription
Professional Fee	The amount of the dispensing fee paid to the provider
Total Reimbursement Amount	The total amount paid by the Indiana*AIM* system on the claim
Claim Detail Information:	
Detail Number	The claim detail sequence number
NDC	The national drug code for the prescription item
NDC Description	The description on file for the prescription item
Drug Form	The basic measurement unit of the drug
Dispensed Quantity	The units dispensed by the provider in filling the prescription
Billed Amount	The total billed amount for the prescription
Allowed Amount	The total allowed amount for the prescription prior to any reductions, such as TPL or co-pay
AWC	The calculated average wholesale cost for the prescription
EAC	The calculated estimated acquisition cost for the prescription
MAC	The calculated manufacturers acquisition cost for the prescription
EOB Information:	
EOB	The four-digit EOB code
Detail Number	The applicable detail number for the EOB code on the claim
EOB Description	The first 30 characters of the EOB message
Error Status Code Information:	
ESC Status	The action taken on the error status code
ESC	The four-digit error status code
Detail Number	The detail number the ESC applies to on the claim
ESC Description	The first 30 characters of the error status code description
Location Information:	
Location Code	The suspense location of the claim
Location Date	The effective date of the suspense location
Provider Information:	

Provider Number	The identification number and service location of the billing provider on the claim
Provider Name	The name on file for the billing provider
Type	The code and description for the program under which the provider billed the service
Specialty	The provider service specialty code and description under which the claim was processed
Recipient Information:	
Recipient ID	The identification number of the recipient
Name	The name on file for the recipient
Date of Birth	The date of birth on file for the recipient
Age	The recipient's age based on the earliest From date of service on the claim record
Aid Category	The State aid category under which the claim was processed
Health Program	The medical assistance program under which the claim was paid

Detailed Field Definitions – CPA-0012-M Claim Data Sheets – CMS-1500

ICN	The internal control number assigned to the claim by the Indiana*AIM* system
Claim Type	The program under which the claim was filed. Valid values: CMS-1500 Crossover B
ICN Date	The date the claim was received by the Indiana*AIM* system, in MM/DD/CCYY format
Adjudication Date	The date the claim was finalized in the Indiana*AIM* system, in MM/DD/CCYY format
Status	The final status (paid, denied, or refunded) of the claim in the Indiana*AIM* system.
Claim Header Information:	
From Date Of Service	The start date of service billed, in MM/DD/CCYY format
To Date Of Service	The end date of service billed, in MM/DD/CCYY format
Referring Provider	The ID number of the provider who referred the recipient for treatment
Patient Account Number	The account number assigned to the claim by the provider
Accident	Indicator shows whether the service was the result of an accidental injury
Attachment	**Yes** if the claim was submitted with attached documentation
Certification Number	The code allowing for referred services as part of the managed care program
Signature	**Yes** indicates the provider signature was verified at the time of data entry for claims filed on paper
Diagnosis Codes	Up to four possible diagnosis codes submitted on the claim along with the description of the code
Date Billed	The date the provider billed the Indiana*AIM* system for the claim, in MM/DD/CCYY format
Billed Amount	The total billed amount on the claim
TPL Amount	The amount paid by other insurance for the claim
Patient Deductible Amount	The amount paid by the patient for the claim
Co-Pay Amount	The amount of the co-payment made by the recipient for the service
Net Billed Amount	The total billed amount on the claim, minus the TPL and patient deductible amounts
Total Reimbursement Amount	The total amount paid by the Indiana*AIM* system for the claim
Claim Detail Information:	

Detail Number	The claim detail sequence number
Detail Status	The adjudication status of the detail
From Date Of Service	The start date of treatment, in MM/DD/CCYY format
To Date Of Service	The end date of treatment in MM/DD/CCYY format
Place Of Service	The code and description of the setting for the service
Procedure Code	The procedure code and description for the service performed
Modifiers	Up to three modifier codes billed with the procedure
Diagnosis Xref	The code corresponding with the header diagnosis code for the treatment
Performing Provider	The provider number and service location of the medical professional responsible for rendering the service
Emergency	**Yes** if the service was the result of an emergency situation
EPSDT	Indicator shows whether the service was related to an EPSDT screening
Pregnant	Indicator shows whether the service is related to a pregnancy condition
Units	The number of units of the procedure billed on the detail
Units Allowed	The number of units of the procedure allowed as covered by the Indiana*AIM* system
Billed Amount	The total billed amount for the service
Allowed Amount	The total amount Medicaid allowed for the service
Pricing Indicator	The code indicating the pricing methodology used to process the claim
Error Status Code Information:	
ESC Status	The action taken on the error status code
ESC	The four-digit error status code
Detail Number	The detail number the ESC applies to on the claim
ESC Description	The first 30 characters of the error status code description
EOB Information:	
EOB	The four-digit EOB code
Detail Number	The applicable detail number for the EOB code on the claim
EOB Description	The first 30 characters of the EOB message
Location Information:	
Location Code	The suspense location of the claim

Location Date	The effective date of the suspense location
Provider Information:	
Provider Number	The identification number and service location of the billing provider on the claim
Provider Name	The name on file for the billing provider
Type	The code and description for the program under which the provider billed the service
Specialty	The provider service specialty code and description under which the claim was processed
Recipient Information:	
Recipient ID	The identification number of the recipient
Name	The name on file for the recipient

CTL-0100-D Daily POS Transaction Detail Report

Functional Area	Report Number	Job Name	Report Title
Claims	CTL-0100-D		Daily POS Transaction Detail Report

Description of Information on the Report

The CTL-0100-D Daily POS (Point of Service) Transaction Detail Report shows the total number of POS transactions accepted and rejected for each transaction type and all transaction types reported. It will also report the amount of time in seconds taken to process a claim.

Purpose of Report

The Daily POS Transaction Detail Report is used by EDS to monitor POS performance and transmission volume.

Sort Sequence

- *Primary* - Transaction type
- *Secondary* - Provider number

Distribution

To	Media	Copies	Frequency
EDS	CRLD/Paper	3	Daily

Detailed Field Definitions

Prov Num — A system assigned number used to uniquely identify a provider

Type — The type of the POS transaction. Valid types include:

Elig – Eligibility/EVS
Drug – Drug claim
CMS – CMS 1500 claim
Inpt – Inpatient claim
Outp – Outpatient claim
HomH – Home Health claim
NurH – Nursing Home claim
Dent – Dental claim
Revs – Reversal

Txns Accepted — The number of transactions accepted for this provider

Txns Rejected — The number of transactions rejected for this provider

Total Txns — The total number of accepted and rejected transactions for this provider

Total	Total number of POS transactions for this transaction type broken down by transactions accepted, rejected, and the combined total of both accepted and rejected transactions, and claim count totals by *seconds taken to process* for this transaction type. When transaction type has no data, print zeros in columns 2 through 15
Grand Total	The number of POS transactions accepted, rejected, and the combined total of both accepted and rejected transactions, and claim count totals by *seconds taken to process* for all transaction types

CTL-0105-W Claim Batches Activated

Functional Area	Report Number	Job Name	Report Title
Claims	CTL-0105-W		Claim Batches Activated

Description of Information

The *Claim Batches Activated Report* displays all activation records transmitted to the system that allow for the claims to be processed. The activations displayed on this report are only for paper claims since electronic claims have an automatic activation generated for them when they are processed. This report is accessible online daily, but a paper copy is printed weekly.

Purpose

The *Claim Batches Activated Report* is used by the Data Entry Supervisor to identify inventory by claim type. The parameter of time is a changeable variable, so that the report can be generated daily, weekly, and monthly.

Sort Sequence

- *Primary* - Activation date
- *Secondary* - Claim type
- *Tertiary* - ICN

Distribution

To	Media	Copies	Frequency
EDS	CRLD/Paper	1	Weekly

Detailed Field Definitions

CT

The one byte field representing claim type. Valid values:

D – Dental
H – Home Health
L – Long Term Care
M – CMS-1500
I – Inpatient
O – Outpatient
P – Pharmacy
X – Crossover A, B, and C

ICN Ranges

The internal control number in RRCCYYJJJBBBSSS format:

R – Region
C – Century
Y – Year
J – Julian Date
B – Batch
S – Sequence

Clerk ID	The three-byte clerk identification number
Date Activated	Date the activation was keyed
# Of Claims	The six-character numeric field representing the total number of claims for each batch range
Summary	The six-character numeric field representing the number of claims per day for each category: Dental, Home Health, Long Term Care, Medical, Inpatient, Outpatient, Pharmacy, Crossover, and for all claim types combined.
Total	The six-character numeric field representing the total of all claim batches activated per week for each claim type and for all claim types combined.

CTL-0110-D Data Entry Inventory

Functional Area	Report Number	Job Name	Report Title
Data Entry	CTL-0110-D		Data Entry Inventory

Description of Information

The report shows data entry inventory, such as paper claims to be keyed, by claim type. Data entry inventory is calculated by starting with the previous day's beginning inventory, adding the previous day's activations and inactive claims keyed, then subtracting the previous day's claims keyed and claims deleted, to arrive at the current days beginning inventory. These claims will only include the inventory for paper claims.

Purpose

EDS and IFSSA use the CTL-0110-D report to monitor data entry inventory and activity on a daily basis. The data entry supervisor uses these numbers to schedule work for the data entry staff.

Sort Sequence

- *Primary -* Claim type

Distribution

To	Media	Copies	Frequency
EDS	CRLD/Paper	2	Daily

Detailed Field Definitions

Beginning Inventory	Number of paper claims to be keyed by data entry staff at the start of the shift
Claims Activated	Paper claims received, ICNs assigned, and activated. This number adds to the inventory of claims to be keyed. Claims are activated in batches.
Inactive Claims Keyed	Claims keyed without first being activated (activating fewer ICNs than necessary for a batch of paper claims is under-activation). This number adds to the inventory of claims activated and claims keyed equally.
Total Receipts	Claims activated, plus inactive claims keyed, equals total receipts
Claims Keyed	Number of claims keyed by Data Entry staff for the shift. Claims keyed are selected from the activated claims inventory and from the inactive claim inventory.
Claims Deleted	Claims deleted due to over-activation. This number decreases the number of claims to be keyed.
Total Processed	Claims keyed, plus claims deleted, equals total processed.
Ending Inventory	Beginning inventory, plus total receipts, minus total processed, equals ending inventory.

CTL-0120-W ICN Deleted from Control File

Functional Area	Report Number	Job Name	Report Title
Claims	CTL-0120-W		ICN Deleted from Control File

Description of Information

All ICNs entered are verified daily by the Data Entry Supervisor. If an ICN was entered for one or more claims that do not exist, those ICNs must be deleted from the activation table and those deletions are on this report. In addition, any claims voided in the Viking system must be deleted from the online tables. Deletions of voids or over-activations must be done daily. The report itself lists the beginning and ending ICNs inappropriately activated, or claims voided in Viking.

Purpose

EDS uses the *ICN Delete from Control File* to monitor all internal control numbers deleted from the control file.

Sort Sequence

- *Primary -* ICN, ascending

Distribution

CTL-0125-W Missing Claim Report

Functional Area	Report Number	Job Name	Report Title
Claims	CTL-0125-W		Missing Claim Report

Description of Information

This report lists any individual ICN missing from a batch that has been entered. This report is used to ensure that all claims are accounted for. The main reason that an ICN appears as missing is the over-activation of a batch or a batch transmitted for processing prior to being completely entered. The only way an ICN can be removed from this report is by typing in or deleting the activation.

Purpose

EDS uses the *Missing Claim Report* to monitor individual ICNs activated but not entered into the system. The ICNs listed belong to batches already entered.

Sort Sequence

- *Primary -* ICN, ascending

Distribution

To	Media	Copies	Frequency
EDS	Paper	1	Weekly

Detailed Field Definitions

Clerk	Three-byte clerk ID who activated the claim
ICN	Internal control number of the activation that did not have a matching claim entered. ICN format is RRYYJJJBBBSSS. R – Region Y – Year J – Julian Date B – Batch S – Sequence
Activation Date	Date the activation was keyed
Number Of Days	Number of days the missing claim record has been outstanding. Today's Julian date, minus activation Julian date, equals number of days

CTL-0130-D Aged Claims Listing

Functional Area	Report Number	Job Name	Report Title
Claims	CTL-0130-D		Aged Claims Listing

Description of Information

The CTL-0130-D Aged Claims report lists aged claims that have not been resolved. The report is sorted by Julian Date. The report displays the current system location of the claim and how long it has been in that location. The report is reviewed daily and all claims listed on the report are given priority during claim resolution. Each claim is researched to determine the cause of the suspense age, and appropriate measures are taken to ensure timely adjudication of the suspended claim. Elapsed days do **not** include time in a Medical Review (22), Recycle (41), Hold (42), IFSSA (43), CHSCS (44), Claim Deny (66), Claim Approved for Payment (98), Claim Paid (99) or CCF (40) location. The excluded locations (except location 22) are not included on this report. The age of the ICN is from the Julian date, less time in excluded locations, less report date. Adjustments are excluded from this report.

Purpose

The Aged Claim Listing report is used by EDS to display all claims **X** days or older currently suspended in the system. This report automatically prints if the claims aging is equal to 25 days or older.

Sort Sequence

- *Primary* - Julian date of ICN
- *Secondary* - Location

Distribution

To	Media	Copies	Frequency
EDS	CRLD/Paper	2	Daily

Detailed Field Definitions

CT	One-byte field representing claim type. Valid values: D – Dental S – Shadow H – Home Health L – Long Term Care M – Medical I – Inpatient O – Outpatient P – Pharmacy X – Crossover A, B and C Q – Compound Drug
ICN	Unique number assigned to a claim processed in the system for internal control purposes. The ICN is in RRCCYYJJJBBBSSS format. Valid Values: R – Region C – Century Y – Year J – Julian date B – Batch S – Sequence
RID	System-assigned number used to identify a unique recipient
Bill Prov	System-assigned number used to identify a unique provider
Elsp Days	Number of days claim was in Indiana*AIM* without being adjudicated. This number excludes the number of days the claim was in a Medical Review (22), Recycle (41), Hold (42), IFSSA (43), CSHCS (44), Adjustments (50), Claim Deny (66), Claim Approved for Payment (98), Claim Paid (99) or CCF (40) location. The excluded locations (except location 22) are not included in this report. The number of days is calculated by subtracting the ICN Julian date from the report date, less the days spent in the excluded locations.
Loc CD	Location code where the claim is currently in suspense.
Loc DT	Date the claim entered location.
Days Loc	Number of claim has been in location. (Current date minus Location date)
Aged Claims Minus Location 22	Total number of claims not adjudicated that are more than **X** days old. This calculation excludes claims aged in location 22.
Claims In Location 22	Total number of claims not adjudicated in location 22 that are **X** days old.
Grand Total	Total number of claims on the report. This is the Aged Claims Minus The Location 22 claims plus Claims In Location 22.

CTL-0135-W Aged Active Claim Analysis

Functional Area	Report Number	Job Name	Report Title
Claims	CTL-0135-W		Aged Active Claim Analysis

Description of Information

This report lists the number of claims in each age category by claim location. There are six time segments ranging from zero to 91-plus days. Adjustments are excluded from this report.

Purpose

EDS and IFSSA use the *Aged Active Claim Analysis* report to monitor the status of claims in suspense by claim type and establish claim resolution focus. Claims in suspense for long periods of time receive a high priority for resolution. Large groups of claims within a certain suspense location code receive high priority as well. Trends are developed by using this document to track location codes and the age of suspended claims.

Sort Sequence

- *Primary* - Claim type
- *Secondary* - Location code

END OF REPORT

CTL-0140-D Daily Incoming Claim Disposition Summary

Functional Area	Report Number	Job Name	Report Title
Claims	CTL-0140-D		Daily Incoming Claim Disposition Summary

Description of Information

The report shows the number of claims received by EDS daily and the disposition of the claims received. Claim disposition is reflected by the claim location assigned to the claim.

Purpose

EDS uses the *Daily Incoming Claim Summary* to control and track claims received. It allows EDS to ensure that each claim received is accounted for.

Sort Sequence

- *Primary* - Claim type
- *Secondary* - Region code

Distribution

To	Media	Copies	Frequency
EDS	CRLD/Paper	2	Daily

Detailed Field Definitions

Claim Type — The type of claim form received by EDS. Valid values:

Dental
Pharmacy
CMS-1500
Compound drug
CMS-1500 Xover
CMS-1500
UB-92 Inst Xover
UB-92 Outp Xover
Home Health
Inpatient
Long Term Care
Outpatient
Shadow

10 — Number of paper claims received by EDS without attachments

11 — Number of paper claims received by EDS with attachments

20 — Number of ECS claims received by EDS with no attachment indicators

22	Number of shadow claims received by EDS
23	Number of Crossover claims submitted by providers using the Provider Electronic Solutions software and processed by EDS
25	Number of POS claims received by EDS with no attachment indicators
40	Number of converted MMIS claims processed by EDS
41	Number of converted 590 MMIS claims processed by EDS
45	Number of converted MMIS adjustment claims processed by EDS
46	Number of converted 590 MMIS adjustment claims processed by EDS
50	Number of non-check related adjustments claims processed by EDS
51	Number of check related adjustment claims processed by EDS
54	Number of check voided mass adjustments processed by EDS
55	Number of nursing home adjustment claims processed by EDS
56	Number of financial adjustment claims processed by EDS
57	Number of mass adjustments reprocessed by EDS SEs
70	Number of HMO capitation claims processed by EDS
80	Number of claims reprocessed by EDS SEs
90	Number of special handling claims processed by EDS
TOTAL	Total number of claims received by claim type
LOC 00	Number of claims that failed validation edits
LOC 01	Number of claims that failed provider-related edits
LOC 02	Number of claims that failed recipient-related edits
LOC 03	Number of claims that failed PA-related edits
LOC 04	Number of claims that failed reference file-related edits
LOC 20	Number of claims that failed history-related duplication audits
LOC 21	Number of claims that failed medical policy-related audits
LOC 22	Number of claims that failed medical policy-related audits and require review by medical policy staff
LOC 23	Number of claims that failed for manual pricing
LOC 30	Number of claims that failed utilization review edits
LOC 40	Number of claims that generated CCFs back to providers for correction

LOC 43	Number of claims that failed edits or audits and must be reviewed by IFSSA staff
LOC 44	Number of claims that failed edits or audits and must be reviewed by CSHCS staff
LOC 66	Number of claims denied
LOC 98	Number of claims approved to pay
TOTAL	Total number of claims received sorted by claim type and region code

END OF REPORT

CTL-0140-W All Extracted Crossover Claims, Part A

Functional Area	Report Number	Job Name	Report Title
Claims	CTL-0140-W		All Extracted Crossover Claims, Part A

Description of Information

The extracted claims report provides a detailed list of all Medicare Part A crossover claims received on the weekly claims file tape.

Purpose

List all Medicare Part A crossover claims coming to Medicaid via the magnetic tape process. This report pulls claim facsimiles for CPAS and SPR.

Sort Sequence

- *Primary* - Medicaid ICN
- *Secondary* - Medicaid RID

Distribution

To	Media	Copies	Frequency
FSSA	Paper	1	Weekly
EDS	Paper	1	Weekly

Detailed Field Definitions

HIB Number	Identifies the Medicare number of the member receiving service
Medicaid ICN	The internal control number assigned to the claim by Indiana*AIM*
Medicaid RID	The unique patient control number that identifies the recipient of the service.
Recipient Name	The member's full last name, first and middle initial
Service Dates	Indicates the first and last dates of service for the claim
Total Claim Chg	Indicates the first and last dates of service for the claim

CTL-0141-D Daily Claim Disposition Summary

Functional Area	Report Number	Job Name	Report Title
Claims	CTL-0141-D		Daily Claim Disposition Summary

Description of Information

The report shows the number of claims processed by EDS daily and the disposition of the claims processed. Claim disposition is reflected by the claim location assigned to the claim. This report includes new day claims as well as corrected suspended claims.

Purpose

EDS uses the *Daily Claim Summary* to control and track the claims processed. It allows EDS to ensure that each claim processed is accounted for.

Sort Sequence

- *Primary* - Claim type
- *Secondary* - Region code

Distribution

To	Media	Copies	Frequency

CTL-0141-W All Extracted Crossover Claims, Part B

Functional Area	Report Number	Job Name	Report Title
Claims	CTL-0141-W		All Extracted Crossover Claims, Part B

Description of Information

The extracted claims report provides a detailed list of all Medicare Part B crossover claims. This does not include DME claims.

Purpose

This report lists all Medicare Part B crossover claims coming to Medicaid via magnetic tape. It is used to pull claim facsimiles for CPAS and SPR.

Sort Sequence

- *Primary* - Medicaid ICN
- *Secondary* - Medicaid RID

Distribution

To	Media	Copies	Frequency
IFSSA	Paper	1	Weekly
EDS	Paper	1	Weekly

Detailed Field Definitions

HIB Number	Identifies the Medicare number of the member receiving service
Medicaid ICN	Internal control number assigned to the claim by IHCP
Medicaid RID	Patient control number that identifies the recipient of the service
Recipient Name	Member's full last name, first and middle initial
Service Dates	Indicates the first and last dates of service for the claim
Total Claim Chg	Total amount of all charges submitted on the claim

CTL-0145-W Crossover File Summary

Functional Area	Report Number	Job Name	Report Title
Claims	CTL-0145-W		Crossover File Summary

Description of Information

The Program Process summary contains totals of the input and output files for Part A COB crossover claims tapes received from Medicare.

Purpose

This report is a summary of Part A Medicare-related claims submitted for processing by means of direct tape. It is used to analyze rejected claims and the reason for rejection. A tape received with a high number of rejections requires further research be performed on its content before processing can continue.

Distribution

To	Media	Copies	Frequency
EDS	Paper	1	Weekly

Detailed Field Definitions

Records Read	Number of Part A claim records read into the claims processing module for crossovers
Claims Built	Number of Part A claim records built on reading this data file. Multiple record types are read in to create one claim record.
Claims Rejected	Claims rejected and not tracked in Indiana*AIM*.
Provider Not Found	Claim rejected because the provider was not found on the cross-reference for Medicare provider and a IHCP provider
Missing Record	Claim did not have all the record types needed to build a
Types	Valid record types are 01 to 99. A minimum of 10-record (provider), 20-record (recipient), and 30-record (member ID) are needed to build a claim.
No Payment Due	Coinsurance and deductible amounts equal to zero
From Medicaid	Indicates no payment is due to the provider by IHCP

CTL-0147-W Crossover File Summary

Functional Area	Report Number	Job Name	Report Title
Claims	CTL-0147-W		Crossover File Summary

Description of Information

The program process summary contains totals of the input and output files for DMERC COB crossover claims received from Medicare.

Purpose

This report is a summary of DMERC Medicare-related claims submitted for processing by means of direct tape. It is used to analyze claims rejected and reasons for rejection. A tape received with a high number of rejections requires further research on its content before processing can continue.

Distribution

To	Media	Copies	Frequency
EDS	Paper	1	Weekly

Detailed Field Definitions

Records Read	Number of DMERC detail records read into the claims processing system
Claims Built	Number of DMERC claim records built on reading this data file. Multiple record types are read in to create one claim record.
Claims Rejected	Claims rejected and not tracked in Indiana*AIM*
Provider Not Found	Claims rejected because provider was not found on the cross-reference for NSC Supplier number and the Medicaid number
Missing Record Types	Claim did not have all the record types needed to build a valid claim. In order to build a valid record at least one C11 (header) and one C21 (detail) record must be present.
No Payment Due	Coinsurance and deductible amounts equal zero, indicating that no payment is due to the provider

CTL-0151-W Invalid Medicare Part A/C Providers

Functional Area	Report Number	Job Name	Report Title
Claims	CTL-0151-W	CLMJW440	Invalid Medicare Part A/C Providers

Description of Information

The CTL-151-W Invalid Medicare Part A/C Providers report lists all invalid providers from the UB92 Crossover Part A/C Tape - AdminaStar. The invalid providers are sorted by the number of occurrences of the tax ID and the Medicare ID. The report lists the Medicare ID, the provider's first and last name, tax ID, address, city, state, and ZIP code.

Purpose

This report lists all invalid Medicare providers and their information according to the number of occurrences of the tax ID.

Sort Sequence

Tax ID (number of occurrences)

Medicare ID

CTL-0152-D Aged Claims Listing

Functional Area	Report Number	Job Name	Report Title
Claims	CTL-0152-D		Aged Claims Listing

Description of Information

The CTL-152-D *Aged Claims Listing* reports electronic (Region 20 and 23) aged clean claims for the IHCP not resolved within 15 days. The report is sorted by Julian date. The report displays the current system location of the claim and how long it has been in that location. The report is reviewed daily, and all claims listed on the report are given priority during claim resolution. Each claim is researched to determine the cause of the suspense age, and appropriate measures are taken to ensure timely adjudication of the suspended claim. Claims that have spent any time in locations 20 (Medical Review), 30 (SUR), or 40 (CCF) are not considered clean claims under SB175. Therefore, claims that have spent any time in these locations are not included on this report. The age of the ICN is the Julian date minus the report date. Adjustments are excluded from this report.

Purpose

EDS uses the *Aged Claim Listing* report to list all claims 15 days or older currently suspended in the system. This report automatically prints if claims are aging 15 days or older.

Sort Sequence

- *Primary* - Julian date of ICN
- *Secondary* - Location

Distribution

To	Media	Copies	Frequency
EDS	CRLD/Paper	2	Daily

Detailed Field Definitions

CT	One-byte field representing claim type. Valid values: D – Dental S – Shadow H – Home health L – Long term care M – Medical I – Inpatient O – Outpatient P – Pharmacy X – Crossover A, B, and C Q – Compound drug
ICN	Unique number assigned to a claim processed in the system for internal control purposes. The ICN is in RRCCYYJJJBBBSSS format. R – Region C – Century Y – Year J – Julian date B – Batch S – Sequence
RID	System-assigned unique number used to identify a member
Bill Prov	System-assigned unique number used to identify a provider
Elsp Days	Number of days the claim has been in Indiana*AIM* without being adjudicated. Claims that spend any time in locations 22, 30, or 40 are not considered clean claims and are not included in this report. For example, a claim is currently in location 00 and is 15 days old. However, since it spent 1 day in location 22, it is not clean and is not reported. The number of days is calculated by subtracting the ICN Julian date from the Report Date.
Loc Cd	Location code where the claim is currently held in suspense
Loc Dt	Date claim entered this location
Days Loc	Number of days the claim has been in this location (Current date minus Location date)
Aged Claims	Total number of claims not adjudicated and more than 15 days old

CTL-0156-W Crossover File Summary – Part-A/C

Functional Area	Report Number	Job Name	Report Title
Claims	CTL-0156-W	CLMJW450	Crossover File Summary – Part A/C

Description of Information

The CTL-156-W Crossover File Summary – Part-A/C report from the UB92 Crossover Part A/C tape –Wisconsin - lists the number of records read, the number of claims built, the number of records of which the provider was not found, the number of missing records, and the number of claims in which there is no payment due from Medicaid.

The no payment due from Medicaid column lists the number of claims in which there is a zero amount in the deductible and co-insurance fields.

The number of claims built is the number of claims built minus the number of claims where there is no payment due from Medicaid.

Purpose

The Crossover File Summary – Part-A/C report indicates the total number of records read from the UB92 tape and the total number of claims built from those records.

Sort Sequence

N/a

Distribution

CTL-0166-W Crossover File Summary – Part-A/C

Functional Area	Report Number	Job Name	Report Title
Claims	CTL-0166-W	CLMJW495	Crossover File Summary – Part-A/C

Description of Information

The CTL-156-W Crossover File Summary – Part-A/C report from the UB-92 Crossover Part A/C tape –Riverbend - lists the number of records read, the number of claims built, the number of records of which the provider was not found, the number of missing records, and the number of claims in which there is no payment due from Medicaid.

The no payment due from Medicaid column lists the number of claims in which there is a zero amount in the deductible and co-insurance fields.

The number of claims built is the number of claims built minus the number of claims where there is no payment due from Medicaid.

Purpose

This report indicates the total number of records read from the UB-92 tape and the total number of claims built from those records.

Sort Sequence

N/a

Section 10: ECC Reports

ECC-0001-D ECC Biller Summary Report

Functional Area	Report Number	Job Name	Report Title
Electronic Claim Capture	ECC-0001-D		ECC Biller Summary Report

Description of Information

The ECC Biller Summary (ECC-0001-D) report provides magnetic tape, diskette, and cartridge claim submitters with information regarding submitted claims that contained errors so severe that they were not able to continue through the claim processing cycle. These reports also identify the reason(s) the claims rejected prior to entry in Indiana*AIM*.

Purpose of Report

The purpose of the ECC Biller Summary Report is to provide magnetic tape, diskette, and cartridge senders the opportunity to correct claim errors almost immediately after the submission of the claim file and resubmit the claim(s).

Section 11: ELG Reports

ELG-0001-D Total ID Card Counts By County

Functional Area	Report Number	Job Name	Report Title
Eligibility	ELG-0001-D		Total ID Card Counts by County

Description of Information

This report lists each of the 92 counties alphabetically with the total number of ID cards that the county issued each day. This number includes all replacement cards or new cards with the following codes from the ID Card Window:

- Y New recipient card
- L Lost card
- S Stolen card
- D Damaged card
- R Replacement card or Re-enrolled recipient
- C Changed information to the face of the ID card (Name, RID, Date of Birth)

A "Total" column at the end of report displays the number of cards printed for the State of Indiana for that week. This number is calculated by adding all 92 county card totals together for a grand total.

Purpose

The purpose of the Total ID Card Counts by County report is to allow EDS and IFSSA to view the daily counts for the ID card generation.

Sort Sequence

- Primary - County name, alphabetically

The total number of Medicaid and CSHCS cards printed for each county is listed to the right of the county name. There is also a total at the bottom of the report with the entire number of cards printed for all 92 counties for that week.

Distribution

ELG-0002-D ID Card Summary

Functional Area	Report Number	Job Name	Report Title
Eligibility	ELG-0002-D		ID Card Summary

Description of Information

This report lists the total number of ID cards generated according to the reason codes from the ID Card Window. The reasons are listed as follows with the total count for each day to the direct right of the reason:

- New recipient card
- Lost card
- Stolen card
- Damaged card
- Replacement card or Re-enrolled recipient
- Changed information to the face of the ID card (Name, RID, Date of Birth)

A "Total" line displays how many cards were actually generated for the week.

Purpose

The ID Card Summary Report allows EDS and IFSSA to view the types of cards by percentages sent to recipients.

ELG-0005-D 590 Recipient Eligibility Update Error Report

Functional Area	Report Number	Job Name	Report Title
Eligibility	ELG-0005-D		590 Recipient Eligibility Update Error Report

Description of Information

The 590 Recipient Eligibility Update Error Report (ELG-0005-W) lists the attempted 590 recipients eligibility adds or updates not accepted in the Indiana*AIM* database. Any errors detected during the Update 590 Recip Elig batch process are written to an error table. After the update batch process is completed, the error table is read, and the report is created from the transactions marked as errors. A brief message explaining each error and a brief description of what action was taken are indicated on the report. These transactions must be corrected so the appropriate action is taken.

Purpose

The purpose of the 590 Recipient Eligibility Update Error Report is to provide EDS with information regarding transactions that were not accepted.

Detailed Field Definitions

Name	The names in Last, First, MI order, as carried on the recipient base screen, of the recipient whose RID numbers are linked.
Address	Address of the Medicaid recipient.
RID Number	A 12-byte numeric field which represents the valid recipient identification number.
Date	The date the notice was produced or sent (mm/dd/ccyy).
Name	Last, First, MI
Address	City, State, ZIP Code

Concerning your Plastic Hoosier Healthwise Identification Card

Effective immediately, begin using the Hoosier Healthwise ID Card with the identification number of XXXXXXXXXXX on the front. If the card with this number is not in your possession today, or you have not received this card within 5 days of receiving of this letter, please contact your caseworker. Please destroy all previously issued cards that you have in your possession.

If you present your old card(s) to your doctor, pharmacy or other provider of service, the provider will be notified that the card is invalid.

If you are enrolled in the Hoosier Healthwise Program, your new identification card should not affect your enrollment in Hoosier Healthwise. If you have any questions, call the Hoosier Healthwise Recipient Enrollment line at 1-800-246-2224.

Your cooperation in this matter will ensure that you receive services without any interruption in your coverage.

ELG-9001-M Explanation of Medicaid Benefits Report

Functional Area	Report Number	Job Name	Report Title
Eligibility	ELG-9001-M	ELGJM010	Explanation of Medicaid Benefits Report

Description of Information

The Explanation of Medicaid Benefits (EOMB) letter (ELG-9001-M) is a system generated letter sent to a random one percent of the Medicaid recipient population. EOMBs may be selected by the following health programs: Medicaid, 590, and EPSDT. EOMBs also may be selected by the requested provider number. The address of the recipient to whom an EOMB is sent is printed on the back of each page of the report. The address is be located 3/4 of an inch from the bottom and 4 1/2 inches from the left side of each page, of the report.

Purpose

Explanation of Medicaid Benefits (EOMB) letter (ELG-9001-M) is used to assist in the identification of potential program fraud and help conserve Medicaid funds provided for the Medicaid recipients.

Sort Sequence

None

Distribution

To	Media	Copies	Frequency
Recipients (up to 1 percent of the recipient population)	Paper/CRLD	1	Monthly

Detailed Field Definitions

Recipient Name	Recipient first name, middle initial, and last name
RID Number	Recipient's identification number
Provider	The name of the provider who billed the services
Dates Of Service From To	The date range during which services were rendered by a specific provider
Service Description	A brief description of the service rendered
Claim Number	The recipient claim number
Amount Allowed	The dollar amount allowed for a specific claim
Medicaid Allowed	The total dollar amount allowed by Medicaid for all listed claims

EXPLANATION OF MEDICAID BENEFITS

This is not a bill. The Explanation of Medicaid Benefits (EOMB) listings are now being produced on a monthly basis for a randomly selected percentage of the Medicaid recipient population, therefore you may or may not receive another one.

Listed below are the services Medicaid paid for you on the following dates. If you did not receive all of these services, please write a brief note on this form and return it to:

Section 12: EPS Reports

EPS-0004-M EPSDT Summary of Notices Sent

Functional Area	Report Number	Job Name	Report Title
EPSDT	EPS-0004-M		EPSDT Summary of Notices Sent

Description of Information

The Summary of EPSDT Notices Sent (EPS-0004-M) report provides a monthly listing of recipients who received an EPSDT letter for one or more of the following notification categories: newly eligible, non-participating, re-screening, or pregnancy. The report details the recipient's name, RID number, address, and date of birth. It also provides the recipient's PMP name and PMP phone number, if applicable. As of January 1, 2000, this report includes Package C data.

The number of notifications sent in each notification category and county is totaled at the end of each notification section. The total of notifications sent, by notification category for the state, is calculated at the end of the report. Page breaks occur after each notification category within, each county. Control breaks and page breaks occur at each new county listing.

The notification categories are defined below.

Newly Eligible — A pamphlet is sent to the recipients who are new to Medicaid and are under 21 years of age as well as to those new to Package C and under 18 years of age. This also includes recipients whose eligibility was reinstated.

Non-Participating — A pamphlet is sent to the recipients who have received the newly eligible notification, but have no screening claim history for 12 consecutive months.

Rescreening — A re-screening notification letter is sent to every recipient who has an upcoming screening according to age and the published periodicity schedule. The recipient is to receive this letter the month before the birthday requiring a screening.

Pregnant Women — The pregnant women letter is sent to every recipient in the SOBRA (ICES Aid Categories MAE, MAM, MAN, MAP, MAMP, MANP, MAPP) aid category. Each recipient receives this letter only once during a pregnancy.

> February 1995 month end was the first scheduled delivery of the Summary of EPSDT Notices Sent Report (EPS-004-M), containing October 1994 data.

Purpose

The Summary of EPSDT Notices Sent Report (EPS-0004-M) is used by the OMPP to verify that EPSDT notification letters are sent to eligible recipients and used in conjunction with the Health Department to provide outreach services.

Sort Sequence

- *Primary -* County

Detailed Field Definitions

County	This field displays the name of the county where the recipient resides.
Notification Sent	This field displays the notification sent category. The three categories include newly eligible, pregnant women, and re-screening.
Recipient Name	This field displays the recipient's last name, first name, and middle initial.
RID Number	This field displays the recipient's identification number.
Recipient Address	This field displays the recipient's address.
Date Of Birth	This field displays the recipient's date of birth.
PMP Name	This field displays the recipient's Primary Medical Provider, if applicable. Only those recipients linked to PCCM or MCO have a PMP. If the PMP is a member of a group, the group service location phone number reports.
State Totals	This field displays the total number of notifications sent, by category, for the state.

EPS-0007-Q Vaccines for Children Program Provider Utilization – Medicaid

Functional Area	Report Number	Job Name	Report Title
EPSDT	EPS-0007-Q		Vaccines for Children Program Provider Utilization – Medicaid

Description of Information

The Vaccines for Children Program Provider Utilization Report – Medicaid (EPS-0007-Q) details the quantity and cost of immunizations provided to children 18 years of age and under. This quarterly report lists the number of vaccinations administered by a particular provider.

Totals per county are listed at the end of the report followed by the statewide totals. Page breaks occur at the end of each county.

Production reporting captures claims paid in a particular quarter and is specific to the quarter analyzed. EPS-0007-Q is scheduled to run at the end of each quarter after the partition of claims paid for that same quarter is compiled.

Purpose

The Vaccines for Children Program Provider Utilization Report – Medicaid (EPS-0007-Q) is used by the State to ensure utilization requirements are followed by providers.

Sort Sequence

EPS-0008-M EPSDT Healthwatch Screens Performed Monthly – Medicaid

Functional Area	Report Number	Job Name	Report Title
EPSDT	EPS-0008-M		EPSDT Healthwatch Screens Performed Monthly – Medicaid

Description of Information

The EPSDT Healthwatch Screens Performed Monthly – Medicaid Report (EPS-0008-M) summarizes by county the number of Medicaid EPSDT recipients eligible for Healthwatch screenings and the number of Medicaid EPSDT recipients actually screened. The report is divided into four age categories: birth through age two years, age three years through age five years, age six years through age 14 years, and age 15 years through age 20 years. The age of the recipient is determined as of the last day of the report period. State totals for each age category are calculated at the end of the report.

Only paid physician claims details (including shadow claims) are considered for inclusion in this report. Screening procedure codes include 99381, 99385, 99391, 99395, 99431, and 99432; as well as 99201 – 99205 and 99211 - 99215 when billed in conjunction with an associated diagnosis code of V20 - V20.2, V700, or V703 – V709.

Purpose

The EPSDT Healthwatch Screens Performed Monthly Report – Medicaid (EPS-0008-M) is used by the State to review the number of Medicaid EPSDT recipients eligible for Healthwatch screenings versus the number of Medicaid EPSDT recipients actually screened.

Sort Sequence

- *Primary* - County
- *Secondary* - Recipient age

Distribution

To	Media	Copies	Frequency
EDS	CRLD/Paper	1	Monthly
FSSA	CRLD/Paper	1	Monthly

Detailed Field Definitions

County Name	The name of the county where the recipient resides at the time the report is generated. This is the primary sort criteria for the report
Age 0 Through Age2	The age range for Medicaid EPSDT recipients from birth through age two years on the last day of the report period.

Age 3 Through Age5	The age range for Medicaid EPSDT recipients from age three years through age five years on the last day of the report period.
Age 6 Through Age 14	The age range for Medicaid EPSDT recipients from age six years through age 14 years on the last day of the report period
Age 15 Through Age 20	The age range for Medicaid EPSDT recipients from age 15 years through age 20 years on the last day of the report period
Number Eligible	The unduplicated number of Medicaid EPSDT eligible recipients within the specified county and age category during the reporting period. This includes recipients through the age of 20 years.
Number Screened	The unduplicated number of Medicaid EPSDT eligible recipients within the specified county and age category who had a paid EPSDT screening during the reporting period. Screenings are defined as occurrences of the procedure code and procedure code and diagnosis code combinations as defined above.
Percent Screened	The percentage of eligible recipients screened for each age group on the report. The field calculation is *Number Screened* divided by *Number Eligible* for each age group.
State Total	The state total of unduplicated Medicaid EPSDT recipients eligible for screenings, actually screened, and the percentage of recipients screened. The *Number Eligible* and *Number Screened* fields are a sum of the counties on the report. The *Percent Screened* fields are calculated from the state totals for number eligible and screened.
Grand Total Eligible	The total unduplicated number of Medicaid EPSDT eligible recipients. This field is a sum of the *Number Eligible* fields for each age group under the state totals row.
Grand Total Screened	The total unduplicated number of Medicaid EPSDT recipients for whom a screening claim paid during the reporting period. This field is a sum of the *Number Screened* fields for each age group under the *State Totals* row.
Grand Percentage Screen	The statewide total percent of recipients screened. The calculation is *Grand Total Screened* divided by *Grand Total Eligible*.

EPS-0011-A CMS-416: Annual EPSDT Participation Report

Functional Area	Report Number	Job Name	Report Title
EPSDT	EPS-0011-A		CMS-416: Annual EPSDT Participation Report

Description of Information

The CMS-416 Annual EPSDT Participation Report provides basic information about Medicaid recipient participation in the child health program. This information is used to assess the effectiveness of the State's EPSDT program by of the number of children, by age group and basis of Medicaid eligibility, who are:

1. Provided child health screening services;
2. Referred for corrective treatment;
3. Receive dental, hearing, and vision assessments

There are fourteen lines on the report that provide data such as recipient counts of eligibles, eligibles who received screenings, participation ratios, and eligibles referred for corrective treatment. The data includes fee-for-service and managed care totals.

The recipient's age reports as age on September 30 of each reporting period. If a child is born after September 30, the child would report in the "Under One Year" age group.

The report period follows the Federal Fiscal calendar year.

Purpose

The CMS-416 report demonstrates the State's achievement of its participant and screening goals. From the completed reports, trend patterns and projections are developed for the State and Federal programs. Based on these trends, decisions and recommendations can be made to ensure that eligible children are given the best possible health care. Report data is also used to respond to congressional and public inquiries.

Sort Sequence

None

Distribution

To	Media	Copies	Frequency
EDS	CRLD/Paper	1	Annual
FSSA	CRLD/Paper	2	Annual

Detailed Field Definition

CN	The data for recipients in the Categorically Needy category of Medicaid eligibility grouping. All Medicaid eligible recipients age birth through 20 years old are included as EPSDT eligible in the categorically needy grouping.
MN	The data for recipients in the Medically Needy category of Medicaid eligibility grouping. Indiana does not cover EPSDT services for the medically needy population, so no data is reported in this field.
Total	Totals for both Categorically Needy and Medically Needy eligibility groupings for each of the age groups and lines of data appearing on the report.
Total(Column 3)	Displays count totals for the seven recipient age groupings for each line of data appearing on the report.
Age Groups (Columns, 4 through 10)	Display recipient data by Categorically Needy, Medically Needy, and a total of both groups for each line of data appearing on the report, based on the four age groups of under 1 year, 1 to 2 years, 3 to 5 years, 6 to 9 years, 10-14 years, 15-18 years and 19-20 years.
Total Individuals Eligible For EPSDT (Line 1)	Displays the total number of recipients, from birth to age 20 years, determined to be eligible for Medicaid. This number includes only the Categorically Needy, because Medicaid does not distinguish the Medically Needy. An eligible person is reported only once, although he or she may have more than one period of eligibility during the reporting period.
State Periodicity Schedule (Line 2a)	Displays the state-specific values reflecting the average number of annual initial or periodic screening services for individuals in each age group.
Number of Years in Age Group (Line 2b)	A fixed number reflecting the number of years included in each age group.
Annualized State Periodicity Schedule (Line 2c)	Divide **State Periodicity Schedule (2a)** by **Number Of Years In Age Group (2b)**. This is the number of screenings expected for an individual in each age group in one year.
Total Months of Eligibility (Line 3a)	The total months of eligibility for the individuals in **Total Individuals Eligible For EPSDT (1).**
Average Period of Eligibility (Line 3b)	Divide **Total Months of Eligibility (3a)** by **Total Individuals Eligible For EPSDT (1).** Divide the resulting number by 12. This is the portion of the year individuals remain eligible for Medicaid. The formula for calculation is: $\frac{A}{12}$ A = Total number of months eligible for all recipients B = Total number of recipients
Expected Number of Screenings per Eligible (Line 4)	The expected number of screenings per child per year. The field calculation is **Annualized State Periodicity Schedule (2c)** multiplied by **Average Period Of Eligibility (3b)**, for each age group and eligibility category.

Expected Number of Screenings (Line 5)	This is the total screenings expected to be provided. Multiply Expected Number of Screenings per Eligible (4) by Total Individuals Eligible For EPSDT (1).
Total Screens Received (Line 6)	Displays the combined number of initial and periodic EPSDT screening examinations with dates of service during the fiscal year. The sources of data include reports from continuing care providers and claims paid for such screening services. See *Attachment A* for the CPT-4 codes included.
Screening Ratio (Line 7)	This ratio represents the extent to which EPSDT eligibles receive the number of screening services required by the periodicity schedule. This ratio may not be more than 100%. Calculate as **Total Screens Received (6**) divided by **Expected Number of Screenings (5)**.
Total Eligibles Who Should Receive at Least One Initial or Periodic Screen (Line 8)	This is the number of persons who should receive at least one screening. Calculate as follows: use the lesser of 1.0 or **Expected Number of Screenings per Eligible (4)**. Multiply this by **Total Individuals Eligible For EPSDT (1)**
Total Eligibles Receiving at Least One Initial or Periodic Screening (Line 9)	This is the count of unduplicated individuals, including those enrolled in managed care arrangements, who received at least one screening during the year. See *Attachment A* for codes.
Total Eligibles Referred for Corrective Treatment (Line 11)	This is the count of unduplicated individuals, including those enrolled in managed care arrangements, who were scheduled for further services as a result of at least one health problem identified during screening, (including vision and hearing).
Total Eligibles Receiving Any Dental Services (Line 12a)	This is the count of unduplicated individuals receiving **any** dental service (HCPC codes D0100-D9999).
Total Eligibles Receiving Preventative Dental Services (Line 12b)	This is the count of unduplicated individuals receiving preventative dental service (HCPC codes D1000-D1999).
Total Eligibles Receiving Dental Treatment Services (Line 12c)	This is the count of unduplicated individuals receiving dental services (HCPC codes D2000-D9999). **Note that 12b + 12c does <u>not</u> equal 12a.** Also, *unduplicated* applies to each line, so a child could be counted for both for 12a and for 12b.
Total Eligibles Enrolled in Managed Care (Line 13)	For informational purposes only. This is the number enrolled in some form of managed care as of 9/30. These people and their services are included in Lines 1, 6, 8, 11 and 12.
Total Number of Screening Blood Lead Tests (Line 14)	The number of blood lead tests, not including those for people diagnosed or under treatment for lead poisoning. Count only birth to 5 years old. *Attachment A* lists the procedure codes included for calculation on this line.

Attachment A

The data in *Attachment A* includes the procedure codes and criteria used in the CMS-416 report as well as the new screening procedure codes and criteria for EPSDT in the Indiana*AIM* system.

Line 6: Total Screens Received

These include the following paid procedures billed with diagnosis code V20.2 or V70.0 or V70.3-70.9 as a diagnosis on the claim:

99201-99205	99211-99215	
99381	99391	99431
99382	99392	99432
99383	99393	*W6511*
99384	99394	*W6512*
99385	99395	

NOTE: The W6511 and W6512 are considered regardless of diagnosis code.

Line 11: Total Eligibles Referred for Corrective Treatment

The following criteria are used to count eligibles referred for corrective treatment:

The Line 11 criteria in *italics* no longer apply.

- EPSDT eligible recipients with paid initial and periodic screening procedures (99201-99205, 99211-99215, 99381-99385, 99391-99395, 99431 and 99432), that were billed with the Z8 modifier on a CMS-1500 claim form
- The procedure codes W6511 and W6512 billed with modifier Z8 is a possibility.
- Procedure code 36415 when billed with the Z4 (lead screen) modifier in conjunction with one of the following positive diagnosis codes: 984.8, 984.0, 984.9, 984.1.
- Procedure code 36415 when billed with the Z5 (sickle cell screen) modifier in conjunction with one of the following positive diagnosis codes: 282.60, 282.63, 282.69, 282.62, 282.61.
- Procedure code 36415 when billed with the Z6 (iron screen) modifier in conjunction with one of the following positive diagnosis codes: 280.9, 280.8, 280.0, 280.1.
- Procedure code 86580 or 86585 (tuberculosis test) billed in conjunction with one of the following positive diagnosis codes: 010.0, 010.1, 010.8, 010.9.

Lines 12a, b and c: Dental Assessment Procedures

Individuals receiving:	**HCPC Code**		
Any dental service	D0100-D9999	*Z0910*	*Z5151*
Preventative dental service	D1000-D1999		
Treatment dental services	D2000-D9999		

Line 13: Total Eligibles Enrolled in Managed Care

- The PMP table tells us which enrollees are with an MCO.

Line 14: Total number of Screening Blood Lead Tests

- CPT 83655 except with ICD9 of 984.0-.9, E861.5 or E866.0.

EPS-1007-Q Vaccines for Children Program Provider Utilization – Package C

Functional Area	Report Number	Job Name	Report Title
EPSDT	EPS-1007-Q		Vaccines for Children Program Provider Utilization – Package C

Description of Information

The Vaccines for Children Program Provider Utilization Report – Package C (EPS-1007-Q) details the quantity and cost of immunizations provided to children 18 years of age and under. This quarterly report lists the number of vaccinations administered by a particular provider. The report also lists the total dollar amount reimbursed by the Package C program to the provider for vaccine administration only.

Totals per county are listed at the end of the report followed by the statewide totals. Page breaks occur at the end of each county.

Production reporting captures claims paid in a particular quarter and is specific to the quarter analyzed. EPS-1007-Q is scheduled to run at the end of each quarter after the partition of claims paid for that same quarter is compiled.

Purpose

The Vaccines for Children Program Provider Utilization Report – Package C (EPS-1007-Q) is used by the State to ensure utilization requirements are followed by providers.

Sort Sequence

- *Primary* - County
- *Secondary* - Provider

Distribution

Detailed Field Definitions:

County	The name of the county.
Provider Name	The providers last name, first name and middle initial.
Medicaid Number	The provider's Medicaid number.

#90700	The number of dosages of DTAP vaccine administered by the provider. This data is obtained from paid claims submitted by the provider for the monthly reporting period.
$90700	The dollar amount equal to Package C's reimbursement for paid claims for DTAP vaccinations for the monthly reporting period submitted by the provider.
#90721	The number dosages of DTAP/HIB immunizations administered by the provider. This data is obtained from paid claims for the monthly reporting period submitted by the provider.
$90721	The dollar amount equal to Package C's reimbursement for paid claims for the DTAP/HIB vaccinations for the monthly reporting period submitted by the provider.
#90702	The number of dosages of Td/PED immunizations administered by the provider. This data comes from paid claims for the monthly reporting period submitted by the provider.
$90702	The dollar amount equal to Package C's reimbursement for paid claims for Td/PED vaccinations for the monthly reporting period submitted by the provider.
#90718	The number of dosages of Td/ADULT (Tetanus & Diphtheria) immunizations administered by the provider. This data comes from paid claims for the monthly reporting period submitted by the provider.
$90718	The dollar amount equal to Package C's reimbursement for paid claims for Td/ADULT vaccinations for the monthly reporting period submitted by the provider.
#90737	The number of dosages of HIB immunizations administered by the provider. This data is obtained from paid claims for the monthly reporting period submitted by the provider
$90737	The dollar amount equal to Package C's reimbursement for paid claims for HIB vaccinations for the monthly reporting period submitted by the provider.
#90712	The number of dosages of OPV (Oral Polio) immunizations administered by the provider. This data comes from paid claims for the monthly reporting period submitted by the provider.
$90712	The dollar amount equal to Package C's reimbursement for paid claims for OPV vaccinations for the monthly reporting period submitted by the provider.
#90713	The number of dosages of IPV (Inactivated Polio) immunizations administered by the provider. This data comes from paid claims for the monthly reporting period submitted by the provider.
$90713	The dollar amount equal to Package C's reimbursement for paid claims for IPV vaccinations for the monthly reporting period submitted by the provider.

#90707	The number of dosages of MMR (Measles, Mumps, Rubella) immunizations administered by the provider. This data comes from paid claims for the monthly reporting period submitted by the provider.
$90707	The dollar amount equal to Package C's reimbursement for paid claims for MMR (Measles, Mumps, Rubella) vaccinations for the monthly reporting period submitted by the provider.
#90744	The number of dosages of HBP (Hepatitis B Pediatric) immunizations administered by the provider. This data comes from paid claims for the monthly reporting period submitted by the provider
$90744	The dollar amount equal to Package C's reimbursement for paid claims for HBP (Hepatitis B Pediatric) vaccinations for the monthly reporting period submitted by the provider.
#90745	The number of dosages of HepB-Adol (Hepatitis B Adolescent/High Risk) immunizations administered by the provider. This data comes from paid claims for the monthly reporting period submitted by the provider.
$90745	The dollar amount equal to Package C's reimbursement for paid claims for HepB-Adol vaccinations for the monthly reporting period submitted by the provider.
#90716	The number of dosages of Varicella (Chicken Pox) immunizations administered by the provider. This data comes from paid claims for the monthly reporting period submitted by the provider.
$90716	The dollar amount equal to Package C's reimbursement for paid claims for Varicella (Chicken Pox) vaccinations for the monthly reporting period submitted by the provider.
#90742	The number of dosages of HBIG (Hepatitis B Immune Globulin) immunizations administered by the provider. This data comes from paid claims for the monthly reporting period submitted by the provider.
#90748 Also temporary procedure code Q0158	The number of dosages of Hep B Ped +HIB (Hepatitis B Pediatric and Haemophillus Influenza B) immunizations administered by the provider. This data comes from paid claims for the monthly reporting period submitted by the provider.
$90748 Also temporary procedure code Q0158	The dollar amount equal to Package C's reimbursement for paid claims for Hep B Ped + HIB (Hepatitis B Pediatric & Haemophillus Influenza B) vaccinations for the monthly reporting period submitted by the provider.
County Totals	The total number of VFC Vaccines provided by county and the total dollar amount reimbursed for these vaccines by county.
State Totals	The total number of all VFC vaccines provided by every county and the total dollar amount reimbursed for each VFC vaccines for the state.

EPS-1008-M EPSDT Healthwatch Screens Performed Monthly – Package C

Functional Area	Report Number	Job Name	Report Title
EPSDT	EPS-1008-M		EPSDT Healthwatch Screens Performed Monthly – Package C

Description of Information

The EPSDT Healthwatch Screens Performed Monthly – Package C Report (EPS-1008-M) summarizes by county the number of Package C EPSDT recipients eligible for Healthwatch screenings and the number of Package C EPSDT recipients actually screened. The report is divided into four age categories: birth through 2 years, age 3 years through 5 years, age 6 years through 14 years, and age 15 years through 20 years. The age of the recipient is determined as of the last day of the report period. State totals for each age category are calculated at the end of the report.

Only paid physician claims details (including shadow claims) are considered for the production of this report. Screening procedure codes include 99381, 99385, 99391, 99395, 99431, and 99432 as well as 99201 – 99205, 99211 - 99215 when billed in conjunction with the an associated diagnosis code of V20 - V20.2, V700, V703 - V709.

February 2000 is the first scheduled delivery of the EPSDT Healthwatch Screens Performed Monthly Report – Package C (EPS-1008-M) containing January 2000 data.

Purpose

The EPSDT Healthwatch Screens Performed Monthly Report – Package C (EPS-1008-M) is used by the State to review the number of Package C EPSDT recipients eligible for Healthwatch screenings versus the number of Package C EPSDT recipients actually screened.

Sort Sequence

- *Primary* - County
- *Secondary* - Recipient age

Distribution

EDS	CRLD/Paper	1	Monthly
FSSA	CRLD/Paper	1	Monthly

Detailed Field Definitions

County Name — The name of the county where the recipient resides at the time the report is generated. This is the primary sort criteria for the report.

Age 0 Through Age 2	The age range for Package C EPSDT recipients from birth through age two years on the last day of the report period.
Age 3 Through Age 5	The age range for Package C EPSDT recipients from age three years through five years on the last day of the report period.
Age 6 Through Age 14	The age range for Package C EPSDT recipients from age six years through 14 years on the last day of the report period.
Age 15 Through Age 20	The age range for Package C EPSDT recipients from age 15 years through 20 years on the last day of the report period.
Number Eligible	The unduplicated number of Package C EPSDT eligible recipients, within the specified county and age category, during the reporting period. This includes recipients through the age of 20 years.
Number Screened	The unduplicated number of Package C EPSDT eligible recipients, within the specified county and age category, who had a paid EPSDT screening during the reporting period. Screenings are defined as occurrences of the procedure code and procedure code and diagnosis code combinations as defined above.
Percent Screened	The percentage of eligible recipients screened for each age group on the report. The field calculation is Number Screened divided Number Eligible for each age group.
State Total	The state total of Package C EPSDT unduplicated recipients eligible for screenings, actually screened, and the percentage of recipients screened. The Number Eligible And Number Screened fields are a sum of the counties appearing on the report. The Percent Screened fields are calculated from the state totals for number eligible and number screened.
Grand Total Eligible	The total unduplicated number of Package C EPSDT eligible recipients. This field is a sum of the Number Eligible fields for each age group under the state totals row.
Grand Total Screened	The total unduplicated number of Package C EPSDT recipients for whom a screening claim paid during the reporting period. This field is a sum of the Number Screened fields for each age group under the state totals row.
Grand Percentage Screened	The statewide total percentage of recipients screened. The field calculation is Grand Total Screened divided by the Grand Total Eligible.

EPS-1011-A CMS-416C: Annual EPSDT Participation Report for Package C

Functional Area	Report Number	Job Name	Report Title
EPSDT	EPS-1011-A		CMS-416C: Annual EPSDT Participation Report for Package C

Description of Information

The CMS-416C Annual EPSDT Participation Report provides basic information on participation in the child health program by Package C recipients. This information is used to assess the effectiveness of the State's EPSDT program in terms of the number of children, by age group and basis of Package C eligibility, who are:

1. Provided child health screening services;
2. Referred for corrective treatment;
3. Receive dental, hearing, and vision assessments

There are fourteen lines on the report that provide data such as recipient counts of eligibles, eligibles who received screenings, participation ratios, and eligibles referred for corrective treatment. The data includes fee-for-service and managed care totals.

The recipient's age reports as the age on September 30 of each report period. If a child is born after September 30, the child would report in the "Under One Year" age group.

The report period follows the Federal Fiscal calendar year.

Purpose

The CMS-416C report demonstrates the State's attainment of participant and screening goals. From the completed reports, trend patterns and projections are developed for the State and Federal programs. Based on these trends, decisions and recommendations can be made to ensure that eligible children are given the best possible health care. Report data is also used to respond to congressional and public inquiries.

FSSA	CRLD/Paper	2	Annually

Detailed Field Definition

CN	Data for recipients in the Categorically Needy of Package C eligibility. All Package C eligible recipients age birth through twenty years are included as EPSDT eligible in the Categorically Needy grouping.
MN	Data for recipients in the Medically Needy of Package C eligibility. Indiana does not cover EPSDT services for the Medically Needy population, so no data is reported in this field.
Total	Displays totals for both *Categorically Needy* and *Medically Needy* eligibility groupings, for each of the age groups and lines of data appearing on the report.
Total (Column 3)	Displays count totals for the seven recipient age groupings, for each line of data appearing on the report.
Age Groups (Columns 4,through 10)	Display recipient data by *Categorically Needy*, *Medically Needy*, and a total of both groups for each line of data appearing on the report, based on the four age groups of under 1 year, 1 to 2 years, 3 to 5 years, 6 to 9 years, 10 to 14 years, 15 to 18 years, and 19 to 20 years.
Total Individuals Eligible For EPSDT (Line 1)	Display the total number of recipients, from birth to age 20, eligible for Package C. This number includes only the *Categorically Needy*, because Package C does not distinguish the *Medically Needy*. An eligible person is reported only once, although he or she may have more than one period of eligibility during the reporting period.
State Periodicity Schedule (Line 2a)	Displays the state-specific values reflecting the average number of annual initial or periodic screening services for individuals in each age group.
Number Of Years in Age Group (Line 2b)	This is a fixed number reflecting the number of years included in each age group.
Annualized State Periodicity Schedule (Line 2c)	Divide **State Periodicity Schedule (2a)** by **Number Of Years In Age Group (2b)**. This is the number of screenings expected to be received by an individual in each age group in one year.
Total Months of Eligibility (Line 3a)	The total months of eligibility for the individuals in **Total Individuals Eligible For EPSDT (1).**
Average Period of Eligibility (Line 3b)	Divide **Total Months of Eligibility (3a)** by **Total Individuals Eligible For EPSDT (1).** Divide that number by 12. This is the portion of the year individuals remain eligible for Package C. **The formula for calculation is: A/B** **12** **A = Total number of months eligible for all recipients** **B = Total number of recipients**
Expected Number of Screenings per Eligible (Line 4)	The expected number of screenings per child per year. The field calculation is **Annualized State Periodicity Schedule (2c)** times **Average Period Of Eligibility (3b)**, for each age group and eligibility category.

Expected Number of Screenings (Line 5)	The total screenings expected to be provided. Multiply Expected Number of Screenings per Eligible (4) by Total Individuals Eligible For EPSDT (1).
Total Screens Received (Line 6)	This field displays the combined number of initial and periodic EPSDT screening examinations with dates of service during the fiscal year. The sources of data include reports from continuing care providers and claims paid for such screening services. Refer to *Attachment A* for the CPT-4 codes included.
Screening Ratio (Line 7)	This ratio represents the extent to which EPSDT eligibles receive the number of screening services required by the periodicity schedule. This ratio may not be over 100%. Calculate as **Total Screens Received (6**) divided by **Expected Number of Screenings (5)**.
Total Eligibles Who Should Receive at Least One Initial or Periodic Screen (Line 8)	This is the number of persons who should receive at least one screening. Calculate as follows: use the lesser of 1.0 or **Expected Number of Screenings per Eligible (4)**. Multiply this by **Total Individuals Eligible For EPSDT (1)**
Total Eligibles Receiving at Least One Initial or Periodic Screen(Line 9)	This is the count of unduplicated individuals, including those enrolled in managed care arrangements, who received at least one screening during the year. Refer *to Attachment A* for codes.
Participant Ratio (Line 10)	This ratio indicates the extent to which eligibles are receiving screening services during the year. Calculate as Total Eligibles Receiving At Least One Initial Or Periodic Screening (9) divided by Total Eligibles Who Should Receive At Least One Initial Or Periodic Screening (8*). (Note - this ratio has been changed per CMS.* See \\DSIBLAN\projdev\PROJECTS\EPSDT\CMS 416 Mods\Line10Reply.txt.)
Total Eligibles Referred for Corrective Treatment (Line 11)	This is the count of unduplicated individuals, including those enrolled in managed care arrangements, who were scheduled for further services as a result of at least one health problem identified during screening, including vision and hearing.
Total Eligibles Receiving Any Dental Services (Line 12a)	This is the count of unduplicated individuals receiving any dental service (HCPC codes D0100-D9999).
Total Eligibles Receiving Preventative Dental Services (Line 12b)	This is the count of unduplicated individuals receiving preventative dental service (HCPC codes D1000-D1999).
Total Eligibles Receiving Dental Treatment Services (Line 12c)	This is the count of unduplicated individuals receiving dental services (HCPC codes D2000-D9999). **Note that 12b + 12c does <u>not</u> equal 12a.** Also, *unduplicated* applies to each line, so a child may be counted for both 12a and for 12b.
Total Eligibles Enrolled in Managed Care (Line 13)	For informational purposes only. This is the number enrolled in some form of managed care as of 9/30. These people and their services are included in Lines 1, 6, 8, 11 and 12.

Total number of Screening Blood Lead Tests (Line 14)	The number of blood lead tests, not including those for people diagnosed or under treatment for lead poisoning. Count only birth to 5 years old. *Attachment A* lists the procedure codes included for calculation on this line.

Attachment A

The data in *Attachment A* includes the procedure codes and criteria used in the CMS-416C report as well as the new screening procedure codes and criteria for EPSDT in the Indiana*AIM* system.

Line 6: Total Screens Received

These include the following paid procedures billed with diagnosis code V20.2 and/or V70.0 and/or V70.3-70.9 as a diagnosis on the claim:

99201-99205	99211-99215	
99381	99391	99431
99382	99392	99432
99383	99393	*W6511*
99384	99394	*W6512*
99385	99395	

NOTE: The W6511 and W6512 are considered regardless of diagnosis code.

Line 11: Eligibles Referred for Corrective Treatment

The following criteria are used to count eligibles referred for corrective treatment:

The Line 11 criteria in *italics* no longer apply.

- EPSDT eligible recipients with paid initial and periodic screening procedures (99201-99205, 99211-99215, 99381-99385, 99391-99395, 99431 or 99432), that were billed with the Z8 modifier on a CMS-1500 claim.
  - The procedure codes W6511 and W6512 billed with modifier Z8 is a possibility.
  - Procedure code 36415 when billed with the Z4 (lead screen) modifier in conjunction with one of the following positive diagnosis codes: 984.8, 984.0, 984.9, 984.1.
  - Procedure code 36415 when billed with the Z5 (sickle cell screen) modifier in conjunction with one of the following positive diagnosis codes: 282.60, 282.63, 282.69, 282.62, 282.61.
  - Procedure code 36415 when billed with the Z6 (iron screen) modifier in conjunction with one of the following positive diagnosis codes: 280.9, 280.8, 280.0, 280.1.
  - Procedure code 86580 or 86585 (tuberculosis test) billed in conjunction with one of the following positive diagnosis codes: 010.0, 010.1, 010.8, 010.9.

Lines 12a, b and c: Dental Assessment Procedures

Individuals receiving:	**HCPC Code**		
Any dental service	D0100-D9999	*Z0910*	*Z5151*
Preventative dental service	D1000-D1999		
Treatment dental services	D2000-D9999		

Line 13: Total Eligibles Enrolled in Managed Care

- The PMP table tells us which enrollees are with an MCO.

Line 14: Total number of Screening Blood Lead Tests

- CPT 83655 except with ICD9 of 984.0 through 984.9, E861.5 or E866.0.

EPS-9001-M EPSDT Screening Notification Letter

Functional Area	Report Number	Job Name	Report Title
EPSDT	EPS-9001-M		EPSDT Screening Notification Letter

Description of Information

The EPSDT Screening Notification Letter (EPS-9001-M) is a system - generated letter sent to EPSDT recipients monthly. A letter is sent to each recipient one month prior to the next scheduled screening visit in accordance with the published periodicity schedule. For a newborn, the first letter is generated for the screening required at 12 months of age. The letter details the family help line, the WIC program, the age categories for HealthWatch visits, and the Hoosier HealthWise program.

The recipient's address is printed on the back of the letter so that it may be folded for mailing in a window envelope. A return address for the Department of Family and Children county where the recipient resides is also included on the back of the letter for visibility in the window envelope. If the letter is undeliverable for any reason, it is returned to the county office listed on the letter.

Purpose

The EPSDT Screening Notification Letter (EPS-9001-M) is sent to EPSDT recipients to remind them of their next HealthWatch screening and to encourage participation in the HealthWatch program. The first delivery of this letter is scheduled after the February 1995 month end processing.

[current date]

Dear Parent or Guardian:

According to our records, you or your child may be due for a HealthWatch checkup. Please ask your doctor if it is time to schedule a HealthWatch checkup.

The HealthWatch program helps children and teens stay healthy through regular checkups, immunizations (shots), and treatment for health problems. HealthWatch helps you watch for and treat health problems before they become serious. Checkups are recommended at these ages:

* 1 month	* 9 months	* 24 months	* 6 years	* 14 years
* 2 months	* 12 months	* 3 years	* 8 years	* 16 years
* 4 months	* 15 months	* 4 years	* 10 years	* 18 years
* 6 months	* 18 months	* 5 years	* 12 years	* 20 years

You may receive HealthWatch services through the Hoosier Healthwise program. For more information about the different Hoosier Healthwise program benefit packages call 1-800-889-9949 (toll free call). Most Hoosier Healthwise benefit packages allow you to:

- Choose your own doctor
- Get medically necessary health care
- Arrange for transportation to health care services (limited to certain benefit packages)
- Get care coordination services for pregnant women (limited to certain benefit packages)

The Indiana Family Helpline can provide you with more information about health care services available in your area. You can phone the Indiana Family Helpline (toll free) at 1-800-433-0746.

Another program that helps families stay healthy is the WIC (Women, Infants and Children) program. WIC provides food vouchers to income-eligible pregnant or breast-feeding women and children up to 5 years old. For more information about the WIC program, call the Indiana Family Helpline at 1-800-433-0746.

EPS-9002-M EPSDT Pregnant Women Notification Letter

Functional Area	Report Number	Job Name	Report Title
EPSDT	EPS-9002-M		EPSDT Pregnant Women Notification Letter

Description of Information

The EPSDT Pregnant Women Notification Letter (EPS-9002-M) is a system-generated letter sent to pregnant women who are eligible for Indiana Health Coverage Programs because of pregnancy. This category of pregnant women is defined as those in the SOBRA aid category, which includes ICES categories MAE, MAM, MAN, MAP, MAMP, MANP, and MAPP. The letter describes Care Coordination services for pregnant women, the HealthWatch program, the WIC program, and the Hoosier HealthWise program.

The recipient's address is printed on the back of the letter so that it may be folded for mailing in a window envelope. A return address for the Department of Family and Children county where the recipient resides, is also included on the back of the letter for visibility in the window envelope. If the letter is undeliverable for any reason, it is returned to the county office listed on the letter.

The EPSDT Pregnant Women Notification Letter (EPS-9002-M) is sent monthly and each pregnant recipient receives only one notification letter during her pregnancy. The first delivery of these letters is after February 1995 month end processing and includes women who meet the eligibility requirements for the month of February 1995.

Purpose

The EPSDT Pregnant Women Notification Letter (EPS-9002-M) educates EPSDT eligible pregnant women on the Indiana Health Coverage Programs that can provide preventive health care for children from birth up to age 21 (up to age 18 for Package C).

[current date]

Dear Mother-To-Be:

Before too long, you will bring a new life into the world. We want you to know about these services that can help you and your baby stay healthy.

Care Coordination Services for Pregnant Women

Ask your doctor about these services.

WIC Program

WIC (which stands for Women, Infants and Children) provides food vouchers to income-eligible pregnant or breast-feeding women and children up to 5 years old. For more information about the WIC program, call the Indiana Family Helpline (toll free) at 1-800-433-0746.

HealthWatch Program

HealthWatch provides free checkups, shots and medical treatment to income-eligible children under 21 years old. Ask your child's doctor about the HealthWatch program.

Hoosier Healthwise Program

Hoosier Healthwise benefit packages cover many health care services for Hoosier families who meet income guidelines. For more information about the different Hoosier Healthwise program benefit packages, call 1-800-889-9949 (toll free call). Most Hoosier Healthwise benefit packages allow you to:

Choose your own doctor

Arrange for transportation to health care services

Get medically necessary health care services related to your pregnancy

Get care coordination services for pregnant women.

Please see your doctor regularly during your pregnancy. After your baby is born, update your and your baby's records with each health care program in which you are enrolled.

EPS-9004-M EPSDT – Newly Eligible EPSDT Recipient Pamphlet

Functional Area	Report Number	Job Name	Report Title
EPSDT	EPS-9004-M		EPSDT – Newly Eligible EPSDT Recipient Pamphlet

Description of Information

The EPSDT Recipient Pamphlet (EPS-9004-M) is used to address a system-generated pamphlet sent to newly eligible EPSDT recipients monthly. The job creates the labels for the addresses of recipients receiving the pamphlet. The pamphlet is printed from a different file. The pamphlet details the immunization schedule, HealthWatch checkup schedule, Family Helpline, and the Hoosier HealthWise Hotline.

The recipient's address is printed on the back of the tri-fold pamphlet. A return address for the Department of Family and Children county where the recipient resides is also included on the pamphlet. If the letter is undeliverable for any reason, it is returned to the county office listed on the letter.

Purpose

The Newly Eligible EPSDT Pamphlet (EPS-9004-M) is sent to EPSDT recipients to remind them of their benefits and to encourage participation in the HealthWatch program.
